INTRODUCTION

Astrology is the science which deals with the inter-relation between the signs of the Zodiac, the constellations, planets and with other celestial phenomena which control and direct every happening on earth. It deals with all worldly occurrences and one can read the past and future events with accuracy by applying the cardinal principles of the Science of astrology.

To many, it would appear that it is a subject which can be learnt and practised only by people who live on superstition and whose minds are not scientifically bent. It is wrong to look upon astrology as based on superstition or to view it with contempt or denounce it as inaccurate, unscientific and empirical. The person who has not studied it properly and applied it correctly or who has been disappointed by consulting people with a half-baked knowledge usually attacks this science. The books which are available for study are (nothing but) similar to the notes written by students in Colleges. By reading the notes alone without studying the texts and sitting for an examination, one cannot always expect to secure a first class or even a pass. He has to devote enough time upon thinking, analysing and thereby improving his knowledge. Similarly, the books on astrology are largely the notes given by intelligent, industrious and eminent Hindu sages and learned Western Savants - They are not exhaustive and complete by themselves. Though, these books are necessarily incomplete, the fundamental principles are very well expounded. Therefore, it is necessary for us to do enough research to improve on it and make it perfect. In my experience, I have found that certain additions and explanations to the rules laid down by the Sages, make the predictions complete and correct. Therefore, one should first collect the various charts, study, write predictions, keep them with him and note down the fulfilled predictions as well as those unfulfilled. Then find out the cause of the failures and follow only that method through which correct results are obtained. When one feels confident that failures are greatly reduced, then alone, one should start making predictions to anybody in any branch of this Science.

This science will admit of a broad division into five branches:

1. Medical Astrology; (Astro, Pathology;)
2. Astro-meteorology;
3. Judicial astrology;
4. Horary astrology and
5. Natal astrology.

1. Medical Astrology is concerned with the diagnosis of diseases, the methods of healing, also the time of the onset of the ailment, the duration of the disease and the psychiatric aspects that may influence the progress and prognosis of the diseases. Hippocrates renowned as the "Father of Medicine" has stated, "A physician cannot safely administer medicine if he is not acquainted with astrology". It means that in the absence of astrological knowledge, to start with, he has often to proceed only by trial and error methods and apply remedies by rule of thumb till he eliminates many diseases by varied examinations and ascertain the precise nature and cause of the diseases. But if he knows astrology, he can locate the part of the body affected, detect the disease and select the opportune time for treatment. This will bring fame and satisfactory remuneration to the doctor and at the same time restore the patient to good health; otherwise the patient will have to become a guinea pig for experimental tortures. This will result in loss of time and often life; it will be a great loss to the nation too. But if a doctor knows astrology and medicine sufficiently well, he will prove to be a really successful practitioner

2. Astro-meteorology is useful for predicting the condition of the weather. This has received considerable attention in other countries, where they have found it to be very useful. It assists in preplanning and thereby preventing any catastrophe which may otherwise befall such as heavy rains causing floods and breaches or drought, leading to famine.

3. Judicial Astrology will predict important events which a country will pass through and also wars, earth quakes, financial crisis, losses by fire, floods and famines.

4. Horary Astrology is used to predict particular aspects and has a limited application. By applying it, one can predict if one's efforts will be successful or not; whether a person will return from a far-off land or stay there itself; whether and when marriage is likely to come off; description of the partner; the nature of the disease and duration of ill-health of persons, whether cure is indicated or if it may prove fatal, etc. It is entirely based upon the moment of the questioner's arrival or on being told to give a number within 249. Here the astrologer visualises a map of the horizon for that moment and studies it for that particular question. Therefore horary astrology serves the people to derive mental solace and have a correct picture of the immediate future (Horary means "occurring every hour").

5. Natal Astrology concerns largely with the birth of a human being. A chart is made out for the moment of birth for the particular place of birth (latitude and longitude being taken into consideration) and from such a chart one can read all events which he desires to know. Here, not only the native's character, temperament and peculiarities may be judged but also his longevity, condition of health, accident - prone, finance and fortune, marriage, birth of children and also prosperity or adversity. Moreover, the actual date of any occurrence in his life can be calculated. Therefore, natal astrology is most useful for all, whether he is born a King, a Kubera or a beggar because health and longevity are really precious to every individual. Fortune, prosperity and above all peace of mind and happiness are desired by all. Hence natal astrology is the most useful branch of this science and it therefore behoves all of us to support and encourage genuine research by trained workers and scholars to complete the incomplete phases just as in every other branch of science.

Now let me deal with the sub-branch of Natal astrology; in the Hindu system it is called "Gochara-Palan", which Westerners call "Transit". I would like here to state with great humility, for the information of the public and also of the scholars in astrology that my method of prediction is in a way an improvement in the

application of the general principles of astrology handed down to us by our ancient sages and scholars.

According to the Western system, the astrologers take the radical position of the Sun at the time of birth, consider the relative position of the planets transiting the zodiac and give out their results. Whereas in India, according to our Hindu system, the position of the Moon at the time of birth of native (Nirayana system) is taken as the starting and determining point to which the transiting position of the planets are related and according to the relative position, we read the results and say whether the time is auspicious or not. Both the methods are incomplete and the percentage of failures is therefore large. This is no doubt not desirable.

(a) The Western System: Let us take for example, two persons who were born in different years but on the same date say 10-8-1913 and 10-8-1916 respectively. Suppose the person born on 10-8-1913 ask an astrologer whether he will come out successful in the election and if the astrologer were to predict that, at the time of the election, the relative positions of the planets transiting the zodiac being very favourable, compared to the position of the Sun at the time of the birth of the native, success in the election is promised, then the same opinion must be offered to the other who is born on 10-8-1916. Suppose both of them stand for election to the same seat in the same locality, how is it possible for both to win? only one can win while the other must lose. So we should consider how far this method of prediction will be of avail to the querist.

Again suppose one was born on 17th May 1926 and another on 17th may 1940. Both play cards or one borrows money from the other or one gives alms to the other; while at cards one should gain and the other should lose; while lending money, one should part with his money and the other should receive it, and thereby the lender's financial position deteriorates and the borrower's improves - similarly while giving alms one donates and the other receives. Now, you will note that all these people, were born on

the same date but in different years and the position of the Sun in both the case, was in the same sign and in the same degree. On the basis of the principles followed by Westerners, i.e., according to the relative position of the transiting planets to that of only Sun in the birth chart, diametrically opposite results cannot be foretold. There is no proper explanation for such effects when the rules on Transits, taking Sun's position alone, are strictly adhered to.

(b) The Hindu System: You will find the above similarity in the Hindu method also. We are not able to explain why quite opposite results are enjoyed or experienced by one and the same rasi-births, i.e., people born when the Moon was transiting a particular constellation. For example, when the Moon was transiting Bharani star i.e., Mesha Rasi, two people were born on different dates, even in different years. Now one born in Bharani star compete with the other Bharani native: one comes out victorious while the other gets defeated. Again suppose a plaintiff in a law-suit is born in Bharani, the defendant is also born in Bharani and the Judge also happens to have been born in Bharani. Now, look at the result. One of the two Bharani star natives gets the favourable judgement, the other is vanquished and the third Bharani star native delivers the judgement. We also understand that

(a) An Aswini Nakshathra native is admitted in a hospital at the time when another Aswini Nakshathra person gets discharged after treatment.

(b) A Pushya Nakshathra Inspector of police arrests another Pushya Nakshathra criminal. The Inspector is happy, because he was able to trace the culprit and to discharge his duty while the other is within bars.

(c) An Anuradha Nakshathra car driver runs over another Anuradha Nakshathra pedestrian.

(d) Sravana Nakshathra person has a legal dispute with another Sravana Nakshathra native. The judge born in Sravana

Nakshathra passes a judgement by which one gains and the other loses.

(e) Poorvashada star native owns a house. Another Poorvashada star native is a tenant. The owner occupies on the day, the tenant vacates.

(f) A Jyesta star native sells a car due to pressure for money, while another Jyesta person purchases from him.

Thus, you will see that the same star people experience diametrically opposite results.

So, to predict the Gochara or transit results taking only the star position into consideration, is incomplete.

That is why the Rasipalans published in the dailies, weeklies and monthlies vary even in the essentials so widely and so erratically that they give scope to the public for ridiculing this noble science. Therefore, there should be a fool-proof and accurate method by which a correct prediction can be offered. For doing this, a complete chart is necessary and the relative position of all planets transiting is to be judged with the position of all planets in the chart and especially the position of Lagna, etc.

The Public may ask: "Why then such an incorrect one is handed down to us?" what is handed down to us is incomplete. It appears that, if one knows only his date of birth or only his birth-star (Nakshathra) he too should, to some extent get a prediction that will give mental solace. Astrology includes also psychotherapy; it should be able to give mental strength to the people who are depressed so that they can work with enthusiasm, entertaining hopes of better times to come; even when suspense is threatened, such people will not worry any longer. They will wait with pleasure for better days. So astrologers offer predictions which may be true to a limited extent, especially to a few.

Actually, if the position of each and every planet in the chart of a subject is taken into account, the prediction offered should

not fail. A cent percent success is assured by taking the lagna and the position of various planets including Uranus and Neptune, as well as that of most sensitive point, Fortuna, at the time of the birth of the native and the position of the planets transiting in the Zodiac along with the several aspects that are being formed and then offering the results.

It will be observed that people born on the same date in different years with different positions of the planets enjoy different results. The readers will find this for themselves that, when all planets are taken into consideration and the results so derived are used and the general predictions are accordingly modified, only correct results are obtained.

For example, two girls born in Rohini star, are taken of whom one gets married in a particular year and the other gets married the next year. In such cases, one can find that, according to the position of the lords of 2, 7 and 11th houses in each horoscope and to the relative position of the planets transiting in the Zodiac, the planets promise marriage of the former in the particular year; whereas for the latter, they portray the wedding only in the following year. Thus one will find that even though both are born in the same star, the events occur on different dates. This is due to relative positions of the relevant planets at the time of birth and transiting in the Zodiac.

If it were possible for any one to collect the charts of many couples who get married on a particular date in a given place, city or town, or at least note down their birth dates and birth stars which will reveal the positions of the Sun and also of the Moon at birth, it will be found that people born with the Sun in each of the 12 rasis and with the Moon in any of the 27 stars get married on that very same date. You will also not find that only Aswini star people get married on that particular day or only Bharani or any other star. You will find actually that people born in all the 12 months of the year and under all 27 stars get married.

Now let us see what the sages have declared. Jupiter while transiting in 2 or 5 or 7 or 9 or 11th house counted from the Moon's

3ignZ offers Gurubalam which is good and in all other positions, in relation to the Moon, there is no Gurubalam or Viyazhabalam or Brihaspathi Balam. If to a girl, Jupiter transits in the third house ordinary astrologers naturally will predict that, because Jupiter is transiting in 3, Gurubalam is not found and hence marriage will not materialise. Unfortunately, they will realise soon that their prediction has miserably failed when, fortunately for the girl, the marriage has come off. In 1961 Jupiter entered Makara. Only after Jupiter transited through Makara, many anusham star girls got married even though it (Jupiter) was in the third rasi. When we follow the principles that Jupiter in 2, 5, 7, 9 and 11th houses alone can give fruitful results, how can marriage take place when Jupiter is in the third house? Again in every year, if you collect the charts of the people born under the same star, you will find that, in all years a few of the people born under the same star, e.g.; Pushyam (Poosam) star get married or enjoy life or get promotion or otherwise realise their ambitious. So when you compare the position of the transiting planets with the position of the Moon or Sun at the time of the birth of the natives, you will find that in all positions on different dates, wedding was celebrated to one or the other born under the star or born on the same date. Here also, you will conclude that the science is incomplete. But when you apply the method described herein, you will understand that there is not even one percent error but everything comes out very accurately and correctly, which will go to prove that astrology is really a mysterious and wonderful science, given only to the few who have the Divine Grace. So you have to consider the positions of all the planets and Lagna at the time of birth and assess them in relation to the relative positions of all the planets transiting in the Zodiac at any future predicted date.

It may be argued that the Hindu method is better than the Western. We Hindus, as stated already, take the relative position of the Moon, while the Westerners take the position of the Sun as the basis of computation. Probably the Westerners take into consideration the vitality, health and the profession of the native, as being all important and this trait is governed by the Sun.

The Hindus take into consideration the Moon's position because of the following important reason:

The Moon is called 'Mathi' or the Mind. The transiting planets may be harmonious or inharmonious in their aspects with the Moon and accordingly one feels elated or upset. Our ancestors always desired to have peace of mind and tried to avoid upsets. So they cared more for the mental faculties so that they can meditate, concentrate and pray to God.

Another reason is really the most appealing. If one takes the pre-natal epoch, it will be seen that the Moon's position at the time of the birth in the chart is exactly the ascendant (lagna) at the time of epoch in 50% of the cases. So, at the time of the epoch, a particular part of the Zodiac rose in the East. After roughly 9 months when the Moon transits in that position, birth takes place. Similarly that particular part of the Zodiac which rose at the time of the birth called the ascendant or lagna was exactly the same position of the Moon at the time of the epoch of the child. Thus, Hindu sages compare the relative positive position of the ascendant (lagna) at the time of the epoch as the Moon's position in the birth chart. As the child grows from the time of the epoch, it would be really more appropriate and correct to take that into consideration. This may convince everyone.

Whatever be the reason, it is found that both the Western and the Hindu methods of prediction on the transits of planets fall in many cases, whether referred either only to the Sun or only to the Moon.

Let us analyse. If one takes the ascendant and the Moon's position (i.e. Rasi) separately and note the results, they are bound to vary. If both are taken, one can have the truth. Suppose a man bets in a race and makes some money; then naturally he feels happy but in practical life he is found to be somewhat worried and dissatisfied because he had missed an important winner he was sure about. When his chart is examined, you will find that the ascendant (success or failure) had only a moderately beneficial aspect, whereas the Moon (reaction mind) had an

inauspicious one. Therefore, his attempts had been successful only to a certain extent, but made him mentally ill at ease. Another person goes to the race course and loses a few hundreds. But he comes out merrily saying "Better luck next time". Why! He had a particular horse in mind, but at the time he betted, he deliberately changed over to another horse, a fluke. This he did with the fullest knowledge that he was taking a chance and he lost because his ascendant was in evil aspect. But the Moon was in a beneficial aspect and so he did not mind the loss and vowed to win later.

Again when both the ascendant and the Moon have evil aspects; the man's attempts fall and he mopes. If both the ascendant and the Moon's position are in good aspect, he wins and feels elated. It is one of the many fundamental points confirmed by series of researches made, that, even though the Moon's position be the same, if the ascendant were to be different, the results will be variable and therefore we have to take the ascendant primarily and then only the Moon, the Sun and the other planets, in order to know all the results accurately.

One more example will confirm that the 'Gocharapalan' offered by taking the date of birth. I.e., the Sun's position alone will not be correct in all cases. Take the date of birth and also the star of the students who are all declared successful in any given Public Examination - several thousands sit for the same examination on a particular date and their results are published all at the same time. It is no wonder that people born under all the 27 stars are found to have passed. If we collect the charts of those who have failed, it will be found that they were also born on all the days of the year and under all the 27 star. This particular aspect has been the subject of detailed research by the editor and his students.

We should also take into our main consideration the position of Fortuna. Fortuna is otherwise called Pars Fortuna. This is the most sensitive and fortunate Zodiacal point. Its distance from the ascendant is as the Moon is from the Sun in longitude, i.e., if

you add the longitude of the Moon to that of the ascendant and then deduct the longitude of the Sun, you arrive at the longitude of Fortuna - it is the position of Thithi added to Lagna. Always the position of all the planets and Moon's node are readily obtained by referring to the ephemeris; but the place of the Fortuna is to be worked out from the horoscope itself and it varies for every moment because every fourth minute, the next degree of the Zodiac rises in the East and thereby the longitude of the ascendant is rapidly changing.

The Lagna moves very fast about one degree in every four minutes. The fastest moving planet is Moon; So position of Fortuna changes every moment and each birth will have its position in different longitudes even though it may be within only a few minutes of each other. Unless both are born at the same time in the same latitude and longitude, the Fortuna cannot be in the same position for those births. Fortuna has no influence on character but is said to benefit the sign in which it is found to be.

For the transit results, in my personal experience, Fortuna deserves serious attention and it indicates certain results which are not shown by the aspects formed by the transiting planets to those in the natal chart. As long as we have found out that the results enjoyed by people born within a few minutes difference of each other, show diametrically opposite results, then one should try and find out what is it that is so fast moving as to cause opposite effects. All research scholars will surely declare that if the fast changing ascendant and Fortuna are always included in all calculations and predictions offered, there can be no great room for disappointment.

So far, I have shown by specific instances that predictions made by applying 'Gocharapalan' taking the transit of planets and referring to the position of only the Sun or only Moon of a native at his birth are liable to serious gross errors.

I will now give instances to prove that identical results are enjoyed by people whose birth took place at the same minute in the same latitude and Longitude. I place before the readers in a

tangible and a systematic form, my reasons. It is for them to accept or reject. I am sure it will be accepted.

My readers will do well at this stage to pause and ponder over the significant truth i have placed before them.

The first instance related to two persons born at the same time and both got married to carrier girls who were earning. They had no children but both couples were very fond of domestic pets, cats and dogs. The two mates were lecturers showing identical interests in politics, social welfare, philosophy and religion. Minor events also in their lives were strikingly similar, as for example, both suffered from tooth-ache at the same time and period and had their infected teeth pulled out at the same time and on the same day. The two male partners were in no way related to each other and they hailed from separate villages, next to each other.

Another instance is about two men, born in the same village, who narrated their experience after they had lived there for a fairly long time. Their temperaments, behaviour and character were identical. Both had pleasing manners always with a smile and were never rude to anyone. Both were robust in health. Whenever one fell ill, the other also ailed from the same disease at the same time. Each of them got married in the same period and had the same number of children of the same sex. Both of them lost a child in the same month and brought up the same number of children. One was a journalist and the other was a writer of fiction. Mercury, Mars and Jupiter were the signs who ruled over their profession. The culmination of this extraordinary similarity was in the death of these two natives on the same day.

Yet another instance relates to a report that appeared in a foreign journal in 1820. It mentioned that Samuel Hannings died at the age of 82. He was born on 4-6-1738, at a place, situated in the same latitude and longitude as King George III, who ascended the throne in October 1760. Mr. Hennings was then an independent businessman. On the same day when the King got married, Mr. Hennings took Elsie for his wife. Both had the

same number of children of similar sexes. Both were long-lived and died at the same hour on 2-9-1820.

Instances can be multiplied of such remarkable coincident happenings.

It is recommended to judge the outstanding events and episode that would happen to natives taking position of the lagna.

Lagna or Ascendant, i.e. first house, indicates, health, longevity, success or failure in one's attempts, etc.

To different births having different houses as Lagna, lordship of Moon and Sun will vary, e.g. people born in Aries (Mesha) as Lagna, Moon is lord of 4 and Sun is lord of 5. If the transiting planets afflict Moon it shows the difficulties to be faced by mother and not by the person. But, as Moon is the chief governor for the mind he will not be happy due to the troubles to his mother. Similarly if Sun, lord of 5 (according to date of birth), is afflicted by the transiting planets, the children may suffer, whereas the native will not have any adverse result.

Always one should necessarily note of which house Moon is the lord and which house Sun governs. Good aspect to Ascendant promises good health and success to the person. If Moon is the lord of any particular house, one is to note down the matters governed by that house. Good aspect to Moon improves those matters. Bad aspect to Moon does harm to the matters indicated by that house. Similarly one is to note down the aspect to the Sun; find out to which house Sun happens to be the lord. As each house-bhava-signifies certain matters, consider which are shown by the house which Sun owns counting from the Lagna. Good aspect to Sun indicates improvement of these denoted by Sun whereas bad aspects spoil them. A few Westerners take like this.

Suppose one is born in Virgo (Kanni) as Ascendant, 2 hours before another born in Libra (Thulam).

			Leo
		Libra	Virgo

As sun owns Leo, to the person born in Virgo Ascendant, Sun is lord of 12 indicating either loss or separation or

hospitalisation or life in a foreign place or away from relatives and some changes.

But to the person born in Libra-Thulam-Sun is lord of 11, It promises peace, pleasure, profit, progeny, prosperity, permanent tie of friendship, partner reunion, etc.

Therefore, for persons born on the same day due to the change in Lagna, the lordship of Sun changes. Therefore, it indicates diametrically opposite results.

If both refer to the dailies wherein the prediction is offered for the date of birth they understand that the astrologer has given the prediction taking into consideration the position of Sun at birth and the position of the planets transiting. Does it not appeal even to a common man that good aspect and good result mentioned will apply (a) to the person regarding the matters indicated by the 11th to Libra-born, (b) to the good health and success of his elder brother (11th house shows elder brother.)

The same good aspect to Sun shows loss of investment, journey, separation, etc., to a Virgo-born native.

So the Libra-born will have re-union and profit whereas the Virgo-born loses and gets separated, though the Sun is in the same degree, in the same sign and all the other planets also do not change their signs.

Also it is worth the while to note the following:-

(a) collect the horoscope of those born with Moon in Cancer.

(b) Sort out the Aries Ascendant, Taurus, Leo, Virgo, etc. verify the results.

To the person born in Aries Ascendant and Moon in Cancer, if a prediction is offered taking the Moon sign, the prediction will apply to mother. If it is said that people born with Moon in Cancer have Saturn in 8 and it will affect the health, actually the Aries-borns find (a) the mother is unhealthy and not he or she; (b) the car gives trouble, needing a mechanic's attention and (c) the

house needs some repairs. Another born in Taurus ascendant observes (a) he is not able to proceed on short journeys; (b) cannot edit any book; (c) brother or younger sister is ill, etc. One born in Leo, incurs loss; one born in Virgo gains. One born in Capricorn says all the results read for Cancer sign agrees mostly with those enjoyed by my wife, the reason being that Moon governs the 7th house.

Therefore

(a) Predictions must be offered with reference to Lagna, various cusps and all planets.

If you have a doubt or if your horoscope is to be cast very accurately, send

- (a) the place of birth-nearest town
- (b) time of birth
- (c) date, month and year
- (d) sex
- (e) name; to any of my students and have it corrected.

It is common knowledge that various predictions are routinely given in the monthly and weekly journals based on 'Gocharapalan' and write that those who are running beneficent dasa and favourable bhukthi will have a good time during the auspicious transit. They add further that, if the dasa bhukthi will appear to be menacing then the results will not happen. If the transit and the dasa and bhukti are both beneficial, then the native will get his desire fulfilled and will enjoy favourable results. If both the dasa and bhukti as well as the transit are adverse, the native will face untold miseries. This is what we find, mentioned in these predictions.

it is necessary to point out in this context that the dasas which are adopted by Astrologers are many. Among these Udu dasa, Vimshottari, Astottari dasa, Kalachakra dasa are generally applied. Which of these is to be followed is not stated by the

predicting astrologers of today; Vimshottari is perhaps what they go by.

Let me pose to them the case of twins who have got the same lagna and the same position of planets, with more or less the same dasa and bhukthi, but running with a difference of 1 month and six days. Both are in Rahu dasa, Guru bhukthi at the time they tried for a job. One was appointed and the other rejected. In this case the dasa and bhukthi and anthra will be found to be more or less the same in both. But the results of the efforts have been diametrically opposite. A careful approach and a critical study will soon reveal the reasons for the same.

Regarding a man's financial position and success in competition, one has to take the beneficial transit to the 2nd cusp and its lord: 1,2,3,6,10 and 11 are advantageous. Similarly the evil transit to the cusps of 1,2, 3, 6, 10 and 11 as well as the beneficial transit to the cusps of 4, 5, 7, 8, 9 and 12 are unfavourable to the native. This relates only to the financial position and also to success or failure in competition, litigation, election, etc. as per western.

I wish here to impress upon the reader the imperative necessity of bestowing deep thought and mature consideration, analytical study and further research in order to predict correctly, and where necessary, to interpret modifications and variations that are bound to be noticed in actual practice of this Science, just as is found in other sciences like medicine, that concern and relate to human welfare.

Western System - Transit for Individual Charts

No planet is stationary excepting those for a very short period during the time when they commence retrograde motion or take direct course after retrograde motion. All planets are ever moving. Therefore, if we note down the position of the planets (a) at the moment of the birth of a person or (b) in the progressed horoscope these planets will be (a) either transiting over the point occupied by the planets (b) while transiting they may form either

favorable or unfavourable aspects. They also take into consideration, the Cusps of the 12 houses both in the birth chart and also in the progressed horoscope. During transit a person feels the results, if there is either conjunction or strong aspects for e.g., 60 degrees; 120 degrees; 90 degrees, 150 degrees and so on. Whereas one may not even notice a result if the aspects were to be minor like 18 degrees; 54 degrees and so on. One may pose the question whether the effect of transit will be similar to that enjoyed for the same aspect in progression. The answer is that the nature of the result will be similar but the extent, strength and duration varies. In progressed chart the experience will be for a long period whereas in the transit the duration will be very little. Let me explain giving an example; suppose Mars forms evil aspect with 8th Cusp, no doubt it shows danger and difficulties. In a progressed horoscope these results will be felt for some months. But if Mars during transit forms evil aspect with 8th cusp then the threatening period lasts only for a week. We may compare that the effect of an aspect being formed by progression will be similar to the rain in the rainy season which lasts for months. But the same aspect being formed during transit will be similar to the rain in summer for a day or for a few hours. To thoroughly understand the results to be enjoyed according to transit, the student must study the results contributed to the various aspects among two planets. Because the results is for a short period, one has to modify the results and put it in a mild tone. Supposing a lady has been born with strong benefics occupying favourable houses and if it is promised that she would be a career woman then any evil planet forming adverse aspect during transit cannot cause strong adverse results because there can be mild humiliation, irritation or worry.

According to Westerners the correct method of judgment is as follows:-

1. Find which planet moves to form the aspects with either the cusp or the planet in the natal chart, and also in the progressed chart. The duration depends on their speed. Therefore if Moon forms an aspect, it lasts for a fortnight. Mercury, Venus, Sun and

Mars, forming similar aspects cause the results for a period of a few months. Jupiter and Saturn while moving, forming an aspect will cause the effect for at least six months. Uranus, Neptune, etc., will give the effect for years.

2. If the transiting planet moves forward and retraces i.e., retrogrades then the duration will be much longer. If a planet while in direct motion, in retrograde motion and again in direct motion forms the same aspect or a malefic aspect, it causes repeatedly the same results. One should not ask whether it can give marriage on all the three dates when it forms such aspects. One has to take that on all these three occasions, negotiation, fixation, celebration and if in one of the previous aspects, marriage was celebrated, then during the next similar aspects, happy life with wife is to be interpreted. Normally, the effect is said to last from the time the planet is about 8 degree away from the position for exact aspect and 8 degrees away from the same aspect. Therefore, a planet offers the results when it transits for 16 degrees. The faster the movement of a planet the quicker will be the results and it will be for a short period, whereas slow moving planets have to move 16 degrees and the duration is long. Therefore, the effect will be for a long period.

3. When one planet 'A' forms good aspect and another planet 'B' forms adverse aspect, both will operate.

4. When the aspect is exact, the result will be the utmost.

5. The effect caused by the transiting planet is more important in the natal chart, than that in the birth chart.

6. One should not omit to note the transit of the Sun over the position of the planets in the natal chart. Sun indicates major events. Mercury, Moon and Venus show minor results.

7. If a planet forms an aspect during its transit similar to the aspect which it had at the time of the birth in the natal chart, the results indicated by the aspect among them will be predominant. Let it be explained with an example. Supposing Saturn at the time of the birth was forming an adverse aspect with another planet, then during transit whenever Saturn forms evil aspect with

the same planet will cause very strong evil effect. But if it forms harmonious aspect then the extent to which it can do harm is much less.

8. Every year, as soon as you get the ephemeris, note the movement of each planet and find out when they transit over the position of the planets (that is conjunction) and during those days, they will give the results to a good extent.

"19. if a planet 'A' forms good aspects with planet 'B' at the moment of birth, then whenever during transit 'A' forms good aspect with 'B' most advantageous results will be enjoyed. In all these cases whenever planets form aspects, they will do experience on the day when Moon by transit forms favourable aspect, though not the same. For example if Jupiter forms good aspect with Venus, the results will be enjoyed. Jupiter may form a trine aspect, but Moon will give the results even though it may be sextile, semi-sextile, etc.

10. Even though all aspects cannot be found between Sun and Mercury, Sun and Venus, Mercury and Venus in the birth chart, yet, during transit all aspects will be found. Therefore, whatever aspect during transit may be found among these the results will be mild. But at the same time as the duration is short, one can realise it and experience it to a small extent, Duration is short; the extent to which one can enjoy is also small.

11. During transit one should include the aspects like parallel also.

12.If in the Progressed Horoscope, there is favourable aspect and in transit also a harmonious aspect is being formed, one can enjoy most advantageous results. But if in the Progressed Horoscope, the aspect is evil whereas in the transit the same planets form favourable aspects then the advantage will be very mild, the aspects formed in the Progressed Horoscope lasts for a long period and if offers results to a good extent: the transit is not so

13. The above is followed by Westerners and not included in my system.

HINDU SYSTEM

What Westerners call as 'Transit' is known as 'Gocharapalan' by the Hindus. As already mentioned, Hindus take only the position of the Moon, i.e., the sign which it occupies, whether it is in the very beginning or in the middle or in the end of the sign. The movement of planets are also taken sign by sign, and never the relative position or the exact longitudinal distance between Moon and the planet is taken for consideration. The effects of the Transit of each planet is given. It is also mentioned that whenever Sun and Mars enter into the neighbouring house they offer the result immediately, whereas Jupiter and Venus while transiting in the middle of the sign will offer the result indicated.

Saturn does not give as soon as it enters in a sign; but only at the time when it leaves the house. But Moon and Mercury, always give the results whether it is in the beginning or in the middle or in the end of the sign. The extent to which a planet can give its results would be according to the strength or weakness, followed by Hindus, whether it is exalted or Vargothamamsa or Swakshetra or in neutral sign or friend's house or enemy's camp or debilitated. The position of the sign denotes only the extent to which it can do good. One should not mistake that exalted planet will not offer evil results whatever be the position which it occupies. In that case whenever Jupiter is exalted, the whole world should thrive; none can die; none can starve; every one must be successful. How can it be possible? In the court of Law, one can win, the other is to lose, for both, Jupiter is exalted. Therefore, we should not interpret that exalted planets will invariably do good. Similarly also we can't say that the debilitated planets will do harm. It is absurd, if one were to interpret in that manner.

Again it is said that one should first consider the Dasa System which is superior, and then alone find out what one can enjoy by the transit. Our Sages are of opinion that unless the dasa agrees with that of the transit what ever is said for transit system will not operate. That is, unless the dasa is good, favourable transit

cannot do good. Unless the dasa is bad, adverse transit cannot cause adverse results. Here I differ from them. Transit and dasa must agree. Their method of judgement is wrong. If one follows K.P, he can understand that both agree hundred per cent and the transit is useful to find out the exact moment of the result and it is just like a second-hand to note when exactly a matter will materialise. If dasa can be compared to a day, Bhukthi may be compared to hour, Anthra to minute and transit to second.

Again there is another dicta by which one is to modify by noting whether the results indicated by a planet transiting in a particular sign in relation to Moon, will operate or not. This is said as Vedha, Sun offers advantageous results while it transits in the signs 3, 6, 10 and 11 counted from Moon sign. But the same result will not operate if Sun is in 3 and some other planet is in 9. Sun is being aspected by any planet transiting in the 7th house, counted from the sign where Sun was. So if Sun is in 6, no planet should be in 12. When Sun is the 10th sign, 4th house should be vacant, If sun is in 11 counted from Moon, the 5th counted from Moon must be vacant. Similarly for Moon, it is said it can offer beneficial results when it transits in the signs 1, 3, 6, 7, 10 and 11 counted from that of Moon. TherVedha position for Moon is 5, 9, 12, 2, 4 and 8 respectively. That is, say, if Moon transits in the 7th sign counted from the position of Moon at the moment of the birth, then no planet should be in 2 counted from birth Moon.

For Mars, the houses 3, 6 and 11 are auspicious and the Vedha positions are 12, 9 and 5 respectively.

For Mercury the signs 2, 4, 6, 8 and 11 are favourable; Vedha positions are 5, 3, 9, 1 and 12 respectively. For Jupiter, the favourable signs are 2, 5, 7, 9 and 11; and the Vedha positions are 12, 4, 3, 10 and 8. For Venus, the signs 1, 2, 3, 4, 5, 8, 9, 11, 12 are all favourable. The signs 6, 7, 10 are unfavourable; Vedha positions are 8, 7, 1, 10, 9, 5, 11, 6 and 3 respectively.

Saturn can do good when it transits in 3, 6, and 11: Vedha positions are 12, 9 and 5. There is an exception in this. No Vedha position need be considered if Vedha is between Sun and Saturn; and also between Moon and Mercury. That is, if Sun is in the third house and Saturn is in 9, then Sun will give the beneficial result and Saturn will not rob away. So also, if Moon transits in 10, it is advantageous and if Mercury were to be in 4, it will continue to do good and there is no Vedha.

Now, let us consider various results given for each planet when it transits in each sign, counted from the position of Moon.

Nodes Transit:

(It takes nearly 1.5 years for Rahu and Kethu to transit from one sign to the other. The nodes Rahu and Kethu always move in the opposite direction to that of Sun and Moon.)

Rahu offers the results similar to that of Mars in transit. Kethu gives such of those indicated by Saturn.

Hindus do not include Uranus or Neptune.

The transit of the planets are used by the Hindus to reduce the duration of a long period according to dasa, bhukthi and Anthra. These rules must be included while judging the transit results.

1. A particular bhava results will be enjoyed at the time the lord of the ascendant during its transit passes in a sign which

is 5 or 9 counted from the sign occupied by the lord of the house which is judged. For e.g. if the 7th house matter of a person is judged he will be successful if the lord of the ascendant transits in a sign 5 or 9 counted from the sign occupied by lord of 7, both in rasi and Navamsa.

2. When the lord of the ascendant transits the house in question.

3. When the lord of the house transits the 5th or the 9th house counted from the sign in rasi and in Navamsa occupied by the lord of the ascendant.

4. Or when the lord of the Bhava transits in the ascendant itself.

5. When the lords of the houses and that of the ascendant come in conjunction or aspect each other.

6. For each house there is a governor - Karaka. So if the Karaka of the house in question transits and comes in conjunction with lord of the ascendant or the lord of the house where Moon was deposited i.e., the chief governor of that house should come in conjunction with the lord of the Lagna or the lord of the Rasi.

7. Jupiter during transit transiting in a sign which is 5 or 9 both in Rasi and in Navamsa to the sign occupied by the lord of the house under judgment. Then the advantageous results of that house may be looked for. The opponents will be subdued and they come under the control of the person whenever lords of the ascendant and that of the 6th house during transit conjoin together, and in that sign lord of the 6th house is stronger, then the result will be just opposite. Supposing one is born in Gemini ascendant and both Mercury and Mars conjoin in Capricorn where Mars is exalted then he will face adverse results and the opponent will win. Whenever the lord of a house and the lord of the ascendant happen to be either natural enemies or temporary enemies and if they transit in 6 and 8 to each other there will be

enmity, jealousy, etc. But if they are friendly and if they transit in favourable houses one is to predict desirable and agreeable results. If the lord of the ascendant conjoins with the lord of a house and the latter is strong, improvement of the matters signified by the house is to be expected. Otherwise, no. Just like, the above rules are given taking lord of Lagna into consideration, so also one should take the lord of the sign where Moon was at the time of the birth and offer the prediction.

Whenever Saturn transits either in Rasi or in Navamsa the sign occupied by lord of 8 or 12 counted from that particular bhava, the matters signified by those, both get destroyed in full. So also one can expect such an adverse result whenever Saturn moves in the signs which are 5 and 9 to Rasi and Navamsa occupied by the lord of 8 or 12 counted from the same house.

One is to expect the death whenever Saturn transits in Rasi and Navamsa occupied by (A) the lord of the 8th house (B) Gulika (C) Saturn or (D) the lord of the 2nd decanate counted from the ascendant.

Note the lord of the decanate to the ascendant; also find out the lord of the 8th and that of the 22nd decanate. Death takes place when Jupiter transits the Rasi or the Navamsa occupied by any of the three planets or whenever Jupiter transits the Rasi or Amsa which are 5 and 9 counted from the position occupied by any of the three planets.

(The three planets are, the lord of the decanate of the ascendant the lord of the 8th house and also the lord of the 22nd decanate).

Again one is to note down the transit of Sun. The rule given here by the sage is very much complicated. And one gets such an answer that Sun transiting in any of the 12 Rasas can give death. In the previous condition it is said that Jupiter should transit either Rasi or Amsa that is two signs. Thrikona to them

another 4 signs i.e. 6 signs. These 6 signs are for each planet that is lord of the 8th house for him 6 signs. Lord of 22nd decanate 6 signs. Therefore, all signs are in any manner connected with to cause evil. Therefore, if a person were to die in any year, in any month this rule will answer, whether Jupiter is in Aries or any one of the 12 signs. It is really most deplorable and also paining to follow such rules. Similarly also they have said for Sun. For Moon also they have pitched up similarly. I strongly declare that this method followed by Hindus is really useless. If a man were to die at the age of 20, there are rules; at the age of 30 there are rules; at the age of 40, there are other rules; at the age of 90, even then there are rules. Oh God How long a time are the traditional astrologers to make the best use of the various rules? Is there no end to it? Can't they improve? Can't they give up and study my method.

KRISHNAMURTI SYSTEM

DIVISION OF ZODIAC : The Zodiac is divided into twelve equal parts; each division is called a Solar mansion (or Rasi or Sign)

They are Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

The Hindus

have another division also. The Zodiac is divided into twenty seven equal parts, each measuring $13^{\circ}-20'$. They commence from Aries 0° and end by Pisces 30° . The 27 divisions are called Lunar Mansions (Nakshatras, Asterisms, Stars Constellations). They are called Ashwini, Bharani, Krithigai, Rohini... Uthrapathrapada and Revathi.

The explanation that I can offer why they have taken 9 planets and divided the Zodiac into 27 Nakshatras is as follows :-

The Zodiac is 360° in Longitude. What is the sanctity in the

number 360. Probably, Sun moves in between the stars, in its path the Ecliptic - daily on an average about $1/360^\circ$ of the circle. So, every day in 24 hours Sun moves 1° . Further, 360 is divisible by 1, 2, 3, 4, 5, 6, 8, 9 and 10 when it will be easy for other calculations. It is first divided into 3 equal parts of 120° each. The four signs Aries, Taurus, Gemini and Cancer make up 120° in the segment AEL. The next four signs Leo, Virgo, Libra and Scorpio form 120° and they are in the segment LES; Sagittarius, Capricorn, Aquarius and Pisces are the last 4 signs in the segment SEA measuring 120° .

(A is Aries 0° , S is Sagittarius 0° and E is earth.)

All planets moving from the point A (Vernal Equinox) Aries Mesha according to Nirayana System get their results modified as they move in the Zodiac. In the first $13^\circ-20'$ i.e. 0 degree to $13^\circ-20'$ and planet transiting in Mesha (Aries) will be influenced by Kethu, and the constellation is called Ashwini. Then when passes on, between $13^\circ-20'$ and $26^\circ-40'$ Venus influences it; this area is called Bharani. Between $26^\circ-40'$ and 30° of Aries and 0°

Taurus to 10° Taurus, the planets results will be modified by Sun. Karthigai is the name of the star, or constellation which I call as Zone. Then from 10° Taurus to 23°-20' Moon modifies the results of the planet occupying this Zone or Lunar Mansion called Rohini. Between 23°-20' in Taurus and 30° Taurus as well as 0° Gemini to 6M0' in Gemini, the mansion called Mrigasirisha is ruled by Mars and the planet in this Zone will be under the control of Mars.

The next 13°-20' called Arudhra, is governed by Rahu; next Punarvasu is ruled by Jupiter (Guru). It is followed by Pushya and Ashlesha governed by Saturn and Mercury respectively.

Similarly, from Simha 0° (Leo) upto the end of Scorpio, the four signs are divided into 9 lunar mansions (called Nakshatras, Stars or Constellations). They are called Makam, Poorvapalguni, Uthrapalguni, Hastham, Chithrai, Swathi, Visakam, Anuradha and Jyesta which are ruled by 9 planets in the same order, viz. Kethu, Venus, Sun, Moon, Mars (Sewai, Mangal, Angaraka, Kuja) Rahu, Jupiter (Guru), Saturn (Sani) and Mercury (Budha).

The remaining 113 of a Zodiac SA contains the 4 signs Sagittarius, Capricorn, Aquarius and Pisces and the nine constellations in it are Moolam, Poorvashada, Uthrashada, Sravana, Dhanishta, Sathabisha, Poorvathrapada, Uthrapathrapada and Revathi. The planets Kethu, Venus, Sun, Moon, Mars, Rahu, Jupiter, Saturn and Mercury rule the stars in the same order.

Hence, planets in between 0° and 13°-20' in Aries (Aswini), 0° and 13°-20' in Leo (Makam), and 0° and 13°-20' in Sagittarius (Moolam) will be under the sway of Kethu; 13°-20' in Aries to 26°-

40' (Bharani), 13°-20' in Leo to 26°-40' (Poorvapalguni); 13°-20' to 26M0' in Sagittarius (Poorvashada) these three zones are ruled by Venus and Planets transiting in these zones are under the influence of Venus and the results of Venus will be offered by the planet, transiting in this zone.

Thus, each planet governs three zones in the Zodiac.

If a planet, were to be in Aswini, another in Makam and the third in Moolam, all are under the influence of Kethu and are in Kethu's zone. If the astrologer says that a planet is modified by the lord of the constellation, Kethu, then the statement is not complete and clear. He has to add, whether it is In Aries, or Leo, or Sagittarius, otherwise one cannot locate the position of the planet correctly.

Suppose a father has three sons Brahma, Vishnu and Siva presume that each son has nine children and every son gives the same order of names. Rama, Baratha, Lakshmana Sathrugna, Dharmaputhra, Bhima, Arjuna, Nakula and Sahadeva The first issue of all three are called "Rama", the second issue of each is called "Bharatha" and so on, and the last issue of each of them will be "Sahadev". If a postman has to deliver a letter with the address Rama alone, how can he exactly fix up to which Rama it refers. The moment he calls out Rama, three Ramas will respond. Instead, suppose all the 27 children are given different names, like Aswini, Bharani etc., how easy it is to identify.

Similarly, instead of calling each lunar mansion as Kethu 1 (Aswini), Kethu 2 (Makam), Kethu 3 (Moolam), Venus 1 (Bharani), Venus 2 (Pooram), Venus 3 (Pooradam), and so on, or as Kethu in Mesha-Aries, Kethu in Simha-Leo, Kethu in Dhanus (Sagittarius) and so on; the ancients gave different names to all the 27 stars (27 zones of 13°-20') commencing from Aswini and ending with Revathi

They were aware that the stars are not equally elongated from 0° to 13°-20' and then another from 13°-20' to 26M0' a so on. The Zodiac does not give the appearance of a circular wheel made of a cane with 27 rings in it. But the Zodiac is an imaginary pathway in the heavens. 360° in length and 15° in width with stars scattered all over, in and outside the Zodiac, and the stars appear as dots and not rods. The constellations selected by our sages are either a group of stars or any single bright star so that they can be first identified easily.

A few of them are in the Zodiac itself but the majority of the groups are around the constellations which are named after these groups. These stars (constellations) may be very close to the 27 divisions of the Zodiac or far away, and they may be either to the North or to the South of the Zodiac. A few groups are very near and in the next constellation and yet they are chosen because they can be identified easily and they will be useful for reference and calculation to locate where a particular constellation would commence and end in the Heavens; further, there is no other constellation within or near the zone which can be unmistakably identified. Therefore, these 27 stars are to guide us, so that we can calculate and ascertain the position of the 27 zones in the Zodiac, each measuring 13"-20'.

These 27 constellations are governed by the 9 planets. Hence, each planet rules over three zones at an interval of 1213° (e.g.) KETHU - Aswini, Makam, Moolam, VENUS (Sukra) - Bharani, Pooram, Pooradam and so on.

These zones modify the results of the planets transiting the Zodiac and not the stars, scattered in the Heavens which are far, far away. Planets are the immediate neighbours of our Mother Earth and these belong to one family. Probably this is the reason why they have selected only 27 groups of stars even though there are numberless stars in the sky which can influence the earth as much as these 27 groups.

Suppose (a) there is a light in the centre of a circular room provided with 12 glass panes of different colours (b) around the room there is a verandah and outside it, there are 27 glass panes of which the colour, 1, 10 and 19, is the same; 2, 11 and 20 differ from 1, 10, 19 but these three are of the same colour; 3, 12 and 21; differ from others but these three of the same colour as they belong to one group. Similarly, all the 27 panes are of 9 different colours.

If a person walks outside the circular verandah looking at the light inside, he will find the colour of the light getting changed according to the colour of the coloured panes. Similarly, the

results of the planets are modified by the lord of the sign and indicated by the lord of the Nakshathra or constellation.

If a planet is compared to a torch light then the influence of the sign - Solar Mansion occupied by it and the influence of the Zones of $13^{\circ}.20'$ called stars, change the colour of the light. Suppose a railway guard shows the light, It may be plain or green or red according to the background mirror.

Similarly, imagine that the mirror used behind the bulb is the lord of the sign. It may be clear and it may illuminate to a maximum or it may be dull rendering the light, weak. The strength and modification of the colour depends, on the mirror behind the bulb (which is the reflector) which denotes whether a planet is exalted and strong or debilitated and weak.

Also suppose one coloured slide is inserted between the torch light and the observer this colour depends on the lord of the constellation "C" when 'P' is the planet (which is the bulb).

Therefore, the results of a planet in different positions in the Zodiac, in different signs and different constellations, is similar to the light from the torch getting modified and the resultant becoming absolutely different from the original light, unless all the colours are similar to that of the planet.

In my researches, I found that one should not satisfy himself with the modification of the lord of the constellation alone. But one has to find out further subdivisions, which should be scientific, so that one can explain the differences between twin births.

So I have divided each star in a manner which will be explained shortly. Suppose, we do not subdivide, then we offer prediction taking into consideration, the situation of a planet in a particular sign and star. It will be similar to saying that a particular dasa of a person will be brilliant. The dasa lord may be Venus. It will run for 20 years. Even, though, in general, these 20 years might have proved to be beneficial, yet there would have been occasions when he could have had difficulties, trials and tribulations also, but these difficulties when compared to the beneficial results, may not be much. It may be similar to a person being foretold that he would gain in a race on a particular day. No doubt he may lose in the first race, lose in the second, gain in the third, again lose in the fourth and gain in the last few races. When we calculate, we may find that he had gained on that particular day. But consider his anxiety whenever he lost, especially in the first two races. It is similar to taking a planet, the sign and the star in which it was and passing judgment. But according to "Krishnamurti System" it will be possible to say that he will gain at a particular time and also conclude that it is a day of profit. This method of forecast is not merely advantageous, but correct and convincing as well.

Suppose a person is told that during Venus Dasa, he will be fortunate. No doubt during Venus Dasa, Venus Bhukthi he gets married. Venus dasa Sun Bhukthi he starts business; Venus dasa, Moon Bhukthi he goes overseas; Venus dasa, Mars Bhukthi he has a son, Venus dasa Jupiter Bhukthi there is expansion in the business and he has another child. During Venus class, Saturn Bhukthi there is some labour trouble and minor losses. In Venus dasa, Mercury Bhukthi he opens branches, takes up agencies and during Venus dasa, Kethu Bhukthi he visits various pilgrim centres. On the whole, no doubt, the person get married, started business, went overseas, expanded business and stabilized it. Also, one would not forget that he had lost a member of the family, had labour trouble, suffered some loss and had worries for some time. If a person is informed that in these 20 years, Venus will cause Rajayoga it will not help him much. But indeed,

it would be useful only when he is informed both; the time of event and also the nature of event, both good and bad. So, the dasa of 20 years is subdivided into subperiods otherwise called bhukthis.

On the same analogy, I established that the division of a constellation was necessary if correct results are to be forecast.

Suppose a person is informed that he will have very good business and profit on a particular day, he feels depressed till 2 P.M., as there was no business till then and in these hours he loses his faith in astrology; but the planets so adjust that a few marriage parties enter his shop and make purchases from him for an amount much greater than what he had been normally collecting daily. If the same astrologer could tell him that only between 2 and 4 PM; on that day he would do excellent business, would have been advantageous for both. So, the subdivision of the constellation are an imperative necessity to predict exact time of event.

Again, as a result of intensive research, it has been possible to find out why a person receiving a few letters on a day in a particular moment, feels very happy when he goes through the contents of a letter, next feels dejected and depressed when he reads the other, gets irritated when he goes through the third and so on. It was found that the Ascendant and the cusp of the houses move faster than the planets and it is the ascendant and the cusp of the houses which explain such rapid changes, though the relative position among planets and their occupation of the star and sub remain the same.

The ascendant can move in a sign for about 2 hours but in a constellation, it can only be for about 50 to 58 minutes. But certain events may happen within an interval of 10 or 15 minutes. Therefore, there should be some other minute factor which brings about varying results in a very short time. So it was found that the ascendant in that constellation (Star) showed that he would receive letters. But to indicate which moment he would read a pleasant letter, which moment he would read a letter which would

irritate him and so on, further divisions of the constellation was necessary. This method was found to be convincing and scientific.

Let us take another example. Suppose, we judge the results according to the transit of the planets. It is generally stated that Saturn while transiting the 11th house will produce most desirable results.

Saturn will be passing through the 11th house, roughly for a period of two and a half years. Saturn signifies certain matters to the person according to his chart and only such of those matters alone will be expected by him. It is not uncommon (1) that for a long time after the entry of Saturn into the 11th house, the person continues to suffer and is not able to reconcile (2) some actually suffer all the time whereas they enjoy when Saturn transits in the 12th sign. When Saturn is in 11, what actually one will enjoy or experience depends on the lord of the constellation and the lord of the sub, according to Krishnamurti System and this would explain why the general rule fails.

First of all, I would like to say emphatically that all persons having Saturn in 11 cannot expect favourable results because the ascendant may be different and the lords of the constellations in the 11th house may be ruling evil houses to that lagna-born. Thereby the person will experience difficulties through the source indicated by Saturn (the transiting planet). But, according to my technique, when Saturn is passing in a constellation, throughout that period, he neither enjoys nor suffer uniformly but during certain periods he finds beneficial results compensating for the difficulties. The method which I advocate will prove to be very correct and it can never fail; because, I take the subdivision of the constellation. The constellation indicates the matters signified by its lord; the planet transiting influences such results denoted by the lord of the star through the source denoted by the transiting planet (by nature, lordship and occupation) and it is the sub-lord which decides whether the result is favourable or unfavourable. The lord of the constellation is similar to the lord of a dasa of the Vimshothari system, whereas the sub is the lord

of the subperiod or Bhukthi. So, I have evolved a method to divide the constellation based upon the sound principle of astrology, which will appeal to one and all.

In Aswini, the first sub is allotted to Kethu, the second to Venus, the third to Sun, the fourth to Moon and so on till the last sub is given to Mercury. Aswini is ruled by Kethu. So the first sub is allotted Kethu.

Suppose Moon enters a particular constellation, say Bharani (the second star of the 27 stars), the longitude of which extends from 13°-20' to 26°-40' of Aries (Mesha) and a child is born at that moment. What do we say? Is it not that the child is to run Venus dasa and it will have 20 years of Venus dasa left over at the time of the birth? The child is having Venus dasa, Venus Bhukthi at the time of the birth. If moon moves a little further, say 1° (i e 14°-20' in Aries - Mesha), we say that the child has a balance of 18 years 6 months and also that the child will have Venus dasa, Venus Bhukthi at the time of birth. But, when Moon has moved 20/120 of Bharani and a child is born then, we say that the child has a balance of 16 years 8 months and that the child is having venus dasa, sun bhukthi just starting. If moon further moves by 16/120 of the star, we say the child will be having Venus dasa, Mars Bhukthi. Moon moves further by 7/120 of Bharani. So, Mars sub is also over; Rahu sub-starts. Let it go on. When it completes 18/120 of this star, Rahu sub is over and Jupiter starts. Thus it will be seen that the Moon is influenced by the exact position which it occupies in the constellation. Therefore, Moon in the beginning is under the sway of Venus and the sub of Sun. Next it passed in the same constellation belonging to Venus but to the sub of Moon. It is followed by the sub of Mars, then by Rahu, Jupiter, Saturn, Mercury, and lastly by Kethu. So according to Krishnamurti System each constellation is subdivided into 9 parts. They are not equal in the longitude but the longitude of each sub is in the proportion in which they are allotted the total number of years in Vimshothari dasa system.

The longitude of each constellation is $13^{\circ}-20'$ equal to 800 minutes. Therefore, in every constellation of 800 minutes each planet will have an area equal to the number of years allotted to each in the dasa multiplied by $6\frac{2}{3}$ minutes (800/120). Therefore, Sun's sub extends to 40 minutes ($6 \times 6\frac{2}{3}$) whatever be the constellation. Mars and Kethu extend for $46\frac{2}{3}$ minutes ($7 \times 6\frac{2}{3}$). Moon extends for $1^{\circ}6'-40''$, Saturn $2^{\circ}-6'-40''$, Rahu extends for exactly 2° . Jupiter has an area of $1^{\circ}46'40''$, Mercury $1^{\circ}-53'-40''$, Venus $2^{\circ}-13'-20''$.

Even though the area allotted to each planet is the same in each star, yet the order in which they occupy the constellation differs. To note the order, one has to find out which planet rules the constellation, then the beginning of the constellation is used by the lord of the star, just like in any dasa, the first sub period or bhukti is ruled by the dasa lord. The second sub is ruled by the Bhukti lord who will follow the dasa lord. Then in the same cycle order the subs will be ruled as in the bhukthi.

KARTHIGAI - UTHRAPALGUNI - UTHIRASHADA (SUN) 6-YEARS								
								
6/20	10/120	7/120	18/120	16/120	19/120	17/120	7/120	20/120

If the star is Karthika, note the lord of the star. It is Sun. Hence, allot the first sub to Sun. In the cyclic order, who will follow Sun? It is Moon. So the second sub is given to Moon, the third to Mars, the fourth to Rahu and so on, till the last sub is governed by Sukra.

PUNARPUSHYAM - VISAKAM - POORVAPATHRAPADA (JUPITER) 16-YEARS								
								
16/20	19/120	17/120	7/120	20/120	6/120	10/120	7/120	18/120

If the star is Punarpoosam, otherwise called Punarvasu, the first subdivision is governed by Jupiter; next by Saturn and the last by Rahu.

PUSHYAM - ANURADHA - UTHRAPHATHRAPADA (SATURAN) 19-YEARS								
♄	♂	♂	♀	☉	♄	♂	♂	♄
19/20	17/120	7/120	20/120	6/120	10/120	7/120	18/120	16/120

If the star is Pushya, the lord is Saturn. Therefore, the first sub is governed by Saturn, the second sub is ruled by Mercury, the third is allotted to kethu and so on till the last sub is under the sway of Jupiter.

ASLESHA - JYESTA - REVATHI (MERCURY) 12-YEARS								
♂	♂	♀	☉	♄	♂	♂	♄	♄
17/20	7/120	20/120	6/120	10/120	7/120	18/120	16/120	19/120

If the star is Ashlesha, otherwise called Ayilyam, the first subdivision is governed by Mercury, the next by Kethu and so on, till the last subdivision is allotted to Saturn,

Thus all the twenty seven stars are divided among the nine planets, It may appear as though the whole Zodiac is divided into 27 multiplied by 9 parts. Actually, the lord of the sign, the lord of the star and the lord of the sub will be 249 instead of 243, due to the change in the sign lord (lord of the sign), as certain subs are found in 2 adjacent signs. (Furthermore one can sub divide and record the results. This is for research students)

A few stars are called in different terms. They are:

1. Krithik - Karthikal
2. Mrigasira - Mrigashirisha
3. Arudhra - Thiruvadhirai
4. Punarvasu - Punarpusam
5. Poorvapalguni - Pooram - Pubba
6. Uthrapalguni - Uthram
7. Anuradha - Anusham
8. Jyeshtha - Kettai
9. Poorvashada - Pooradam
10. Uthrashada-Uthradam
11. Sravana-Thiruvonam
12. Dhanista-Avittam
13. Sathabisha-Sathayam
14. Poorvathra - Poorattadhi
15. Uthrapathra - Uthrattadhi

The other 11 stars are called by the same name.

CONSTELLATIONS AND THEIR SIGNIFICANCE

(Each star is divided into 4 equal divisions. Each part is called either pada or quarter = 3°-20'. Half of a star = 6°-40'. When a constellation commences in one sign and extends in the next succeeding one, it is mentioned as 'a' and 'b'. The numeral number given for each star is the number of the star in the 27 constellation starting from Aswini)

When one runs Mars Dasa Kethu Bhukthi or Kethu dasa, Mars Bhukthi, the matters signified by Mars and Kethu to that native will materialize when either of them or either of the luminaries transit in the Zone. Sun will transit in this area between 14th April and 27th April every year. Moon will transit on Aswini star once in 27 days.

If one runs Sun Dasa Mars Bhukthi or Mars Dasa Sun Bhukthi, what results these two planets indicate to that person, will be enjoyed when either of them transit in Karthigai 1st quarter. Sun will be there between 10th May and 13th May every year. It is most likely that this sub period which will run only for 4 months and 6 days may be in the other months. In such cases Sun will transit on the day of enjoying the result in Mars star Sun sub or Sun's star Mars Sub. This is applicable to similar circumstances. If one expects a promotion during Sun Dasa Mars Bhukthi or Mars Dasa Sun Bhukthi, though the period runs for 126 days, one can pitch up the exact date as mentioned above.

WHAT EACH STAR SIGNIFIES TO EACH LAGNA OR RASI BORN

Normally when we judge a horoscope, we prefer to follow the Vimshottari system and also include the Gochara (Transit). We judge the lord of the dasa, and consider him to be either favourable or not,

- a. by the house it occupies.
- b. By its lordship,
- c. By its nature and
- d. By the planets conjoined with or aspecting the dasa lord.

Further to find out to which extent a planet is capable of bringing out the result is estimated according to Sadbala or as per Astagavargha. In practice, it is found that the dasa lord offers certain nature of results in its period which is not indicated by its nature, lordship or occupation in a sign or house. For example, a person born in the Ascendant Libra- (Thulam) having Mars in the constellation Jyesta in Scorpio in its own sign, a fixed one has given an opportunity to leave his kith and kin, get separated from his family, go overseas, learn how to manufacture press ink and return. Mars, as lord of 2, in the 2nd house itself has to allow him being a fixed sign, to stay in his own place. As it is neither in 9 nor in the movable, watery sign, or in 12, normally one cannot expect overseas Journey during Mars Dasa. But if one finds out in which constellation Mars was and then read out the matters signified by the lord of the constellation by its lordship, then the other results enjoyed by him, will agree with the indication of the lord of the constellation to that particular lagna born. Mercury is the lord of Jyesta; it owns the houses 9 and 12 indicating overseas. Mars in Mercury star shows press, writing, printing, etc., and in a watery sign indicates ink and the results do agree in full.

In another horoscope a gentleman born in Aquarius having exalted Saturn in the beginning of Libra (Vargothama) entered into military service during Saturn dasa. Neither Saturn nor the lord of the sign (Venus) in which Saturn was in rasi and Navamsa indicate Defence department. But if we note in which constellation Saturn was, we find that it was in Chitra ruled by Mars, which rules the 10th house and also indicates military service. Thus in every horoscope, one can understand that a planet offers the result of the lord of the constellation more predominantly than those indicated by the sign or house which it occupies. Therefore, constellation is the main and important division of the Zodiac to read the results of a horoscope. Therefore, what results normally one can expect from a planet, (a) by its occupation, (b) ownership and (c) nature will be actually enjoyed during the periods and sub-periods of the planet in its constellation, during its own period and subperiod, the results of the lord of the constellation will predominate in addition to what it has to offer by occupation of house etc.

Hindus classify and call a planet to be good or bad according to its lordship of a sign counted from the sign where lagna falls.

Westerners judge a planet whether it is favourable or unfavourable according to the nature of the aspect the planet receives and, according to its situation. But I do not attach importance to the name of the planet or its position etc. I give importance to the 27 zones in the zodiac and to the subdivisions, as these are capable of thoroughly changing a benefic (according to Hindus and Westerns) to a malefic (which is actually experienced and confirmed by the native) or changing a malefic (according to Hindus and Westerners) to a benefic (which agrees with the results enjoyed).

A father is good to his son. He may occupy a good position, say (exalted) judge; so a Sagittarius-born is confident that he will escape, whatever crime he commits. During Venus dasa the son forges a document.... The case is posted under his own father. He regrets saying that his hands are tied up by the law and he

punishes his own son. Sun may be a benefic by owning 9th house. It gets exalted and is in a kona. It has to do good. But during Sun dasa Kethu Bhukthi Mars anthra, the native is punished as Sun was in Aswini Star whereas Mars and Kethu were in 9. Kethu is to give the results of Mars which owns 12th house imprisonment. Therefore the sub divisions and the stars are to be classified as good or bad: Planets cannot overrule the indications of the lord of the star and sub.

ARIES BORN

Aswini, Makham, Mookam: stars are ruled by kethu. As Kethu does not own any house, find out the planets with which it was in conjunction or by which it is aspected or the sign and constellation in which Kethu was at the time of birth. If it is not conjoined with or aspected by any planet, the results of the lord of the constellation and sign will be experienced if a planet was in any of these three stars at the time of birth or during transit in one's life time.

Bharani, Pooram, Pooradam: Venus is the ruler of the three stars. As Venus owns the second and seventh houses to Aries, the results of these two houses, i.e. second and seventh are to be predicted if any planet occupies these stars or transit in these. If Venus, at birth occupied a sign favourable to both Taurus and Libra, both the houses will be represented by Bharani trine. If Venus at birth occupied 6 or a or 12th sign to either Taurus or Libra and if Venus improves the matters of either of the two houses and is weak to offer the results of another house, planets occupying these stars or transiting in these stars will give such results as is denoted by Venus.

Krithigai, Uthram, Uthradam : If a planet occupies these three stars or while it moves on in these constellations, the results of the 5th house is to be predicted to Aries borns, as these stars are governed by Sun who owns Leo, the 5th house counted from the Ascendant of Aries-borns.

Rohini, Hastham, Sravanam : As Moon rules the house for the Aries-borns the results indicated by the 4th house will operate while a planet transits in these three stars or if any were to be therein at the time of birth of the person. (Also 4th house matters will be offered by the planets, occupying the constellation of the planets situated in the 4th house).

Mrigasirasha, Chithrai, Avittam: Mars is the owner of these stars. Mars is the lord of 1 and 8 to Aries. So we have to presage the results of the houses 1 and 8 during the period of the planet in any of these three stars at birth or while in transit. These results will predominate. (Planets in the constellation of the occupants of these houses are very strong to give the matters of these houses).

Arudhra, Swathi, Sathabisha: Rahu is allotted these three stars by our sages. As Rahu does not own any sign, find out with which planet it is conjoined or aspected by and the sign and the constellation where it was at birth. The results of Rahu will operate when a planet was posited in these stars at birth, or when planets transit in these stars. (Rahu or Kethu will give the results of the planets with which it is conjoined then those of the planet which aspects them. Lastly, those of the lord of the sign).

Punarspusam, Visakam, Poorattathi : These three stars are governed by Jupiter who owns the 9th and 12th houses to Aries-borns. You have to offer the results of the 9th and 12th houses, if a planet has occupied any of these three stars at birth whatever may be the house. When a planet transits in these stars whatever may be the nature, lordship or occupation of the transiting planet, the results enjoyed, depend on the lord of the constellation whereas the transiting planet indicates the source and explains how he gets such results. Suppose lord of 5 transits. Daughter delivers a child. The native spends money, How? 9th house is the 5th to the 5th. So, daughter will have a child. 12th house is 8 to 5th. So, she has temporary suffering. 12th house is expenses to the native. Therefore, Sun transiting in any of these stars or sub will cause expenses. If Moon transits, through mother expenses.

Pushyam, Anuradha, Uthratathi : Saturn is allotted these three stars. If a planet were to be in these at birth or when any planet transit through these, you have to give the results of the 10th and 11th houses, as Saturn rules these houses to Aries borns. Even though Anuradha happens to be in the 8th sign, it is observed the Aries-borns have substantial gains when slow moving planet transit in the star Anuradha. Threatening Ashtama Sani gives pleasant shock and surprisingly good fortune.

Ashlesha, Jyesta, Revathi; Mercury who is the lord of the 3rd and 6th houses to Aries rules over these stars. Foretell the results of the 3rd and houses when a planet is therein at birth or when a planet transits in these stars, whenever a particular planet transits in a particular sub in a star, the same nature of results will be experienced through the same or similar sources, the extent depending on the dasa then running.

TAURUS - BORN

Aswini, Makam, Moolam, are ruled by the Kethu who does not own any sign in the Zodiac. Find out with which planet Kethu is conjoined or which planet aspects Kethu; also the sign and constellation where Kethu was at the time of birth. You have to offer the results according to the lord of the constellation and the sign which Kethu occupied if it is not conjoined with or aspected by any, if a planet were to occupy one of these three stars or transit in any of these three stars to Taurus borns.

Bharani, Pooram, Pooradam: These stars are governed by Venus which owns the 1st and 6th house to Taurus borns. When a planet moves on in these three stars or occupy any of them at the time of birth, we have to predict the matters signified by the houses 1 and 6. For example lord of 10 in any of these three stars, gives ill health, causes enmity, offers success in competition, etc. instead of giving promotion and maintaining good relationship.

Krithigai, Uthram, Uthradam: Sun the major strong luminary govern these stars and owns the 4th house to Taurus persons. If a planet is in these stars during transit or is occupying any of the three at birth, presage the 4th house matters to this native. Even when a planet transits in the 8th or 9th house in Uthradam or occupies at birth, the planet offers the results of the 4th house to the native. Suppose Mars is in Sagittarius, in Uthrashada star. As Mars is lord of 12, one may invest on an industry or Factory and buy land, building etc., If Venus is there, one may have a car on hire purchase as Venus rules 6th house- debts.

Rohini, Hastham, Sravanam; If a planet occupies any of these stars at the time of birth or transit in any we have to predict 3rd house matters to Taurus borns as Moon owns the 3rd house. Suppose Mars transits in these stars, Mars indicates as lord of 7, wife and as lord of 12, expenses; but if a planet transits in Rohini in Lagna; the native makes short travel. But when Mars transits in Hastham, Mars indicates, expenses through wife and being the 11th to the 7th, it indicates gains to her, or purchases for her. It is the general predictions it does not happen. But the partner goes on a long journey; has treatment for the disease and gets cured.

Mrigasirasha, Chithrai, (Avittam or) Dhanishta : Mars, lord of 7 and 12 owns these three stars. The astrologer must give the results, signified by the 7th and 12th house to Taurus borns if a planet were to be in any of the above said three stars at birth or during transit. If a Taurus-born has married a talkative partner, then during the periods and sub-periods of the planet occupying Mars star may cause even violence, and separation.

Rahu, who does not own any house rules over *Arudhra, Swathi, Sathabisha*. Ascertain the combination of planets with Rahu, the sign and star where it was at birth in the chart. Those results indicated by lordship of the star and sign where Rahu was, will be experienced by the persons born in Taurus, during the periods and sub-periods of the planets in the constellation of Rahu

Jupiter, a natural benefic is the owner of the three stars *Punarvasu, Visaka, Poorattathi*. As Jupiter is the lord of 8th and 11th house, you have to read the results of the 8th and 11th house matters if a planet was in these stars at birth or while a planet transits in any of these stars.

Pushyam, Anuradha and Uthrattathi are governed by Saturn who owns the 9th and 10th house to Taurus natives. If a planet were to be in any of these stars at birth or if a planet transits in any of these three stars, the native will have the results of the 9th and 10th houses: Suppose, Jupiter was in Anuradha. It is in 7. 7th house does not show overseas and higher education. But these are shown by lord of 9 and 10. Jupiter, instead of giving troubles as lord of 8, it causes the most beneficial and agreeable results, and gives higher education and long Journey.

Ashlesha, Jyesta and Revathi are ruled by Mercury owning houses 2 and 5 to Taurus borns. The native will experience the results signified by these houses, if a planet occupies any of these stars at birth or When a planet moves on in these three stars. Suppose Moon was in Jyesta. Moon is lord of 3. It has nothing to do with children. But it a person has a child in moon sub-period, in Hastham Star, which are we to take: either the sign lord or the star lord or the house it owns or occupies.

GEMINI BORN

Kethu owns the stars *Aswini, Makam, Moolam* but it has not been allotted any sign. Find out the star and house where Kethu was at birth, the planets conjoined with it or the planets aspecting it. If a planet occupies these stars at birth or transit, offer the predictions signified by the lord of the constellation and the sign where Kethu was.

Bharani, Pooram, Pooradam are ruled by Venus, who is lord of 5 and 12 to Gemini borns. If a planet occupies these stars at birth or in transit, the results of the 5th and 12 houses are to be offered. Even though, Bharani is in the 11th sign which is to give

pleasure, profit and only desirable beneficial results, yet the matters of 5th and 12th houses are experienced. Mostly Gemini borns go overseas and enjoy life even during the periods of evil planets, because they are in any of the 3 stars.

Krithigai, Uthram, Uthradam: Sun, lord of 3 owns these three stars. If a planet was in any of these three stars at birth or during its transit, the results of the 3rd house are offered to Gemini borns

Rohini, Hastham, Sravanam: Moon a weak luminary, owns the 2nd house and also these stars. Even though Rohini is in the 12th sign, Sravanam, in the 8th sign to Gemini yet the results signified by the 2nd house are experienced if a planet is in these stars at birth or when it transit in any of them.

Mrigasirasha, Chithrai, Avittam: These stars are ruled by Mars who owns the 6th and 11th houses. If a planet where to occupy these stars at birth or passes in these stars, the results indicated by these houses 6 and 11 are offered to Gemini-borns.

Arudhra, Swathi, Sathayam: Rahu the Ascending Node owns these three stars. So find out where Rahu was at birth, i.e. the sign and constellation it occupied. Offer the results of the lord of the sign and constellation where Rahu was, if you find any planet is in these stars at birth or during transit and provided the node is not conjoined with or aspected by any planet.

Punarpusam, Visakam, Poorettathi: The benevolent Jupiter who is the lord of these 3 stars owns the 7th and 10th houses to Gemini -borns. If a planet occupies any of these stars at birth and passes these stars in transit, it offers the results signified by the 7th and 10th house results. It will prove to be a strong maraka. To Gemini-borns, Jupiter is the Bhadhakasthana adhipathi. If there is no planet in Sagittarius, at the time of birth, then Rahu in the constellation of Jupiter is the strongest evil to affect one's longevity though it is very beneficial for marriage and business.

Pushyam, Anusham, Uthrattathi: Saturn, the slow-moving planet owns these stars and also the 8th and 9th houses to Gemini borns. If a planet occupies any star at birth or transits these stars the results of the 8th a 9th house are to be presaged.

Ashlesha, Jyesta, Revathi: Mercury lord of 1 and 4 rules over these three stars. The native will enjoy the results signified by these houses if a planet occupies or transits these stars.

CANCER BORNs

Kethu or Dragon's tail govern the stars *Aswini, Makam, Moolam*, Ascertain which sign and constellation Kethu occupies or transits in the horoscope. The results will be indicated by the lord of the constellation and sign. These will be experienced by Cancer borns if a planet occupies or transits these, stars.

Venus owns the stars *Bharani, Pooram, Pooradam* and also the houses 4 and 11 to Cancer-borns. If a planet occupies any of these stars at birth or in transit, the results signified by the lordship of 4th and 11th house is to be predicted. A person, has Moon in Pooradam, born in Cancer Lagna, acquires land in Moon dasa. Neither as lord of 1 nor as the planet in 6, it has anything to do with property. But, if one studies the lord of the constellation, he gets the scientific explanation.

Krithigai, Uthram, Uthradam are allotted to Sun. Sun owns the 2nd house. Any planet in these stars at birth or while in transit, the native will enjoy the results of the 2nd house.

Rohini; Hastham, Sravanam: Lord of lagna governs these three stars. When a planet was in any of these three stars at birth or while in transit, offer the results signified by the first house to the native.

Mrigasirisha, Chithrai, Avittam: Ruled by Mars, lord of 5 and 10, to Cancer-borns. The astrologer has to predict the results signified by the 5th and 10th houses to the native if he finds any planet in these stars in the horoscope or when it transits, in any of these three stars. Mercury, lord of 3 and 12, was in Mrigasira in Gemini. The native has gained money during Mercury sub period in speculation.

Arudhra, Swathi, Sathabisha: Rahu, the node, has been allotted these three stars.. Find out with which planets it was conjoined or aspected by and the sign and constellation in which it was posited at birth. The results indicated by the lord of the constellation where Rahu was, will operate when a planet is in any of these stars. Suppose, Rahu is in the 10th house. A planet in the 12th house in Arudhra gives increase in income during this planet's sub-period, instead of loss indicated by 12th house.

Punarpusam, Visakam, Poorattathi are governed by the benevolent planet Jupiter who also owns the houses 6 and 9. If a planet occupies any of these stars at birth and transit in any of these, the results signified by the 6th and 9th houses are offered to the native.

Pushyam, Anuradha, Uthratathi: Saturn the delaying planet owns the houses 7th and 8th and also these three stars. Even though these stars are in the houses 1,5,9, which are said to be Kona houses which will indicate only good results, yet the persons born in Cancer will have the results signified by the 7th and 8th houses alone, during the periods and sub-periods of planets in these constellations, even though they may own good houses. A person having Venus in Pushyam, had untold miseries and worries during Venus sub-period; as lord of 11, Venus caused worry through fourth son. Source is shown by the planet. Worry is indicated by the lord of the constellation.

Ashlesha, Jyesta, Revathi ; Mercury is the ruler of these stars. It also owns the 3rd and 12th houses to Cancer borns. If a planet passes in these stars, the results indicated by the houses 3 and 12 will be enjoyed. For instance, Revathi is in the 9th sign. But if a planet occupies this star at birth or transits, the native will enjoy the results of the 3rd and 12th houses and not the results indicated by the 9th house. (That is why people born in Karkata lagna do not enjoy favourable results during the period of the planets in 5 or 9 as the lord of the constellation in these signs are ruled by either lord of 6 or 8 or 12. But they are fortunate during the period of the planets in the constellation of Mars even though the houses may be 3 or 8 or 12).

LEO - BORNS

Makam, Moolam stars are ruled by Kethu, the Moon's node. As it does not own any sign, note the planets which are conjoined with it or aspect it and also the lord of the constellation in which it is. The results signified by the planet with which it is conjoined or by which it is aspected or lord of the constellation will be experienced by the native if a planet transits through these stars.

Bharani, Pooram, Pooradam are governed by Venus which owns the 3 and 10th houses to Leo-borns. If a planet occupies any of these stars at birth or transit through these, the results signified by the houses 3 and 10 will be enjoined.

Krithigai, Uthram, Uthradam The lord of lagna Sun is the ruler of these Stars. So, when a planet is noticed in any of these stars, you can offer the results of the 1st house and not the results of the sign in which it transits. It promises success and speedy recovery from disease.

Rohini, Hastham, Sravanam: The luminary owns these three stars who also owns the 12th sign to Leo-borns. So the results indicated by the 12th house alone will be enjoyed by the native if a planet occupies these stars. For instance, Hastham, is in the second sign to Leo. Instead of enjoying the results indicated by the second house (i.e. increase in income and improvement in status) the querist will experience only the result of 12th house (i.e. loss of money and position. Transfer and changes during the period of the planet in Rohini).

Mrigasirisha, Chithrai, Avittam are allotted to Mars who owns the 4th and 9th house to Simha lagna -borns. The astrologer has to offer the matters signified by the houses 9 and 4 to the native when he notice any planet in any of these stars at birth or while in transit.

Arudhra, Swathi, Sathabisha; Our sages mentioned that Rahu is the owner of these stars which has not been given any sign.

Find out in which rasi and constellation Rahu was at birth. The results signified by Rahu will be enjoyed or experienced by the native.

Punarpusam, Visakam, Poorattathi: Even though the beneficial planet Guru is the ruler of these stars, yet the native cannot enjoy any other result when a planet passes on in these three stars except the results indicated by the 5th and 8th houses as Guru is the lord of the 5th and 8th to Leo-borns.

Pushyam, Anuradha, Uthrattathi: Saturn lord of 6th and 7th is the owner of these three stars. If you note any planet in these stars, the results indicated by the 6 and 7 will be experienced by the native.

Ashlesha, Jyesta, Revathi Mercury, lord of 2 and 11, owns these three constellations. So the results signified by the houses 2 and 11 will be enjoyed by the native when a planet transits in any of these stars. For instance, Revathi is in the 8th sign. Normally, planet in the 8th sign will not produce desirable results to the native. Yet, as Revathi is ruled by Mercury, the native receives even the bad debts, becomes popular in his society and realises his ambitions during the sub-period of the planet in Revathi stars, as Budha owns the houses 2 and 11.

VIRGO-BORNS

Aswini, Makam, Moolam: Find out where Kethu was at birth, i.e. the constellation, and sign it occupied as it does not own any sign. The results signified by that constellation and sign will be enjoyed by the native when a planet transits in any of these three stars.

Bharani, Pooram, Pooradam: Venus, the lord of 2nd and 9th houses, owns these stars. So, when you find a planet in any of these stars, offer the results of the 2nd and 9th houses and not the result of the sign where it is. For instance, Bharani star is in the 8th sign.

Normally one will offer the result of the 8th house, when a planet transits Bharani. It goes wrong, as the native will go on long journey, appear for interview, will be selected and have monetary gains, as Venus the governor of Bharani is the lord of 2 and 9, promises desirable results.

Krithigai, Uthram, Uthradam: Sun, the strong luminary rules over these three stars and also the 12th house. If a planet occupies any of these stars in whichever house it may be, yet the results indicated by the 12th house alone will be enjoyed by the native and not the results of the sign where the planet transits.

Rohini, Hastham, Sravanam: These stars are ruled by Lunar (Diana, i.e. Moon). Moon rules the 11th sign to Virgo-borns. If we notice any planet in any of these stars at birth or during transit, the native will realise his/her ambition, be popular, have substantial gains, etc., as the planet is in the constellation of lord of 11.

Mrigasirsha, Chithrai, Avittam: Mars, lord of 3 and 8 to Virgo, is the owner of these three stars, if a planet be posited in any of these stars in the horoscope or move through these stars, it offers the results signified by the houses 3 and 8. It will be adverse.

Arudhra, Swathi, Sathayam: Caput otherwise called Rahu is the governor of these stars. Find out the planets conjoined with Rahu, planets aspecting the sign and stars where Rahu is in the chart at birth. The results denoted by the lordship of the star and sign Rahu occupied will be experienced by the native.

Punarpusam, Visakam, Poorattathi: Guru is the chief governor of these stars. It also rules over the 4th and 7th houses to Virgo-borns. If a planet is noticed in any of these stars at birth or while transit, the native will enjoy the results of the 4th and 7th houses. Example: Visakam star is in the 2nd house. If a planet goes through it, the native can enjoy the result signified by the 4th and 7th house only and much less the results of the 2nd house.

Pushyam, Anuradha, Uthrattathi Saturn rules over these three stars who also happens to be lord of 5 and 6. If you find

any planet either at birth or during transit, in any of these stars, predict the results signified by the 5th and 6 houses.

Ashlesha, Jyesta, Revathi: Lord of 1 and 10 Mercury is the owner of these stars, planets in any of these three stars in whichever sign it may be, will offer the results indicated by the 1st and 10th houses to the native. It is very good.

LIBRA- BORNES

Aswini, Makam, Moolam which are governed by Cauda otherwise known as Kethu does not own any sign in the Zodiac. Ascertain in which constellation and sign Kethu is in the chart. The results indicated by the lord of the constellation where Kethu was, will be experienced by the native.

Bharani, Pooram, Pooradam: Venus lord of 1 and 8 rules over these stars. If you find any planet in any of these stars, you have to predict the results indicated by the 1st and 8th houses only. For instance, Pooram is in the 11th sign to Libra. If a planet transits in that star, general principle of saying a planet in 11 will do only good will not operate, but the native will enjoy the results of the 1st and 8th houses only. He will fall ill, face danger and fail.

Krithigai, Uthradam, Uthram : Sun is the owner of these stars which also owns the 11th sign. Any planet in any of these three stars in the horoscope will produce the result of the 11th house, i.e. profit, pleasure, realization of ambition, etc., even though the stars fall in any sign. For example, Krithigai in the 8th sign, Uthram in the 12th house does not offer the result of that sign but assures the results of the 11th house only.

Rohini, Hastham, Sravanam: Moon, the other luminary, is allotted these stars which owns the 10th house to Libra. Any planet in these stars produce the result of the 10th house and not the sign where it is at birth or while in transit.

Mrgasirisha, Chitrai, Avittam: Mars is lord of 2 and 7 and also the owner of these stars. A planet in these stars in the chart

given by the native will bring out the results indicated by the houses 2 and 7 and does not produce the results of the sign in which it is or it transits.

Ascending Node (Rahu) rules over the three stars Arudhra, Swathi, Sathayam. As our sages have not offered any sign to Rahu, find out in which sign and constellation Rahu was at birth. The results signified by these constellations and sign will be offered to the native if any planet passes through these stars.

Punarpusam, Visakam, Poorattathi: Stars are ruled by Guru who owns houses 3 and 6 to Libra -horns. If a planet is in any of these stars at birth or transit through stars you have to predict the results indicated by the 3rd and 6th houses only.

Pushyam, Anuradha, Uthratathi: Stars are allotted to Saturn the only benefic to Libra-borns as it rules over the 4th and 5th houses. Planets in the stars ruled by Saturn will, offer the results signified by the 4th and 5th houses and not the results of the sign where it transits.

Ashlesha, Jyesta, Revathi: Budha, the wavering planet governs over these three stars and also the houses 9 and 12 to Libra-borns. You will find that these stars falls in the 2nd 6th and 10th signs, but the native will experience the results of the 9th and 12th houses only.

SCORPIO - BORN

Makam, Moolam : As the descending node (Kethu) does not own any sign but rules only these stars in the Zodiac, find out the planets that are conjoined with Kethu, aspecting Kethu and constellation and sign where it was at birth. The results signified by the lord of the constellation and sign will be enjoyed by the native, in whichever sign the stars may be.

Bharani, Pooram, Pooradam: These are governed by Venus who owns the Tut and 12th to Scorpio-borns. If a planet is noticed in any of these stars at birth or during transit, it will offer the

results of 7th & 12th houses. For instance, Pooradam is in the 2nd sign to Scorpio. Generally, while a planet moves on in his star you will predict the results indicated by the 2nd house only, i.e., free flow of cash, increase in the members of the family, peaceful atmosphere at home, but the native will have secret inimical activities, ill-health to partner in life or business, as Venus happens to be lord of 7 and 12 to the native and lord of 1 and 6 to the 7th house which indicated wife or partner in business also death in a foreign place. 7th house shows death to the native, 12th house indicates far off place, separation from family members.

Krithigai, Uthram, Uthradam are allotted to Sun, the strongest planet which rules the 10th house also to Vrishchika-borns. Any planet in the star ruled by Sun at birth or during transit will produce the results of the 10th house.

Rohini, Hastham, Sravanam are governed by Moon the Queen of Night. It rules the house 9 to this rasi-born. The astrologer has to offer the results which will be produced by the 9th house to the native and not the sign in which the stars are posited.

Mrigasirisha, Chithrai, Avittam are ruled by the lord of 1 and 6, Mars. Planets in these stars produce the results of the houses 1 and 6.

Arudhra, Swathi, Sathayam: Our sages did not allot any sign to Rahu. But it governs these stars. Rahu produces the results indicated by the lordship of the constellation and sign where it is at birth or during transit. Planets in these stars give the results indicated by Rahu.

Punarpusam, Visakam, Poorattathi are ruled by Jupiter who owns the 2nd and 5th houses to Scorpio. Even though Punarpusam and Visakam are in the 8th and 12th Signs, yet the results enjoyed by the native will be the results allotted to the 2th and 5th houses by ancient astrologers, when a planet passes through these stars.

Pushyam, Anuradha, Uthrattathi are governed by Saturn. Houses 3 and 4 also are governed by the same planet, Saturn.

So when a planet occupies the star ruled by Saturn either at birth Or during transit, it will produce the results of the 3rd and 4th houses.

Ashlesha, Jyesta, Revathi: Mercury is the ruler of these three stars and owns the 8th and 11th houses to Scorpio-borns. If you find a planet in the stars ruled by Mercury, you have to portend the results indicated by the 8th and 11th house to the native forgetting the sign in which it is. it is very bad in the ascendant.

SAGITTARIUS - BORN

Aswini, Makam, Moolam were given to Dragon's Tail (Kethu) by our ancients but they did not allot any sign to it then. Find out sign and constellation where Kethu was at the time of birth or during transit. The results of the lordship of the star and sign where Kethu was will operate if a planet is in Aswini, Makam, Moolam.

Bharani, Pooram, Pooradam: These stars are ruled by Venus which rules the 6th and 11th houses to Dhanur-borns. If a planet occupies any of these three stars at birth or transit through these then the results indicated by the 6th and 11th houses will be enjoyed by the native.

Krithigai, Uthram, Uthradam are governed by Sun the ruler of the 9th house to Sagittarius. Results produced by the 9th house will be enjoyed by the native, if a planet is in any of the stars.

Rohini, Hastham, Sravanam are allotted to Moon who is the owner of the 8th house. Planets in these stars at birth or while in transit will produce the results indicated by the 8th house and not the sign where planet is. For example, Sravanam is in the 2nd house. When a planet moves on in it, the result of the 2nd house will not be experienced but the result of the 8th house alone will operate. Hastham brings ill repute.

Mrigasirsha, Chithrai, Avittam are allotted to Mars. Mars rules over the 5th and 12th houses to this rasi-born. In whichever sign these stars may be , yet the result of the 5th and 12th houses

alone will be enjoyed. For instance Chithrai in the 11th sign will make the native spend for his children, invest money, and to have worry due to inimical activities but the 11th sign shows all-round success and popularity, peace of mind. Hence the lordship of the constellation alone should be taken into consideration while predicting.

Arudhra, Swathi, Sathabisha: The results signified by the constellation and sign lords where Rahu was at birth or is during transit will be enjoyed by the native, if a planet transits through the stars ruled by Rahu.

Punarpushyam, Visakam, uthrattathi: Stars are governed by the benefic Jupiter who happens to be the lord of lagna and also lord of 4. The results allotted to the houses 1 and 4 will be experienced by the native if a planet transits or occupies these three stars.

Pushyam, Anuradha, Uthrattathi Saturn rules these three stars. Saturn owns the 2nd and 3d houses to Sagittarius borns. So, the results of the 2nd and 3rd houses will be enjoyed by the querist during the period when a planet moves on in the stars governed by Saturn.

Ashlesha, Jyesta, Revathi are governed by Mercury who owns the houses 7 and 10 to Dhanur rasi borns results indicated by the 7 th and 10th houses will be enjoyed by the person if a planet occupies these stars at birth or during transit and not the results indicated by the sign it occupies where these stars are posited. Planets in Jyesta, gives promotion, transfer, and position. It also indicates, severing connection with one institution and accepting a better job in another institution.

CAPRICORN - BORN

Aswini, Makam, Moolam are governed by the descending node Kethu. Find out the lord of the constellation and sign which kethu occupies. What Kethu promises to do, will be done by the

planet which occupied its star or which transits in any of the three stars.

Bharani, Pooram, Pooradam stars are ruled by Venus which owns the 5th and 10th houses also. If a planet occupies any of these stars at birth or transit through these stars, results indicated by the 5th and 10th houses will operate. For example, Pooram falls in the 8th sign to Makaram. When Moon transits in that star (Chandraastama day) the native will receive money and be happy. But, general prediction of the astrologers that the native cannot have any beneficial results and cannot have peace of mind during Chandraastama days will fail.

Krithigai, Uthram, Uthradam stars are governed by Sun who is the lord of the 8th House. So, when a planet occupies any of these stars the native cannot have desirable results but unnecessary impediment and worries in his attempts may be experienced.

Rohini, Hastham, Sravanam stars are ruled by the lord of 7, Moon. If a planet occupies any of these stars at birth the native should be offered the results of the 7th house and not the matters signified by the house or sign.

Mrigasirisha, Chithrai, Avittam : Mars governs over these three stars. It also owns the houses 4 and 11 to Makara borns. If you find any planet occupying any of these stars, then the native will have the results signified by the lordship of the 4th and 11th houses.

Arudhra, Swathi, Sathayam : Ascertain the strength of Rahu by noting the constellation and sign which it occupied. The results indicated by the lord of the constellation will operate whenever a planet moves on, in the stars ruled by Rahu, the Dragons's head.

Punarpusam, Visakam, Poorattathi : Jupiter rules the houses 3 and 12 and also these three stars. Whenever a planet occupies any of these stars or transit through these, then the native will have results of the 3rd and 12th houses.

Pushyam, Anuradha, Uthrattathi stars governed by Saturn also rules the 1st and 2nd houses to Makaram borns. If the astrologer find planets in these stars, he has to offer the results indicated to the lordship of the 1st and 2nd houses to the native.

Ashesha, Jyesta, Revathi : Mercury is given these stars and also houses 6 and 9. Planets in the stars of Mercury give the results of the 6th and 9th houses. For example, Jyesta is in the 11th Sign. If a planet moves on in this star instead of enjoying the results indicated by the 11th house, the native will have the results of the 6th and 9th more prominently.

AQUARIUS BORN

Ashwini, Makam, Moolam stars are governed by Kethu who does not own any sign in the Zodiac. Find out in which constellation and sign Kethu is Judge what Kethu can do. That will be given by the planet in any of the three stars.

Bharani, Pooram, Pooradam : Venus governs over these stars, which also rules over the 4th and 9th houses. When a planet occupies any of these stars at birth or during the transit, the native should be offered the results indicated by the 4th and 9th houses only.

Krithigai, Uthram, Uthradam stars are allotted to Sun. Ph house results will be experienced by the native if a planet move on the constellations ruled by Sun, as Sun, happens to be the lord of 7. Uthram in the 8th sign, Uthradam in the 12th sign do not offer the results of the 8th or 12th house but gives only the 7th house results.

Rohini; Hastham, Sravanam : Moon the other luminary governs over these stars which owns only the 6th sign to Kumbha- borns. Hence, the results signified by the 6th house has to be predicted to the native if a planet moves on through these three stars.

Mrigasirisha, Chithrai, Avittam : Mars the governor of these stars rules the 3rd and 10th houses to the Aquarius-borns. So, when a planet is seen in any of these stars, you portend the results allotted to the 3rd and 10th houses to the native.

Arudhra, Swathi, Sathabisha : Rahu, The Moon's North Node rule over these asterisms. Find out the strength of Rahu by its occupation of the star and Rasi where it was at birth. The results due to lordship of the constellation and sign where Rahu was, will operate when a planet transits in Arudhra, Swathi, Sathabisha.

Punarpusam, Visaka, Poorattathi are ruled by the benevolent planet Jupiter who also owns the 2nd and 11th houses. So, the results indicated by the 2nd and 11th houses will be enjoyed by the person if a planet moves on in the stars of Guru, in whatever sign it may be.

Pushyam, Anuradha, Uthratathi : Saturn lord of 1 and 12 happen to own these stars. Results denoted by the 1st and 12th house will operate if a planet occupies at birth or transits in the three stars governed by Saturn.

Ashlesha, Jyesta, Revathi : Mercury lord of 5 and 8 rules over these stars. Results of the 5th and 8th houses also should be predicted to the native if a planet passes through them. For example, Revathi is in the 2nd house. General prediction of the results if a planet transits in the 2nd house will do good to native does not operate but the results of 5 and 8, i.e. mixed ones will be experienced, when a planet moves on in Revathi.

PISCES - BORN

Aswini, Makam, Moolam ; ruled by the descending Node. Kethu, who does not own any house in the Zodiac. We have to ascertain the strength of Kethu by its occupation in the constellation. The results denoted by the lord of constellation and sign where Kethu was at the time of birth, will predominate.

Bharani, Pooram, Pooradam ruled by Venus who also happens to be the owner of the 3rd and 8th houses to Pisces - borns. Results signified by the houses 3 and 8 will operate if a planet occupies the constellation of Venus when we consider, the horoscope.

Krithigai, Uthram, Uthradam are governed by the lord of 6. Sun the strong luminary. The astrologer has to offer the results of the 6th house while predicting if he finds any planet in the stars owned by Sun, at birth or while it transits.

Rohini, Hastham, Sravanam : Moon, the night queen owns these three stars. It also governs the 5th sign. So portend the results allotted to the 5th house when a planet passes through the constellation of Moon. For instance, Rohini is in the 3rd sign to Pisces. When practically seen during the period of the planet in Rohini, the native enjoys the results of the 5th house and not the results indicated by the 3rd house.

Mrigasirisha, Chithrai, Avittam are governed by Mars, lord of 2 and 9 to this rasi-borns. Matters signified by the 2nd and 9th houses alone will be enjoyed by the querist while a planet moves on in the stars owned by Mars, in whichever sign it may

Arudhra, Swathi, Sathabisha : Rahu who does not own any sign governs these stars. Ascertain in which constellation and sign Rahu is. The results indicated by the constellation and sign where Rahu is, will operate if a planet would have occupied that star during its period.

Punarpusam, Visakam, Poorattathi : Lord of 1 and 10 rules over these stars also. The results indicated by the houses 1 and 10 will operate during the period of the planets that has occupied the stars governed by Jupiter either at birth or when in transit. For example, Visaka is in the 8th sign and Poorattathi is in the 12 sign. If you notice any planet in these stars, general prediction of the 8th and 12th houses where the planet, will fail but the results of 1 and 10 will operate.

Pushyam, Anuradha, Uthrattathi : Our sages allotted these three stars to Saturn, who also was given the 11th and 12th houses to Pisces. If a planet were to occupy any of these stars, either at birth or during transit, it will produce the results of the 11th and 12th houses only and not the results of the houses in which it is.

Ashlesha, Jyesta, Revathi are governed by Mercury. Mercury owns the 4th and 7th houses to Pisces. Hence, results of the 4th and 7th houses alone should be declared when you find a planet in the constellation of Ashlesha, Jyesta and Revathi either in the horoscope made for the time of birth or during transit.

Always judge, who is the Lord of the constellation: Note to the native, what it can offer. Those results indicated by lord of constellation will be enjoyed during the period of the planet in that constellation and whenever a planet transits in that star, through the source indicated by the planet in the star.

ROLE OF SUB

Sign : A sign is one of the 12 equal divisions of the zodiac. Each sign has its own characteristics and, the planets occupying such signs offer results modified by the characteristics of that sign. The strength of planets is judged by noting the sign occupied by it - whether it gets exalted or debilitated; whether it is Swakshethra or vargothamamsa or in friendly quarters or enemy's camp, etc. The planet in a sign is the source of the result which it bestows according to the lord of the constellation in which the planet was tenanted. The nature of the results which the planet gives includes whether the planet is in a positive or negative sign; in a fiery or earthy or airy or watery sign; in a movable or fixed or common sign, in a fruitful or a barren sign; in mute or voice sign; in violent or human sign; in a bestial or dual sign etc. All these must be taken into consideration before judging what a planet can do. The Rasi occupied by a planet indicates the strength of the planet.

Star: In every sign, even though there are only 2-1/4 constellation, yet the lords will be three in number. A planet in any of the constellations will be under the sway of the lord of the constellation. Therefore, a sign is divided into 3 major divisions. If a sign were to indicate many results it is classified into 3 groups by the 3 constellations. For example, Taurus is ruled by Venus and all the results indicated by Venus coupled with an earthy, fixed and negative sign are attributed to Taurus. But in the same sign, there are 3 constellations called karthik, Rohini and Mrigasira. Kartik is ruled by Sun, Rohini by Moon and Mrigasira by Mars. Therefore the result indicated by Taurus are classified into 3 groups; a part of it is governed by Venus and Sun (Karthik Star; if a planet were to be between 0° and 10° of Taurus at the time of the birth or at the time of the query or when a planet transits between 0° and 10° of Taurus, its results are modified by Venus and Sun). The second part is under the influence of both Venus and Moon. (Rohini Star 10° Taurus to 23° 20 Taurus). The results indicated by the planets in this area are under the influence of Venus and Moon. And the third part is governed by Venus and Mars; those matters signified by both of them are grouped together and the planets occupying 23° -20' to 30°. Taurus will be influenced by Venus and Mars. The matters signified jointly by them will be offered by the planet occupying the star or transiting in this area. Therefore, instead of giving many probabilities according to the sign, the three constellations divide them into three groups.

Sub : As regards the sub, it is the 9 divisions of each constellation in the proportion in which they are allotted total number of years in Vimshottari dasa. What results the lord of the sign and the lord of the constellation jointly indicate are again divided into 9 groups. Therefore the sign Lord, the star Lord and the Sub Lord reduce the number of probabilities to be chosen for prediction. Such subdivision is found necessary not only to differentiate the results indicated by two planets but also the cusps in the same constellation. For example, twins are born; one having its meridian in Venus sign Taurus in Moon Star-Rohini and in the

sub of Saturn. This person deals in Petrol. But, the next born will have his Meridian in Venus sign Taurus in Moon star-rohini and in the sub of Mercury. This brother deals in Cotton and Silk products. Let us take another example. One of the twins born with Meridian in 21° Leo is an educationist and an advocate. Because the Meridian has fallen in Leo ruled by Sun in Poorvapalguni Star governed by Venus and in the sub of Jupiter who indicates Law and Education. But the other twin whose Meridian was in 27° is a Medical gentleman because this point in the zodiac in Leo is owned by Sun, in Uttrapalguni Star governed by Sun and also in the sub of Sun. Thus twins born at an interval of a few minutes having the lagna in the same sign at different degrees, the position of the planets in the same degree, experience different results. While joining the College, one gets admission in the Law college whereas the other studies in Medical College and later their profession also is entirely different. Third example: Twins were born, one in $7^{\circ} 41'$ in Moon sign cancer, Saturn Star Pushya and in the sub of Kethu, the other twin was born in $12^{\circ}-20'$ in Moon sign Cancer, Saturn Star Pushya and in the sub of Mars. The earlier born in Kethu sub died immediately after birth whereas the 2nd born lived long. No doubt, the second born had a fragile constitution in youth and later he picked up. Therefore, even though a constellation may indicate many results, it is the sub which decides which of them applies to an individual. A constellation extends to $13^{\circ}-20'$ whereas a sub extends between $0^{\circ}-40'$ to $2^{\circ} 13'-20"$. Therefore the broad prediction indicated by a constellation is specifically defined by the sub. A person may have his Meridian in 23° . if we take only the sign for the prediction for their processing we consider the sign Aries and its Lord Mars, the navamsa lord, etc. But if we include the constellation, then we take into our judgement both the planets Mars and the Lord of the Constellation Venus who rules between $13^{\circ}-20'$ and $26^{\circ}-10'$ Aries. But if one uses this sub, then one finds, that a person ties his Meridian in Mars sign, Venus Star and Jupiter sub whereas the other person has meridian in mars, sign, Venus Star, Saturn sub. Both are Sanitary Inspectors. One works in Animal Husbandry Department who has his meridian in Mars sign, Venus

Star, Jupiter Sub, as Jupiter is the chief governor for production and progeny whereas the other is working in the slaughter house where animals are killed, as Saturn the sub-lord is the Karaka for "Death". So, a person causes production of animals whereas the other causes destruction of them. Hence health, disease, longevity, education, profession etc., can be clearly and correctly predicted only when the sub is included.

If it is not taken into consideration, an astrologer is to predict that a person may deal with quadrupeds. He cannot say as to whom of the two is in animal husbandry and who in the slaughter house. A third person having his Meridian in 5°-50' of Aries thus having it in Mars sign, Venus star, sun sub works as Veterinary Surgeon. To clearly indicate the profession, one can find that the sub serves useful purpose and gives correct and clear prediction. This alone is needed.

Suppose planets A, B, C and D are in Sagittarius (Dhanus) between 26°-40' to 30°.

Dhanus is ruled by Jupiter.

Longitude 26°-40' to 30° is governed by Sun. The star is Uthrashada.

Both rasi and Navamsa are Dhanus.

The modification to the planet A, B, C and D is the same according to our ancient science. But according to Krishnamurti Padhdhati Planet 'A' which is between 26°40' and 27°-20' gains strength or gets weakened according to the sign. Dhanus ruled by Jupiter, the planet 'A' instead of giving results according to its nature and lordship, offers the results indicated by the lord of the constellation Sun. The lord of the constellation may indicate many matters. But the lord of the sub, eliminates many of them and specifies a particular matter. Planet 'B' in between 27°-20' and 28°-26'-40" is in Jupiter's sign, Sun's star Uthrashada and sub of Moon.

Planet "C" in between 28°-26-40" and 29°-13-20" is under the sway of Jupiter-lord of the Sign, Sun, lord of the star and Mars lord of the sub.

Planet "D" in between 29°13'-20" and the end of the sign is in Rahu sub, the sign lord and star being Jupiter and Sun respectively.

FOR SAGITTARIUS, the following profession is mentioned.

Physician: Health Department	Jupiter	Kethu	Kethu
Priest Goddess Temple	Jupiter	Kethu	Venus
Druggist Chemist	Jupiter	Kethu	Sun

Jail Department	Jupiter	Sun	Rahu

(Let us take Character:

Magnanimous, True	Jupiter Sun Sun
Submissive to women	Jupiter Sun Moon
Does subversive activities	
Bold-fond of bad deeds	Jupiter Sun Mars

Therefore one can note that hundreds of professions are indicated by the sign-Sagittarius-Dhanus. But if we take constellations, each represents a few dozens of them. Sub exactly fixes the profession.

Therefore, he who has the planets, A, B, C and D and if he runs 'A' dasa, he will then be magnanimous, reliable, honest, serve in Education Department or bank or be a physician,

But when he runs the period of the planet 'B' he may be a politician or benefited by a politician then, if it is a benefit.

When he runs the period of the planet 'C' he may be a civilian in Military, Defence Department, or an orator or a mayor or a minister.

Planet 'D' may authorize him as one of the visitors of jails.

Thus the planet within these 3°-20' has to indicate many varieties. When the sub is applied, one can eliminate most of them and pinpoint on very few items which alone is helpful to the querist.

If one gives a list of appointments assigned to a sign just like the server presents a large number of items in a 'Menu' card in a hotel, what a task it is to make further selection. Specific ones are needed in those days, just like one wants to know the special dish of the day.

Suppose there is a planet in a sign. Then, the planet is the source of light. It indicates the source of a result -which a native enjoys by its nature, ownership etc.

If the planet is significator of 1, he gains by his own efforts and influence. If it is significator of 3, through brother or publication, he gains or loses, depending on the sub. If it is significator of 4, through mother or the matters signified by the 4th house, he has that result. If it is significator of 5, through speculation, music or children he enjoys the result. Thus the planet who transits or the planet whose period is running, shows how one gets the result, how a result is brought about, etc.

The sign indicates the extent to which one can enjoy as it shows whether the planet is strong or weak in that Sign,

The lord of the constellation is that which shows the nature of the *RESULT*, i.e. in which house, the lord of the constellation is

deposited and the house or houses it owns. Then the matters signified by those houses will manifest.

Suppose the lord of the constellation owns the houses 3 and 10, i.e. Mars to Aquarius-burns or Venus to Leo-horns and they are occupying 3rd house from Aquarius or Leo respectively, then the planet in Mars constellation to Aquarius-borns or that in Venus constellation for Leo-borns shows that one corresponds, interviews or makes a short journey for a job. Then the favourable or unfavourable sub denotes whether he is successful or not. When? it will be during the conjoined period of the planet, star lord and sub-lord.

Suppose a planet transits in a sign, e.g. take Jupiter.

According to the principles available one cannot definitely state when one can have its beneficial results and also what result one can expect at a particular time. But by studying this book one can give correct prediction,

Suppose in a small post office, one posts, say, 44 letters, All the 44 are put in one bag. So the contents indicate 44 places. If these are distributed into 3 bags, one may contain 19, the other 19 and the third 6. If there are 22 bags each for different places, these 44 will be distributed to the 22 bags on an average at two per bag. If one bag is missing, only now, it is easy for one to mention from the missing bag, to which places the letters belong. If all are thrown in one bag, one can say, that two of the 44 are missing and it is not possible to specify. If they are distributed in 3 bags, even then, it cannot be specified. But if it is distributed to 22 bags, (22 subs in one sign) it is easy to pitch up.

Further, a planet in the sub of an evil planet, indicates loss, difficulty or failure whereas the same planet, in the same star, but in the sub of a benefic, promises success, gain and pleasure. The lord of the constellation may indicate the matters of the 7th house. The planet in the sub of a malefic causes enmity whereas that in the sub of a benefic brings in harmony and happiness. Also, the planet in the sub of an evil one threatens loss in litigation whereas that in the sub of a benefic indicates victory even though

the constellation lord denotes litigation. If a planet indicates business, the stars governed by this planet show business and the planet in beneficial sub promises profit whereas that in the sub of an evil one threatens loss. The lord of the constellation may show any one walk of life to the native, it is the sub which decides whether that area is advantageous or not and thereby indicates whether the planet occupying or transiting therein will offer desirable results or adverse ones.

SIGNIFICATION OF EACH SUB

The Zodiac is divided into 27 constellations and each constellation is subdivided into 9 parts. This subdivision is called "SUB". In this Textbook wherever SUB is used, it means one of the 9 divisions of the star.

Each star indicates many matters and when a prediction is to be offered, taking into consideration a planet and its situation in a constellation, one has to give many alternatives and hence the prediction will not be of much use to the querist. But if the sub is also included then, one can eliminate many of them and select a very few, out of the many indicated by the constellation.

SUB USEFUL FOR DETAILED READING

(a) What each constellation signifies and (b) to each rasi born which constellation are beneficial and which are disadvantageous are to be understood first.

(1) A planet offers the results indicated by the lord of the constellation more predominantly than what it denotes by its occupation, ownership and nature. It is true that the expectations according to the occupation and ownership of a planet fail in many cases whereas certain events not indicated as above, happen which in full, agree with those foreshadowed by the lord of the constellation. Whenever there are planets in the constellation of the occupant or the owner, such planets deposited in the constellation offers the result. Occupants or owners do not offer the results of the houses but they offer the results of the lord of the Constellation in which they are deposited.

(2) When one carries on research, one comes to know that the constellation needs further subdivision. Such a subdivision is called "Sub"

If the constellation is compared to the bed of the river then the ups and downs in the bed of the river is similar to the sub.

The Thirupaur Kadal, i.e. the milky ocean was not genuine and unadulterated. It contained both the Nectar and the deadly poison.

Similarly there are some portions (sub) in a constellation which are most beneficial to a person and certain areas in the same constellation which are disadvantageous to the same individual.

This can be explained by taking an example. Suppose in one's horoscope Mars and Venus are the two significators for one's marriage. Mars governs the stars Mrigasira Chithrai and Dhanishta; Venus rules the constellations Bharani, Poorvaphalguni and Poorvashada. Marriage proposal, negotiation, arrangement settlement, celebration, etc., can happen only when the significators transit in these constellations. But the sub in these stars show precisely which will be done during the period when the significator transits in a sub.

Mars transits in Poorvaphalguni, Poorvaphalguni extends between 13°-20' and 26°-40' in Leo. The first sub of 2°13'-20" is allotted to Venus, Negotiation stars: Elders discuss, when mars passes on to the next sub, governed by the life giving Sun's sub, they decide to proceed and fix up the marriage. When the significator moves to the next sub, allotted to Moon, the terms are further finalised. During the occasion when it passes in Mars sub, the marriage Panda] is erected; goldsmith is asked to prepare Thirumangalyam; silver and eversilver vessels are purchased; music is arranged. When Mars is in Rahu's sub, invitation is posted. A few close relatives arrive. When it passes on in Jupiter's sub, Marriage is celebrated. Mars, during its stay in Saturn sub shows separation from close relatives, departure of guests, etc., The couple is left alone without interference or disturbance. Mars

passes on the Mercury sub and the couple go on short journeys. It may be said as 'Honey Moon'. Then followed the days when Mars in Venus star Kethu sub and they visit Vallabha Ganapathi's temple. Thus, one of the significators transiting in the constellation of another significator indicates one particular affair. The sub in that constellations shows how the above matter takes shape, its progress etc., and how it materialises.

Suppose a person has litigation in the court of law. Litigation will be indicated by a few planets in his horoscope. When a planet transits in a constellation ruled by the significator, it shows the various stages as it passes sub after sub.

Let Mercury be a significator denoting dispute. When a planet, say the other significator Saturn, transits in Mercury sub, the person gives lawyer notice. When Saturn transits in Kethu's sub the person receives a rejoinder. When it passes in Venus sub, he tries for compromise. When it further proceeds and is in Sun's sub, he files the suit. During the time when it is in Moon's sub, summons are served. During the period when it passes in Mars sub, the judge takes up the case; both sides go on arguing till Rahu sub is over. When it moves in Jupiter's sub the parties enter to a compromise. Thus, it will be seen that Mercury which indicates litigation, shows that when a planet transits in its constellation, it refers all about the litigation. But the sub mentions specifically and precisely the minute details of the matter and gives useful and correct picture.

Suppose in the natal chart, there are two planets in one constellation, but one is in the sub of a beneficial planet and the other planet, is in the sub of an evil one. Then during the period of the planet, in the sub of a benefic, it gives success, whereas during the period of the planet in the sub of a malefic, it does harm in the same affair, if the lord of the constellation indicates married life, when a planet transits in favourable sub, one enjoys pleasure; if the same planet or any other planet transits in unfavourable sub, results in displeasure though constellation remains the same.

Suppose one is born in Pisces with Rahu and Jupiter in the constellation Hastham ruled by lord of 5, Moon. Suppose, Rahu is in the sub of Moon itself and Jupiter is in the sub of Saturn in Hastham star. Then the lady will have a child born during Rahu Bhukthi and none in Jupiter's sub period. Generally one will expect abortion during Rahu's period and birth of child in Jupiter's period, as Jupiter is the chief governor for children.

Let one be born in Virgo with Jupiter in Poorvaphalguni star ruled by lord of 2 and 9, Venus; the sub, is that of Sun who owns the 12th house and Saturn is in the same star Poorvaphalguni but in the sub of Moon. Then during Jupiter's sub period, the native goes on a long journey as sub of sun shows separation and life in a foreign place. That which is in the sub of Moon, lord of 11, promises reunion. Hence during Saturn's sub period he returns home. Both the planets are in 12. Both are in the same constellation. Because the sub is different, the result is different.

A person born in Aquarius purchases a car during the period of the planet occupying the constellation belonging to the lord of i.e. 4, Venus (Poorvaphalguni) and the sub of Jupiter ruling 11th house, But, he disposes the same car when he runs the period of a planet in the same star but the sub of Mars which owns the 3rd house. The constellation lord refers to an object. Acquiring it or disposing it depends on the sub.

Thus if one verifies, one can understand that the lord of the star shows a particular matter and the sub indicates the details about the same i.e. the success or failure; progress or not; whether one's application is shelved or whether it is moving; that too favourably or unfavourably.

This is one of the important findings of Krishnamurthi system.

Suppose one is born in Virgo. Moon and Mars are in the constellation of lord of 2, Venus. Moon is in Poorvashada star, governed by Venus (lord of 2) but is in the sub of Saturn (lord of 6). As 6th house is Vraya, 12 to 7 (7 indicating marriage) Moon

cannot give marriage. Mars is in the constellation of Venus, in Poorvaphalguni, in the sub of Jupiter. Mars is lord of 8, Yet it gives marriage. Therefore, it is not the lordship of a planet which is final decisive factor. The lord of the constellation shows which matter the planet signifies; what ever be the planet in that constellation, the matter signified will be the same. The sub lord shows whether the planet can be helpful or harmful, can bring success or cause failure; can delay or deny; cause union or separation etc. This method of prediction is indeed, a discovery. This alone comes correct. Tradition is no good: never useful; nor scientific. So tradition cannot be applied universally.

BEHAVIOUR OF PLANETS

To make the book handy, this chapter is written in a concise form. One can find that different results are offered by the same planet as it occupies the constellation owned by those ruling different houses (Bhavas) in the chart. There are 12 houses and 27 constellations. These 27 constellations are governed by 9 planets. Therefore, a planet offers results after the corresponding modification due to its position in a particular constellation, which is ruled by planet governing certain house or houses in the chart.

One should take the following delineations at the time of judgement.

Whether the planet is strong or weak by noting the sign in which it is.

Whether it is in a favourable and beneficial sub or in unfavourable sub.

Whether it is conjoined with any other planet.

Then nature of the planet whether it is a benefit or a malefic.

Whether the sign occupied by the planet is fiery, earthy, airy or watery; cardinal, fixed or common; fruitful or barren, masculine or feminine; human or bestial; mute or voice; etc. and any house give the results as is changed by the constellation lord. What results are indicated by a planet in that star or while a planet

transits in that asterism. Suppose one is born in Taurus - Rishaba Lagna, also suppose Sun is in Rohini, Venus in Mrigasira; Saturn in Ashlesha, Then Sun gives the results of Moon governing Rohini, owning 3rd house to Taurus. Sun gives such results given under "Moon as the constellation lord of 3 Venus in Mrigasira governed by Mars owning the 7th and 12th houses. Hence Venus will give both the results given under "Mars as the constellation lord of 7 and Mars as the constellation lord of 12th. Saturn in Ashlesha, for Taurus born, will give the results given under "Mercury as the constellation lord of 2nd and "Mercury as the constellation lord of 5th as Ashlesha is governed by Mercury.

But, it is found, that the occupants are much stronger. So one is to note down which houses are occupied by each planet. If Sun occupies the 3rd house to say. Aquarius-born one is to read the results given under Sun as the constellation lord of 7 and in 3; the results indicated by Sun in 3 will be more predominant than Sun as lord of 7. Both results will be enjoyed. Let us take another example, Suppose one is born in Virgo; Sun owns the 12 house; suppose it is occupying the 7th house. Then the results given under "Sun constellation lord (of 7 or) in 7 will predominantly operate. Also results given under Sun constellation lord of the 12th house to Virgo born will be experienced Thus one is to consider in which house a planet is posited.

Thus, one has to analyses, blend and modify the indications. The following delineation is a general one.

In our experience after a long research, it is found that a planet may occupy a house, for example,, the 11th house; but the result offered by that planet during its dasa or bhukthi or anthra and at the time when it receives aspects from other planets is different, it causes loss and separation instead of profit and pleasure. But the result that is experienced is not the same as the house signifies. But one experiences predominantly the results of the bhavas, signified by the lord of the constellation in which the planet is posited in the horoscope. Therefore, the following results without any other modification are given for each planet owning different houses influencing the constellation lords

of the 12 houses. It will be helpful to the students to understand how a planet offers results, completely changed by the lord of the constellation and it is the lord of the sub which indicated whether the matter signified by the planet is advantageous or disadvantageous. It may be mentioned hereafter a planet as the constellation lord of 1 or 2 or 3 and so on. It means that the planet to that person, owns a particular house, either Lagna or 2nd house or 3rd house and so on. It governs three constellations. Any planet may occupy one of the 3 stars. So, this planet indicates the results of the lord of the constellation who may own one house or two houses. Then give importance to the house occupied by the planet. Read the results given for that planet.

Let us take a third example. Suppose one is born in Capricorn, Mars is occupying the 6th house. If a planet were to be situated in one of the 3 stars governed by Mars Mrigasira, Chithrai Or Dhanishta, then one is to read (a) Mars as constellation lord in 6 and (b) the results given under Mars, constellation lord of 4 and constellation lord of 11. Of these results the planets in the constellation of Mars will predominantly give the results of the 6th house. It also includes the other results given as the lord of 4 and 11.

Rahu and Kethu will occupy a house. They govern the stars Arudhra, Swathi, Sathabisha, Aswini, Maka and Moola. So planets situated in these stars will offer the results as indicated by either Rahu or Kethu according to the house occupied by them. Further one should include the results of the lord of the constellation and then the lord of the sign in which Rahu and Kethu is posited, it is explained in the end of this chapter.

Summing up the explanation, let me put all these in a nutshell. Note in which star a planet is; who is the lord of the constellation; in which house this lord is posited and to which houses he is the owner. Then read as follows; Lord of the constellation in house (occupant). Lord of the constellation owing houses (lordship). All the results indicated will be experienced during the period of the planet situated in that constellation.

SUN

Sun governs the stars Karthigai, Uthrapalguni and- Uthrashada stars. Whatever be the planets and whichever house they own or occupy, they will, when situated in SUN'S star, will predominantly offer results of the house, portrayed by sun only. Suppose one is born in Karkata Lagna and Sun is occupying Aries in the 10th house. A planet, whatever it may be, will bestow - the results indicated by sun i.e. 10th predominantly, than Sun as Lord of 2. Suppose Venus occupies Karthikai star, then Venus gives the matters signified by 10th house more predominantly than the matters indicated by 2nd house. Venus is the source to fulfill such matters, according to its own ownership, nature and occupation. By Sun in 1 or lord of 1 means if sun occupies the Lagna Bhava or if Sun happens to be Lord of Lagna, the results given under Sun in 1 or Lord of 1 are offered by a planet in Sun's stars to all Lagna borns when, Sun is in 1 and to Leo borns when Sun is lord of 1. Similarly a planet, in Uthrapalguni star will offer the results of the 5th house matters, whatever be the Bhava it occupies, if Sun is in 5, to all Lagna borns. Also the same results will be given if Sun is Lord of 5 i.e., for Aries lagna born alone.

Therefore, the results that are given below as Sun in 1 or lord of 1 means that these results will be given by any planet, situated in any of the 3 stars of Sun viz. Karthikai, Uthraphalguni and Uthrashada when its period or subperiod runs. If it is said merely 2 or 3 or 4 it means a planet in the constellation Sun will give the results of the 2nd house matters when Sun occupies or owns the 2nd house. By 3 it is meant that a planet will give the matters of the 3rd house if it occupies the constellation of Sun and when Sun either occupies or owns the 3rd house. Similarly for all planets one to read the results. Any planet in Karthik or Uthraphalguni or Uthrashada Stars will offer the results according the house occupied by Sun and also owned by Sun, as below.

1. Sun in 1 or lord of 1, Generous, determined, frank, dignity, independent, hopeful, good constitution, satisfactory immunity,

successful attempts, good relationship with officers, promotion, smooth life, defective vision, boastful.

2. Inheritance, gain by one's Industry or through Government or holding responsible position. Generous, social, fond of sports and pleasure, if afflicted, loss of money, immoral life, nasty talk, extravagant and impulsive expenses.

3. Commands respect, bold, courageous, gains through relatives, good understanding with neighbours, success in agency, good for business, creative, victory over enemies, good health, reputation and honour. If afflicted, troubles, anxious, anonymous petitions, false reports, difficulties.

4. Realise ambition, purchase of property, land or gain through estate, inherits property. If afflicted, obstacles, troubles, difficulty in old age, blood pressure, undomestic environments and loss of property.

5. Gains through speculation, children, amusement, cinema etc., During child birth difficulty. May go on journey to forest region, intestinal disorders. If afflicted, loss, rivalry in courtship, difficulty through love affairs and trouble with children.

It is similar, to a person climbing up a tree on the shore of the sea, walk along the branch and fall into the sea, the depth of which is much greater than the height that he climbed.). RAHU & KETU

As regards Rahu and Kethu, they indicate the results of the planet with which they are conjoined. If no planet is in conjunction with them they bestow the results of the planets aspecting them.

If Rahu or Kethu is neither conjoined with, nor aspected by any planet, it offers the results of the lord of the constellation in which it is deposited, and lastly the results of the sign. So one is to include the results of Rahu or Kethu in a particular house along with those of the lords of the constellation.

If the lord of the constellation is a benefic, one can expect advantageous result. If the lord of the constellation or the planet conjoined with or aspecting be a malefic, only undesirable results will be experienced.

Rahu or Kethu gives the results to a much greater extent than what the lord of the constellation can offer. Therefore imagine as though the lord of the constellation is posited in that house in which Rahu or Kethu was tenanted. Also imagine that the lord of the constellation is posited in that bhava. And it gives the results to a greater extent. Suppose one is born in Kumba lagna, Rahu is posited in the 10th house in Anuradha constellation. And suppose there is no planet in conjunction with nor any planet aspecting it; then Rahu will produce the results of Saturn owning the 1st and 12th houses and the results of the matters signified by the house occupied by Saturn. When one has to give the results of Rahu one has to imagine as though Rahu which is in Anuradha star will act as an agent of Saturn or as though Saturn itself is in Anuradha. But if Rahu were to be in Jyesta, then it has to represent Mercury. So, imagine as though Mercury is in Jyesta and include the matters signified by lord of 5 and 8: give more importance to the matters indicated by that bhava occupied by Mercury. Thus one has to blend the results and judge properly before venturing a prediction.

HOW TO JUDGE WHETHER A PLANET IS A BENEFIC OR A MALEFIC

Hindus are of opinion that Jupiter is the greatest benevolent fortunate planet, Venus comes next. Unaffiliated Mercury and waxing Moon are weak benefics. Hindus consider Sun and the other planets Mars, Saturn, Rahu, and Kethu as malefics. Further according to lordship, in Jathaka Chandrika the author claims that the lords of the houses, 3, 6, 8 and 11 are malefics. By that he means, according to me, that these are evil only for one's health and longevity and not for other aspects in one's life. The same author says that the lords of the houses 1, 5, 9 and 10 will produce advantageous results to a native and classifies them as benefics.

Westerners do not agree with Hindus in considering Sun as a malefic. They have classified Sun, Jupiter, Venus, Waxing, Moon and Mercury as benefics and the other planets excluding Rahu and Kethu (the Nodes) including Uranus and Neptune as malefics. They do not attach importance to the houses which they own excepting that the planet which forms an evil aspect is adverse and they judge a planet as a benefic or malefic only from the aspects which they receive. They claim that a planet even though by nature a malefic and by lordship also owning the houses signifying undesirable matters, becomes a benefic if it receives beneficial aspects and it is devoid of adverse ones

But according to krishnamurti system the differentiation and the proper judgement to classify whether a planet is a benefic or a malefic is as follows:

(1) A planet may be a benefic to the native but at the same time it will cause evil results to his own near relative and thereby be a malefic to such a relative. Food for one man is poison to the other. Similarly benefic to a person does not mean that it can give good results to him, to all his relatives and friends. For example, lord of 2 can give promotion and also increase the

income whereas the same planet may cause death to his wife. Are we to call this planet as a benefic or a malefic? A person may mint money by releasing a book at a time when the significator of the 3rd house operates. But it may cause separation from mother or bereavement In some cases where lord of 3 is a ruling planet to father, father passes away. Can we call the planet ruling the 3rd house or signifying the matters of 3rd house as a benefic to him when he loses one of his parents? Again the significator of the 4th house may operate. The native may construct a house and occupy. On the day he occupies the house, his son by mistake touches a live wire and passes away. Both events happen on the same day. Can we call the lord of 4th as a benefic or a malefic? Acquisition of a house is really pleasant but losing a son on the same day appears to be not only an ill-omen but it is actually an irreparable loss.

A person goes on a pilgrimage, with his two sons and has a dip in the river Ganges, as lords of 9, 10 and 12 jointly operate. At the same time, both the children are washed away in the speedy current of the Ganges. No doubt till he had the dip in the Ganges, it was a pleasant journey to him but the loss of the children due to the lordship of 6th and 8th houses counted from the 5th house denoting health and longevity of children is worse than the pleasure he had.

Thus it can be said that a benefic to the person may be a malefic to one of his near relatives forming a member of the family.

(2) If a person wants to find out which planet is a benefic and which one a malefic to him without taking into consideration what it does for others, then first of all we have to note down which he considers as desirable results, agreeable to him. Every one, however old he may be, would like to live for some more years. So, all would wish to have a longer span of life to enjoy all the fruits of life. When one is 60 years old, he would like to see that his responsibilities are over by celebrating the marriage of his youngest daughter. He does it and lives for some more years. Then he has the desire to celebrate the marriage of the great

granddaughter and so on. Thus there is no end for one's ambition and one never feels contented.

One may be wealthy, he may possess some crores of rupees. Even then, he has got the ambition to multiply it. How does he think? When my father left me 'X' crores of rupees and I have got 6 children, then is it not my duty to make it '6X' crores of rupees and give each child, 'X' crore rupees; then alone I will be doing my duty just like my father did. Look at his ambition. He wants to multiply his wealth by six times.

When one tries to select a girl for marriage, what series of qualifications he prescribes. No doubt ultimately he may marry one whom others will avoid even to look at. Here also he wants to find out whether the planets will please him by giving one Urvashi for him to marry.

When children are born he wishes that every child must come out successful in competitive examination, hold high position etc. Thus, in every walk of life and to every relative of his, he expects most brilliant results. Therefore, one is to judge which planet signifies the various matters and also the different relatives.

To ascertain, first of all, one is to take each planet and consider in which constellation it is, the lord of the constellation and note in which houses the lord of the constellation is, ownership and find out the matters signified by the lord of the constellation according to its ownership of the Bhava (never take into judgement where it is posited, its nature, etc.) suppose you find that Sun rules the 8th house then the stars governed by Sun are Karthigai, Uthiram and Uthrashtada. Hence, any planet occupying any of these 3 stars will be under the sway of Sun. Similarly, Mars to that native will rule the 4th and the 11th houses. It is said that planets owning or occupying the 11th house will satisfy the native by offering such results he expects. Therefore, planets under the sway of Mars by occupying one of these stars of Mars i.e. Mrigasira, Chitra or Dhanishta will offer brilliant results.

Now if a planet were to be in Chithrai and according to Krishnamurti system is in the sub of Saturn then the native will

surely gain and be happy because there will be neither delay nor disappointment. But if the same person has got another planet in the same star just prior to it in the sub of Jupiter, this planet even though it is under the sway of Mars and indicates the matters signified by the houses 4 and 11, yet it brings loss, failure in attempts, disappointment in life, partition, separation from partner, etc. as the sub lord is Jupiter, i.e., the sub is governed by the planet indicating the matters of the 12th house. Therefore, it is necessary to note whether a planet is in the sub of a planet which promises agreeable results to him or disadvantageous.

The planet must be considered as the source by which one's desire may be fulfilled or may be disappointed. The planet is the source of that event.

The lord of the constellation, i.e., the matters signified by the houses governed by the lord of the constellation, will indicate the matters. The lord of the constellation clearly shows what results one is going to enjoy or experience. Therefore, the nature of the result is indicated by the lord of the constellation.

The nature of the result may be viewed by the person as desirable or undesirable. If the sublord is a benefic, then when the matter indicated by the lord of the constellation is agreeable, the person will enjoy in full. But if the lord of the constellation indicates beneficial results and the sub lord shows adverse ones, then the star of lords of 6 or 8 or 12 are evil.

If the planet is in a constellation denoting evil results but the sub lord is a benefic, then even though one may suffer yet temporarily, during the period of the sub lord he has a little relief from the adverse results. Suppose a clerk is serving under a hard task master who uses to be harsh and short-tempered; then this poor man curses his fate and years pass on. When the sub period of a planet occupying the beneficial sub operates, during that time, the officer goes on leave and he has temporarily no worry or he himself may proceed on leave and forget the office for some time. Similarly a temporary relief will be given if a

planet were to occupy a beneficial sub in that of the constellation governed by the planet owning undesirable houses to a person.

Now one may ask which are the undesirable houses to a person ?

(a) As regards health, the significator of the ascendant should not be the significator of the houses 6 or 8 or 12. Significators of beneficial houses in the ascendant in good sub contribute to maintain good health and allow him to live long.

(b) Lord of second house will prove to be a benefic to the matter signified by the second house, if it does not occupy the constellation and sub of the significator of the houses 6, 8 and 12 counted from lagna. Similarly, for each house we have to note whether the significator of the house, is posited in the constellation and sub of the significator of the houses 6, 8 and 12 counted from that particular sign. If any planet is so posited or if it is conjoined with the lords of such houses, the planet offers adverse results signified by it by lordship. The above is the general principle.

But according to Krishnamurti system the planet which is considered to be a benefic by lordship offers the results signified by it, through the planet deposited in its constellation. Beneficial planets offer their results through the depositors in their constellation, only when the sub is also governed by a benefic. If the sub is ruled by a malefic the depositors cannot bring out favourable results. For example, to a Scorpio-born. Jupiter is the lord of 2 and 5. Jupiter is not only the chief governor for children but also by owning the houses 2 and 5 it signifies the birth of children to that person. Jupiter rules the stars Punarvasu, Visaka and Poorvabhadrapada. If a planet occupies any one of these stars then that planet has to offer the results indicated by Jupiter. If the sub is governed by lord of 11 then the person gets a child. But if the sub is ruled by lord of 12, no child will be born during the period of the planet in the sub governed by lord of 12. Therefore, a planet occupying Punarvasu Nakshatra and Mercury sub will give a child. So one is to understand that the planet which either

occupies a constellation or transits in a constellation, is the source by which one has his desire fulfilled. The lord of the constellation indicates the nature of the result, the sub shows whether it is desirable or undesirable.

Hence Planet is the source, constellation indicates nature of the result and the SUB is a deciding factor whether the matter is favourable or not.

Unless the matter is favourable, we do not call it benefic. Therefore, benefics are those which allow a native to enjoy and occupy the constellation of the lords of those houses through which he expects a result. A person who wants to publish books would like to see that the third house is well fortified. Therefore, he considered third house as a beneficial one for him. A press owner, an agent, a representative, a secretary, a broker, a contractor all these people should have a beneficial 3rd house. Therefore, Planets occupying the constellation of those signifying 3rd house matters will be his benefics.

If we dispassionately observe, we find that certain beneficial results to us are disadvantageous to our relatives, etc.

Each house has to contribute certain aspects in one's life and so every house is important. Therefore, the planet signifying the matters of each house has to be well posited so that through such matters he can have pleasure. If a house is afflicted, through that source, he will have worry. If the 5th house is spoiled, then the general principle that lord of 5 will do good cannot be correct. Lord of 5 may be a benefic; He can be by nature also a benefic, yet it need not necessarily offer beneficial results to him as the lord of the constellation in which it is posited will be detrimental to the child thereby causing anxiety to the native. Hence no planet is wholly a benefic nor in full a malefic. It is similar to the rose with thorns, A planet is said to be a malefic when thorns are many A planet is a benefic when the thorns have fallen down and the rose alone looks bright, without any bee, which may perchance sting.

CUSPS AND SUBS - HOW TO JUDGE

If that point which rises in the east, which is called ascendant happens to fall.

If the sub lord of the 2nd cusp is the significator of 1 and 2 then the native will be finding it easy to make money by his personal efforts; he will serve or do business and try to increase his bank position. If the sub-lord of 2 is the significator of the houses 1, 2 and 6 one enters into service or it should be significator of 10 without being the significator of 7. If the significator of the 2nd cusp is the significator of the houses 1, 7 and 10 one does business. If the sub-lord is the significator of 1, 2 and 12 and is connected with Sun or moon or Venus one loses his vision. If connected with Saturn one suffers from tooth ache. If Saturn and Moon are connected then one's mouth will be foul smelling and he will have pyorrhoea.

If the sub-lord of the second cusp is the significator of the second and the third, one can gain through education, writing, publicity, Publication, journalism, brothers, colleagues, neighbours and by taking up agencies, commission business, touring, salesman, representative, short tours etc. But to younger brother there will be loss. This sub-lord is very lucky to one's children.

Children make fortune in their own place and possess property.

If the sub-lord of 2 is the significator of 2 and 9 one makes money by export, and import by publication of books, by making long journeys, by contacting foreigners, or by discovering some Improvements and by patenting the same, One gains through religion, temples, churches, science, relatives of partner, etc. Speculative gains to children.

If the sub-lord of the second cusp is the significator of the houses 2 and 1 1 one makes money without much effort, gains without pains, through speculation; friends oblige. There will be accidental fortune like lottery where the investment is the minimum and the gain is substantial. Equally it is lucky to children to gain by business or win in litigation.

If the sub-lord of the second cusp is the significator of 2 and 1 2, one can make money by serving in a sanatorium, asylum, hospital, occult investigations, circus, jails, etc.; not good to children.

Thus one is to find out to which house a planet is the significator and calmly judge what it can do.

CONSTELLATION AND SUB

Since the zodiac is of 360° and it is equally divided into 12 signs, each extending to 30° exactly, in each sign there will be, on the whole 2-1/4 constellations, as shown below.

In Aries	: Aswini, Bharani and 1/4 of Karthik;
In Taurus	; Karthik3/4, Rohini and Mrigasira1/2
In Gemini	: Mrigasirisha 1/2, Arudhra, P Vasu 3/4.
In Cancer	: P. Vasu 1/4, Pushya and Ashlesha.
In Leo	: Makha, P. P Guni and 1/4 of U. P Guni
In Virgo	: U. P Guni 3/4, Hastha, Chithra, 1/2 :
in Libra	Chithra 1/2, Swathi, Visaka 3/4
In Scorpio	: Visaka 1/4, Anuradha and Jyesta.
In Sagittarius	: Moola, P Shada and U. Shada 1/4
In Capricorn	: U. Shada 3/4, Sravana, Dhanishta 1/2.
In Aquarius	: Dhanishta 1/2, Sathabisha, P P Pada 3/4
In Pisces	: PP Pada 1/4, U.P. Pada, and Revathi.

Constellation needs consideration.

The sign is not very important. The house occupied by a planet should be judged, taking in which constellation the planet is posited. The role of the sign occupied by the planet is not so important, as that of the constellation.

If a planet is in 12th bhava, it is said that it should cause separation, loss, issue of cheque, etc. But actually there is reunion, gain, receipt of cheques. Example is given below;

III 9-45 Moon 0-45	IV 11-45	Rahu 7-40 V 3-45	Nep. 5-16 VI 5-45

Jupiter Dasa 3 years 1 month 6 days.

This Gentleman had gains, fortune and success during Saturn, Mars and Sun Sub periods; desirable benefits during

Jupiter and Mercury sub periods. But Kethu in 10, Venus in 11 and Rahu in 4 gave untoward and undesirable results.

According to traditional system. Saturn and Sun must be the worst. Jupiter also will fall in 12th bhava and ought to have been very bad. Venus and Budha causing Dharma Karmadhipathi Rajayoga, should give brilliant results. Rahu representing, Venus must cause Rajayoga. Mars should be dangerous. This person was my friend for a long number of years and such results alone opened my eyes.

In 1939, when I visited Coimbatore, I heard one Nadi reader, reading the results of a few persons in his cottage. I understood that planets' results were read as they were found in the bhavas. Then I heard many Nadi readers. None made use of the constellation. While reading the Nadi, I understood that without assigning the reason, the results were read and they were astoundingly meticulously correct. For the future, they gave the reasons taking the traditional methods of the bhavas and the future proved to be mostly a failure. So I started the research, collecting the horoscopes of old people with past events.

Such horoscopes as shown above threw the light. What is it? A planet 'A' offers the results of the house occupied by that planet 'B' which is the lord of the star wherein this planet 'A' is deposited.

Again trouble arose when 2, 3 or 4 planets are found in the same constellation, as all the planets in the same star, though referring the same matters, yet gave diametrically opposite results, i.e. if planets A, B, C and D are in one constellation, in the same house, A and C gave pleasant results whereas B and D gave just opposite results. This made me think further. I found that a particular dasa is to cause Rajayaga. But yet, he gets most desirable result, in some bhukties and disadvantageous results in some Bhukties. Then I started doing research and in all cases I found that planets, though they are in the same constellation, yet a few are beneficial and a few unfavourable. This caused me to further carry on the research. I found that every constellation

must be divided in the manner I have said into 9 subs and each sub having that area in a constellation in the proportion in which they are allotted the number of years in Vimshottari dasa.

I proved that planets occupying any one constellation, has connection with the Bhava occupied by the lord of the constellation, These planets in that constellation are termed as the "Significators" of the bhava occupied by the lord of the constellation. Thus if one works out for all the planets then each planet is found to signify the matters of a few houses.

Then judge each planet. The planet signifies a matter. Whether it votes for the progress and prosperity of that matter or due to the sub lord it is not capable of doing good, further it does harm to that bhava signified by the planet, is to be studied.

This discovery has crowned me with success.

I say if a planet is the significator of lagna bhava, it gives long life, success in attempts; it helps to maintain good health, if the sub lord is not the significator of 6 or 8 or 12. If the sub lord of the planet signifies 6th house and if a planet shows lagna results and occupy such a sub ruled by the significator of 6, he falls ill. The constellation refers to his health, sub signifying 6 gives disease. If a planet signifies lagna bhava and it is in the sub of the significator of 8, he meets with danger.

If the sub lord signifies 12th house and the significator of lagna is in such a sub, one runs away, or one is imprisoned, or hospitalized.

Therefore constellation lord shows whom or which matter it refers. But the deciding factor, good or bad, success or failure is shown by the sub occupied by the significator.

Suppose a planet A is the significator of second bhava and it is in the sub of 6 one borrows but if it is in the sub of 8 or 12, he lends to others or repays loan.

If it is in the sub of 11, there is gain; of what? Either money or son-in-law or daughter-in-law or child birth to the person. If

the significator of the second house is in the sub of the significator of 3, through brother one gains, brother loses or gives away: if it is in the sub of 4, one may have car or house during the period of the significator in 2, in the sub of 4th house significator, in their conjoined periods, if the significator of the 4th house which rules the sub and if it is also the significator of 11, he purchases or acquires, if the sub lord who is also the significator of 12 other than 4, he sells and converts the permanent possession as liquid cash and his bank position improves by losing the car or building, if the sub lord of the planet signifying second house is the significator of 10 and 12, then lets his land for tenancy or lets the house for rent. Why ? 10th house is the 4th to the 7th with whom you transact, so that which he takes is given by you (12) and he is indebted (6).

Suppose a planet is the significator of 7th house and if it is in the sub of 2 or 1 one gains, there is reunion, one gets married, etc. If it is in the sub of the significator of 12, separation or health to wife. If it is in the sub of 1 and 2, danger to partner's life. There can be 3 or 4 or any number of significators for the 7th. Therefore during the period or sub period of a planet in such a sub whose lord signifies 12th house, wife fails ill-or the native goes away and separation is caused. If the sub lord signifies 6th house, the wife goes away, thereby there is separation.

If the planet is the significator of 7th house and sub of 4, partner gains, makes money and earns name. If the significator of 7 is in the sub of 5, partner makes money, friendship and enjoys pleasure, if the sub is ruled by the significator of 8th house, there is either income or danger to life. If that significator of 8th house is also significator of 5 partner gains. But significator of 8 is also significator of 1 and 7, it means death as 8 and 1 are maraka house to the 7th.

Thus one should note separately what each planet signifies. Then in which sub each planet is posited.

Finally one should take each house and judge, to which bhavas the planet are the significators and the sub lords. Judge

calmly how each bhava is receiving good results from a few and adverse from the rest.

Say, mother, father, child, etc. Mother is shown by 4th house. Father by 9th house, child by 5th house.

So, note the significators of 4: so also the significators of 9 and 5.

Let us take the above chart. Kethu Dasa balance 0-5-23

The constellation ruled by a planet indicates the matters, signified by the bhava occupied or owned by it.

The sub lord occupied by a planet denotes whether it is auspicious for the progress of that Bhava or inauspicious so that one has obstacle or faces disappointment or negation of the matter.

This applies to all bhava results. If lagna is occupied by a planet or owned by one and if a planet either the same lagnadhipathi or any other planet is deposited in the occupants or owner's star, then they indicate first house matters, the depositor in that constellation is in the favourable sub matters indicated by lagna will thrive. If the depositor in that constellation is in unfavourable sub the matters indicated by the lord of the constellation as per its occupation or ownership will suffer.

Lord of lagna is Sun: no planet is in lagna, Sun's stars are Karthik, Uthraphalguni and Uthrashada. Planets, if deposited in these stars will refer the matters signified by first house. If there is no planet, Sun gives lagna bhava results.

In the above chart, there is no planet in Sun's star. Hence Sun gives lagna results. Sun is in Moon's star. Moon is in 9 and owns 12. Hence Sun mostly refers to the matters signified by 9 and 12 i.e. long journey: staying outside: loss of father, permanent possession of father, separation from father. Let us judge the death of his father.

Note the sub occupied by Sun. It is in Jupiter's sub, what can Jupiter do to the 9th house? What can Jupiter do to the 12th house?

Jupiter is in Saturn's star. As Saturn is the Bhadhakastha-naadhipathi to 9, Jupiter indicates Bhadhaka to father. Therefore if a constellation indicates father, then the sub of Jupiter in that constellation indicates danger to father.

Therefore Sun in the constellation of Moon in 9 and sub of Jupiter-the Bhadhaka to father, promises danger to father.

9 house is owned by Mars. It governs Mrigasira, Chithra and Dhanishta stars. Rahu and Mercury are in Mars star. Rahu is in the sub of Mars who denotes, longevity to father. Mercury is in the sub of Saturn Bhadhaka to father. Hence Rahu is a benefic whereas Mercury is evil.

To the longevity of father houses 2 and 7 counted from 9th is evil. Both are owned by Venus. Rahu occupies 2 (to 9). Mars

occupies Venus star; none in Rahu star, Mars is in the sub of Venus.

So it is harmful Rahu is in the sub of Mars; it is good.

Therefore Sun, Mercury, Mars are evil. Venus is in Jupiter sub. Venus is also evil. (Venus is in the constellation of Kethu who represents 4th and 9th houses. Therefore Venus indicates thA houses 9, 10 and 3 -danger to father.)

His father died during Sun Dasa Mercury Bhukthi Venus Anthra in July 1952.

Let us judge 4th house. It is occupied by Sani and Kethu. It is owned by Mars.

So planets in Saturn's stars Kethu stars and Mars stars are those which refer 4th house matters.

Venus in Kethu star, Jupiter in Saturn star, Mercury in Mars star indicate 4th house matters.

Venus is in the sub of Jupiter, Marakasthanadhipathi and Venus is in Marakasthana to 4 (2nd from 4th).

Jupiter is in Venus sub. It is evil. Mercury is in Saturn sub. As Saturn is in rapt conjunction with Kethu and Saturn is in the constellation of (Mercury, lord of 8th from 4th) Mercury is evil Saturn is also evil,

Now Venus, Mercury, Mars, Saturn, Moon, etc. refer 4th house matters. It is the lord of the sub which indicates whether 4th house matter will thrive or not.

Venus is in 2 in the sub of lord of 2.

Mercury in the constellation of planet in 2 to 4, owner of 4 and in sub of evil in 4.

Saturn in the sub of Jupiter and Kethu in the sub of Jupiter, both occupying 4th house are evil. Hence he lost his mother during Venus Dasa Mercury Bhukthi Saturn Anthra on 27-4-47.

Let us analyse the date of death of his mother. It was on 11-4-47 when Venus Dasa (in the constellation of occupant of 4 and sub of the occupant of 10) Mercury Bhukthi (constellation of

planet in 2 to 4 and sub of planet in 4) and anthra of Saturn which refers the 4th house (to give life or cause death depending on the sub which Saturn occupied) and it is in the sub of Mars and Shookshma of Rahu in 10 which is also in the constellation of Mars in 2 to 4 and sub of Mars.

Day of demise-Friday. Star Moolam where Dasanatha was (Jupiter rasi Jupiter significator of 4 in Saturn star and sub of Venus in 2 to 4) at night when lagna was in Poorvashada 15° in Dhanus.

Death of child happened during Moon Dasa Jupiter Bhukthi Rahu Anthra. Moon is in the constellation of Kethu and sub of Mercury. Kethu has to give the results of planet with which it is conjoined, as it is a node. Saturn is lord of 2 to 5 and situated in 12 to 5. Hence Moon is definitely evil as it is in the constellation of the node representing the second house to the 5th and in the sub of lord of 7 to 5, situated in 2 to 5.

Jupiter is in the constellation of Saturn, lord of 2 in 12 to 5th house and sub of Venus, which is the occupant of 5 in the constellation of node in 12 to 5. Venus itself is evil to 5. Mars it Venus star Venus sub is also evil. Rahu in Venus sign Mars star and Mars sub is definitely evil.

Hence, Moon Dasa Jupiter Bhukthi Rahu Anthra was evil.

Let us take pleasant functions; Marriage

Judge houses 2,7, and 11 counted from lagna.

2, 7 and 11 are vacant. 2 is ruled by Sun, 11 is ruled by Mercury. 7 is owned by Saturn.

Saturn and Kethu are in Mercury star. Jupiter is in Saturn's star. Kethu is stronger than lord of 7. Moon and Venus are in Kethu star. Sun is also strong as there is no planet in Sun's star.

Marriage took place during Venus Dasa, Kethu Bhukthi, Venus Anthra, Moon Shookshma on 6-7-1947 on Sravanam star day.

Venus is in Kethu star. Kethu is stronger than Saturn, lord of 7 (7th house vacant).

Kethu is in the star of Mercury (lord of 2 and 11). Both houses, vacant.

Moon is in Kethu star. Kethu stronger than Saturn, lord of 7.

Kethu has to predominantly indicate Saturn's result; then only that of Mars. Moon's star is not in Mars sign. Hence, Sravanam star governed by Moon in Saturn's sign gave marriage.

Normally when one finds Saturn and Kethu in 4 and 9th house occupied by lord of 12, one following traditional Astrology must say that the native will have no tendency towards education. Also that he cannot come up nicely in studies.

But according to Krishnamurti Padhdhati, Saturn and Kethu in 4 are in the constellation of Mercury, lord of 4 and sub of Mars owner of 4, education and 9, higher education.

According to my method, if the dasanatha is connected with houses 4 and 9, they will give education.

Venus in the constellation of node in 4 gave studies throughout Venus Dasa.

Sun in the constellation of Moon in 9 gave higher studies. As Moon is also significator of 12, Sun in the constellation of Moon, gave the break and ended his studies.

He discontinued his studies after successfully completing Medical College course during Sun Dasa Saturn Bhukthi Sun Anthra in December, 1952.

Service

Take houses 2, 6 and 10. Sun and Mercury are in 6. Rahu is in 10. Kethu indicates what Saturn is to do, and Saturn is lord of 6. Sukra is lord of 10

First appointment was in Sun Dasa (in 6). Saturn Bhukthi (lord of 6). Sun has no planet in its star. Hence Sun has to give surely 6th house results. Saturn in the constellation of Mercury (lord of 2) and owner of 6 has to offer. Kethu can give. Also Moon and Venus. Moon in mercury sub is very strong. First appointment was in Sun Dasa Saturn Bhukthi and Moon Anthra in January, 1952.

Thus various instances can be quoted.

SYSTEMATIC PROCEDURE TO ADOPT K.P. METHOD FOR TRANSIT RESULTS

One must get the following data to have a correct chart.(1)
Place of birth (2) Time of birth (3) Date, month and year.

If the birth is between midnight and the next sun rise, confirm, at 12 midnight which calendar date was over and which calendar date, sun is to rise.

Take Krishnamurti Ephemeris where sidereal time and position of planets are given for every day and 'Krishnam KP Tables of houses'.

Use only Krishnamurti Ayanamsa. Work out. Erect the Nirayana chart and a ready reckoner for Dasa and Bhukthi, etc. Let us take one horoscope. The particulars needed are as follows:-

"Alibag: 18°.39'N; 72-55E is the place of birth. 9-00 PM. I.S.T. is the actual time of birth. Tuesday 23-12-1924 is the day and date of birth. The horoscope is as follows. It is worked out in strict accordance with K.P's rules.

IX15-01 Mars 9-49	X 17-01.	XI 19-01	XII 19-01
VIII 15-01	9 PM. 23-12-1924 18-39 N 72-55 E		Lag. 18-22 Rahu 23-23
Kethu 23-23 VII 18-22			II 15-01
VI-19-01 Mercury 17-21 Sun 8-51 Jup. 8-32	V 19-01 Ven. 9-33 Moon 3-11	Saturn 18-39 IV 17-01	III 15-01

This is the way how to present a chart to the person concerned, so that there is no trouble to note the houses and the planets in each house etc...,

Step 1 :- Note the extension of each Bhava-House.

I, 18°-22' of Cancer to 15°-01' Leo, II. 15°-01' Leo to 15°1' Virgo, III. 15°-01' Virgo to 17°-01' Libra, IV. 17°-01' Libra to 19°-01' Scorpio, V, 19°-01' Scorpio to 19°-01' Sagittarius, VI. 19°-01' Sagittarius to 18°- 22' Capricorn, VII. 18°-22' Capricorn to 15°-01' Aquarius, VIII. 15°-01' Aquarius to 15°01' Pisces, IX. 15°01' Pisces to 17° 01' Aries, X. 17°- 01' Aries to 19°-01' Taurus, XI. 19°-01' Taurus to 19°-01' Gemini, XII-19°01' Gemini to 18°-22' Cancer.

Step 2:- Note which planet is deposited in which Bhava, and the constellation ruling them.

OCCUPANTS

House	Planet	Constellation of Occupants
I	Rahu	Arudra, Swathi, Sathabisha
II	*	
III	*	
IV	*	
	Saturn	Pushya, Anuradha, U.P.Pada
	Venus	Bharani, P.P.Guni, P.Shada
	Moon	Rohini, Hastham, Sravana
V	Jupiter	P.Vasu, Visakam, P.P.Pada
	Sun	Karthik, U.Palguni, U.Shada
	Mercury	Ashlesha, Jyeshtha, Revathi
VI	*	
VII	Kethu	Aswini, Makam, Moola
VIII	Mars	M,Sira, Chithra, Dhanishta
IX	*	
X	*	
XI	*	
XII	*	

Step 3: Note the Planets tenanted In the constellation of occupants from first bhava (or house) to 12th in an order.

I. Saturn in Swathi, IV. Venus in Anuradha, Mars in U.P.Pada. Mercury in P.Shada. None in Moon Star, V. Moon in Visaka, None in Sun star, Rahu in Ashlesha, VII. Jupiter and Sun in moola, VIII. Kethu in Dhanishta.

So, Planets occupy only the houses 1,4,5,7 and 8. Planets deposited in any of the constellation of the occupants are the strongest significators of the bhavas 1,4,5,7, and 8. Then come the occupants.

Step 4: - Note the owners of the signs where the cusps are and their constellations.

I.	Moon	Rohini, Hastha, Sravana.
II. III.	Sun	Karthik, Uthra, P.Guni, U.Shada.
IV.	Mercury	Ashlesha, Jyeshtha, Revathi.
V. VI.	Venus	Bharani, P.P.Guni, RShada.
VII.	Mars	M.Sira, Chithra, Dhanishta.
VIII.	Jupiter	P.Vasu, Visaka, P.P.Pada Pushya,
IX. X.	Saturn	Anurada, U.P.Pada Pushya,
XI.	Saturn	Anurada, U.P.Pada P.Vasu,
XII.	Jupiter	Visaka, PP.Pada
	Mars	M.Sira, Chithra, Dhanishta
	Venus	Bharani, P.P.Guni, P.Shada
	Mercury	Ashlesha, Jyeshtha, Revathi.

Step 5: Note the planets in the constellations of the owners of the signs where the cusps fall

I. None in Moon star, II. None in Sun star, III. Rahu in Mercury star, IV. Mercury in Venus star, V. Kethu in Mars star, VI. Moon in Jupiter star, VII. Venus and Mars in Saturn star, VIII. Venus and Mars in Saturn star, IX. Moon in Jupiter star, X. Kethu in Mars star, XI. Mercury in Venus star, XII. Rahu in Mercury star,

So, there are planets in the constellation of the owners of the houses 3 to 12. So these planets deposited in the stars of the owners are stronger than the owners to offer the results of the bhavas owned by them. But the Moon and Sun have none in their stars. So they themselves, have to give. Planet occupying a constellation is Deputy Secretary who is to execute what the lord of the constellation, (Secretary with a particular portfolio) indicates by occupation or ownership. If the Dy. Secretary is absent, Secretary does. So also if there is none in its stars, the owner gives.

Step 6:- Assort, arrange and prepare a ready reckoner for each planet to know which bhava results each planet will give when its dasa, bhukti, Anthra operates and which planets will offer the results of a particular bhava. To note the order of the significators, this is the rule. That is,

- (1) Planets in the constellation of the occupants.
- (2) Occupants,
- (3) Planets in the constellation of owners.
- (4) Owners,
- (5) Very weak but yet those connected with a bhava are those planets conjoined with or aspected by the significators found out already.

Now, the above calculations may be tabulated as follows:-

Planet	House signification	House	Significators
Sun	2,7 and 5	I.	Moon, Saturn, Rahu
Moon	4,1,5, 6 and 9	II.	Sun
Mars	4,8,7,5 and 10	III.	Mercury, Rahu
Mercury	11,4,5,3 and 12	IV.	Moon, Mercury, Venus, Saturn, Rahu, Kethu, Mars
Jupiter	7,5,6 and 9	V.	Sun, Mercury,Jupiter, Rahu, Moon, Mars, Kethu
Venus	4,11,7 and 8	VI.	Jupiter, Moon,
Saturn	1,4,8 and 7	VII.	Mars, Venus,Saturn, Kethu, Sun, Jupiter
Rahu	3,12,5,1 and 4	VIII.	Mars, Venus, Saturn, Kethu
Kethu	8,10,5,7, and 4	IX.	Moon, Jupiter
		X.	Kethu, Mars
		XI.	Mercury, Venus
		XII.	Rahu, Mercury

Only to get this map tabulated, one is to work step by step. These workings are not needed any longer. This chart along with the horoscope and the ready reckoner table for dasa and bhukti is more than enough.

For reading Transit results according to Krishnamurti Padhdhati, the following procedure is mentioned for students so that they do not miss any point but ever come out successful.

There are 27 constellations.

- 1, 10 and 19th stars are governed by Kethu.
- 2, 11 and 20th stars are governed by Venus.
- 3, 12 and 21th Stars are governed by Sun.
- 4, 13 and 22th stars are governed by Moon.
- 5, 14 and 23th stars are governed by Mars.
- 6, 15 and 24th stars are governed by Rahu.

7, 16 and 2th stars are governed by Jupiter.

8, 17 and 26th stars are governed by Saturn.

9, 18 and 27th stars are governed by Mercury.

Kethu is the significator of the houses 8,10,5,7 and 4. Hence whichever be the planet that transits the Constellations governed by Kethu. i.e. whichever planet passes through the Stars 1,10 and 19. i.e. 0° to 13°-20'; 120° to 133°-20'; 240° to 253°-20', these transiting planets offer the matters signified by the houses 8,10,5,7 and 4. Kethu, the significator of 8,10,5,7 and 4 offers these matters during the occasion whenever planets transit in any of its three stars; the Source is indicated by the planet transiting.

Suppose 8th house indicates money of the partner; 7th denotes partner and 4th house business of partner, then 8,7 and 4 indicate the above matters. If significator of 5 transits, partner gains through music or speculation or through children. If the 12th house significator transits, partner makes money by service or by borrowing, making money by husband or wife or partner is shown by Kethu being the significator of the houses 8, 7 and 4. How the money is made, is indicated by the, houses signified by the transiting planet.

Next take 13°-20' to 26°40'; 133° to 146°-40'; 253°-20' to 266°-40'.

They are called Bharani, Poorvapalguni and Poorvashada Stars. These are ruled by Venus. Venus is the significator of the houses 4, 11, 7 and 8. Hence any planet transiting in these constellations will bring out such matters of the houses 4,11,7 and 8. If in a housewife's chart, the above transit is found, it means, to her husband it shows 1,2 10 and 5 houses. So the husband may start Brokerage and jobbing business in Stock Exchange; or open a Book Shop in Race Club at the time when the 12th house significator of the housewife i.e. 6th house significator of the husband transits.

Suppose significator of the 6th from 7th enter into the constellation belonging to Venus, do not expect the result on the day of entry. You have to wait till the significator of the 6th comes to the sub belonging to the significator of 11. If the significator of 6th house is Jupiter and it has entered in Poorvapalguni (133°-20' to 146°-40') constellation, till it touches Venus Sub and Mercury Sub-sub or Mercury Sub in Venus Star, one cannot be promoted, even though both Venus and Mercury are the significators of 11 and Jupiter, the transiting planet is the significator of 6. Mercury Sub in Venus Star commences at 144° and extends up to 145°-53'-20".

Star 3, 12 and 21 are ruled by Sun. They are called Karthik, Uthrapalguni and Uthrashada stars. They extend from 26°- 40' to 40°; 146°-40' to 160°; 266°40' to 280°. Sun is the significator of the houses , 5 and 7. Whenever any planet transits, it shows love affairs, romance, payment of share or dividend to the partner. Love affairs will be pleasant when the significator of 7 transits the sub of 11th house significator. But when the same planet transit in the Sub of the significator of 6th house, the girl may go away and there will be separation till it comes to the sub governed by Significator of 11.

Saturn is the significator of 7. It moves slowly. So the duration will be long when Saturn transits. Sun is also the significator of

7. So when Sun transits in the same constellation and sub the duration of separation will be short

Kethu and Jupiter transiting cause separation for a longer period.

Stars 4, 13 and 22 are governed by Moon. They are called Rohini, Hastham and Sravanam. Moon is the significator of 4, 1, 5, 6 and 9. If the significator of 5th house transits either 40° to 53°-20' or 160° to 173°-20' or 280° to 293°-20' one will go on leave, make long journey, reaches his native place and remains there.

Thus we have to judge but we should note down as follows and prepare a ready reckoner:-

Star	Extension	Ruled by	Significator of the House
1	0° to 13°-20'	Kethu	8, 7, 10, 5 and 4
10	120° to 133°-20'	Kethu	8, 7, 10, 5 and 4
19	240° to 253°-20'	Kethu	8, 7, 10, 5 and 4
2	13°-20' to 26°40'	Venus	4, 11 7 and 8
11	133°-20' to 146°40'	Venus	4. 11, 7 and 8
20	253°-20' to 266°40'	Venus	4, 11, 7 and 8

4	40° to 53°-20'	Moon	4, 1, 5, 6 and 9
13	160° - to 173°-20'	Moon	4, 1, 5, 6 and 9

27	346°40' to 360°	Mercury	11,4, 5, 3 and 12

Whenever Kethu transits whichever matter is signified by the lord of the Star, Kethu offers through the matters signified by it. Kethu is the significator of 7th house. So, through partner or opponent (indicated by 7th house), the matter indicated by the lord of the constellation comes through. But it cannot come through 11th house matters whereas the same position transited by Venus or Mercury can give.

Whenever Sun transits, the matters signified by the lord of the constellation will come through, through the matters signified by Sun i.e. 2 or 5 or 7.

If Moon transits a particular constellation, whatever the lord of the constellation signifies will be given by Moon during its transit through the matters of the houses signified by Moon i.e. houses 4, 1,5, 6 and 9.

If Mars transits a constellation, whatever the lord of the constellation, signifies will be offered by Mars through the matters signified by Mars i.e. 4, 8, 7, 5 and 10.

If the lord of the constellation indicates 'income' or receipt of money if the significator of 3rd houses transits, the income will be by M.O. or cheque; from brother or neighbour; from editing or publishing, by Brokerage and so on.

If the significator of 4th house transits, one gets as rent for the house let by him or one gets the yield or from mother.

If the significator of 5th house transits, one can have the income through music, opera, cinema or speculation or through children.

Thus the source is indicated by the transiting planet and what will happen is shown by the lord of the constellation, whether it will materialise or not, whether it is favourable or not, is indicated by the sublord according to the houses signified by the sublord.

DASA BHUKTHI ANTHRA AND TRANSIT-

There are 27 stars. Planets taken by Hindus are 9. As mentioned already each governs 3 stars. Depending on the portion to be covered, in a star by Moon and the lord of the constellation, the balance of the dasa ruled by the lord of the constellation is calculated. Then, in cyclic order the other dasas follow. For detailed, clear and exhaustive explanation, kindly refer to the book 1st Reader-Casting the horoscope of **"KRISHNAMURTI PADHDHATI"**.

As there are 9 planets, there are 9 dasas. Each dasa has nine Bhukties; Hence one may expect there would be 81 combinations. But actually the combination will be 45.

When we take anthras, there should be $9 \times 9 \times 9 = 729$. But the same combination i.e. 'A' dasa 'B' Bhukthi 'C' Anthra; 'A' dasa 'C' Bhukthi 'B' Anthra; 'B' dasa 'A' Bhukthi 'C' Anthra; 'B' dasa 'C' Bhukthi 'A' Anthra; 'C' dasa 'B' Bhukthi 'A' Anthra 'C' Dasa 'A' Bhukthi 'B' Anthra are the combinations of the three planets A, B, and C in 6 different conjoined periods of these three. Again Dasa lord itself may be bhukthi lord and anthra lord. They are 9 in number instead of 18. Then Dasa lord, another planets' Bhukthi and Dasa lord anthra or Bhukthi lord anthra. Thus you can have permutation and combination.

In the map of Heavens erected according to Krishnamurti padhdhati there are 249 subs and so 249 combinations. Of these certain positions in the Zodiac are ruled by the same group of

For example we have,

Mars Sign; Venus Star, Venus Sub 13°-20'to 15°-33'-20"

Venus Sign, Mars Star, Venus Sub 182M0'to 184°-53'-20"

These two points are ruled by Mars and Venus.

Mars Sign, Venus star, Sun Sub 15°-33'-20"to 16°-13'-20"

Sun sign, Venus Star, Mars Sub 137°-20'to 138°-6'AO'.

Venus Sign, MarsStar, Sun Sub 184°-53'-20"to 185°-33'.20".

These three points are governed by the same group of planets.

Venus Sign, Jupiter Star, Moon Sub 209°-26'-40" to 210°, Jupiter

Sign, Venus Star, Moon Sub 256M3'20" to 257°-20" only two.

Saturn Sign, Mars Star, Mercury Sub 300° to 301°-53'-20" in Kumba; Mars Sign, Saturn Star, Mercury Sub 215°-26'-40" to 217°-20' - Vrishika; Mars Sign, Mercury Star, Saturn Sub 237°-53'20" to 240° Vrishika; Mercury Sign, Mars Star, Saturn Sub 177°-53'-20" to 180°. Thus there are four different points for the group of Mars, Saturn and Mercury.

Therefore when A dasa B Bhukthi C Anthra operates, that part of the Zodiac governed by these three will be transited by them, or luminaries and Lagna. For example if it is Venus dasa, Mars Bhukthi, Venus anthra, then the position to be transited will be Mars, Venus, Venus, or Venus, Mars, Venus. If Mars dasa, Kethu Bhukthi, Kethu anthra operates, then 0° to 0°46'40" may be transited; or Kethu Star, Mars Sub, Kethu sub-sub or Kethu Star, Kethu Sub, Mars Sub-sub will be transited by Mars, Kethu; or Sun, Moon and on that day, the moment when the ascendant which rises in the East for the locality in which the native, then, is so that the sign lord, star lord, and sub lord agree. One should not always calculate the ascendant for the place of birth unless the native is permanent in his birth place.

In the case of Rahu and Kethu, the planet with which they are conjoined, or the lord of the constellation in which Rahu and Kethu were at the time of birth or the lord of the sign can give the result in their Star or Sub: also the lord of the day will be ruled by any one of the above in the order given. Suppose Rahu is in Aquarius conjoined with Jupiter; and in Dhanishta Star. Then Thursday ruled by Jupiter; or if no conjunction Mars by Tuesday. If Saturn is stronger than Mars, then Saturn can give the result on Saturday. Whenever Rahu rules the dasa or Bhukthi; the matter will materialise during Rahu-Kalam followed in Tamil Nadu. This also will agree.

Table for 249 subs is furnished below, Lord of the sign, Star and Sub are also given. If one runs Venus dasa, Moon Bhukthi, Mercury anthra, refer Venus Sign, Moon star, Mercury Sub: Moon Sign, Mercury Star, Venus sub: Mercury Sign, Moon Star, Venus sub.

So also if one runs the conjoined period of Merc., Rahu, Jupiter, refer Mercury sign, Rahu star, Jupiter sub; note also Jupiter sign, Mercury star, Rahu Sub. If one runs conjoined period of Sun, Venus, Mercury, then Sun sign, Venus star, Mercury Sub, Venus sign, Sun star, Mercury sub, and Mercury sign, Sun Star, Venus sub are the three sensitive and fruitful positions which will be transited by Ascendant, Luminaries and the planets ruling the dasa, bhukthi and anthra.

TRANSIT RESULTS

(LECTURE AT CALCUTTA)

Today the subject chosen is Transit and its Results. This is one of the methods to find out what a person can expect due to the movement of the planets in various signs as days pass on. General predictions offered in dailies, weeklies and monthlies are based on either of the two systems Hindu or Western.

Hindus take the position of Moon in Nirayana chart at the time of the birth of a person whereas Westerners take the position of Sun at one's birth time. Hindus find out in which sign a planet transits and how many signs away it is, when counted from the

Sign occupied by Moon. They do not take into consideration whether Moon is in the 1st degree or in the middle or in the end of the sign; so also a planet transiting in a sign may be in the beginning or in the middle or in the end. The actual longitudinal distance is never calculated and included for prediction. Suppose Moon is in the first degree of the sign Mesha and if a planet is in the beginning or in the middle or in the end in Rishaba it is always said to be in the 2nd sign to Moon sign and hence in 2 to Moon.

The longitudinal distance will range between 30° and 60° . If Moon were to be over 29° in Aries and a planet just leaves Aries and enters into Taurus it is said to be in the second sign till it leaves Taurus. Therefore the longitudinal distance between the two will be 1° to 30° . Does it sound alright to call a planet in 2 to Moon when the longitudinal distance varies between 1° and 60° . When the distance is only 1° are they not in conjunction? Only in the map we draw for a horoscope, we draw lines to separate each sign. In the heavens is there any partition wall? Will not both the planets appear very close to each other? If the declination is the same then Moon alone can be seen and the planet will be hidden. When actually a planet is in rapt conjunction to say that it is in the second house to Moon and also to call a planet in 29° Aries, when Moon is in the first degree of Aries, as conjoined with Moon in Janma Rasi, does not appeal alright.

Secondly, if a person has a horoscope let him take it. Note the lagna. On that day there were some births. Suppose Moon on that day was in Cancer. Then, think awhile. Does the position of Moon to all the births on that day denote the same result to all. Or whom does Moon indicate? For Aries lagna born, Moon is lord of 4 in 4; So it denotes mother; to Taurus - born it indicates younger brother and sister, to Cancer lagna born, the person himself; to Virgo born, elder brothers, sisters, friends, younger paternal uncle, son-in-law, daughter-in-law etc., to Scorpio born, Moon denotes father; to Capricorn borns Moon indicates wife; to Pisces borns, children, etc., When such is the case, if the

position of transiting planets is favourable will the person enjoy or such a relative as is indicated by Moon according to one's lagna enjoy? which appeals to us? Which comes correct. Therefore how to judge, is to be solved.

Sun is taken by Westerners. Similarly judge whom Sun indicates. Suppose Sun is in Leo. to Aries borns Sun indicates children; to Taurus - borns mother; To Gemini - borns younger brother, etc., Therefore good aspects to Sun will bestow desirable results to such a relative as is shown by Sun by occupation and ownership and predictions offered taking the position of sun, excluding lagna is also not correct.

But when one has no horoscope, then to offer some mental solace, there should be some base, some method. So Hindus take Moon; Westerners take Sun, That is why the general predictions which are published taking either of the luminaries have to fail and they fail in majority cases. Not knowing the truth one may attribute the difference to one's will. As lagna indicates one's health, longevity success or failure etc., one must take only the lagna, then the position of all planets and the 12 cusps.

Requisites: Place of birth, actual time of birth, date etc., Krishman's Ephemeris for the year of birth and Table of Houses. Erect the chart using these. Deduct Krishnamurti Ayanamsa for that year. Mark all the twelve cusps; also all the planets and fortuna.

Next write down First house; Second House; Third house and so on till Twelfth house, one below the other.

Always take that a house extends from that cusp to the next cusp (exact degree and minute). Do not mix up - Note down in which house each planet is.

Then, re-assort (re-classify). Note in which house Kethu was at the time of birth; which matters will be signified by that house; also

consider which other house Kethu can represent; include the matters of that house also.

Kethu Governs Aswini, Makam and Moolam. Therefore in the areas 0° to $13^{\circ}20'$, 120° to $133^{\circ}-20'$ and 240° to $253^{\circ}20'$ note down the matters signified by the house which Kethu is to represent.

Take Venus. Note down which house it occupies and also which cusps are found in Taurus and Libra so that Venus becomes the lord of those houses. Hence the matters denoted by the houses occupied and owned by Venus will be the nature of result which the 2nd, 11th and 20th stars i.e. $13^{\circ}20'$ to $26^{\circ}40'$; $133^{\circ}20'$ to $146^{\circ}40'$ and $253^{\circ}20'$ to $266^{\circ}40'$ indicates

Sun governs Karthik, Uthrapalguni and Uthrashada, the 3rd, 12th and 21st stars. Whatever sun denotes by occupation and ownership will be the results indicated by these stars, similarly note for all planets including Rahu and Kethu who rule the stars 6, 15, and 24 and 1, 10 and 19 respectively.

Thus you will find that all the 360° of the zodiac, divided into 27 constellations; denote 9 groups of results, each repeating thrice.

Whenever a planet transits, it will be in any of the 27 constellations. Whatever the lord of the constellation, according to its occupation and ownership denote, will be given by the planet transiting in any of the three constellations ruled by that planet. The source is shown by the transiting planet according to its nature, occupation and ownership.

Suppose there are 27 rooms with nine different varieties of provisions.

Those varieties which is stored in room 1, is also stored in room 10 and room 19 ; say paddy - rice.

Suppose wheat is stored in room 2, it is also found in room 11 and 20.

If sugar is stored in room 39 it is also stocked in room 12 and 24.

Kerosene if stocked in room 4, it is also kept in room 13 and 22.

Also suppose there are 9 salesman. That salesman in room 1 or 10 or 19 can give only rice or paddy; in room 2 or 11 or 20 can give only wheat; in room 3 or 12 or 21 can give only sugar; in room 4 or 13 or 22 can supply kerosene and so on. If there are 2 or 3 people in the same room, all will give me same, so, the quality and the nature of the provision which is to be distributed remains the same for each room; salesmen may be A or B or C; Sun or Moon or Mars or Mercury and so on. But yet what they can give depends on the material stored in that room, "Who supplies", if that question arises, then the stuff is given by that person who is in that room. Therefore how one gets; through whom one gets i.e., the source is shown by the person in the room i.e., the planet transiting. The planet indicates the source by its occupation and ownership of houses.

Suppose a planet, say Sun, is in Uthraphalguni 1st quarter at 27° Leo and it is in the 11th house to Libra born. Sun is lord of 11; it is in 11. It is in the constellation of lord of 11. Hence it promises profit; success; realisation of ambition, etc., Sun governs Karthik, Uthraphalguni and Uthrashada. The constellation may be in 7 or 8 or 11 or 12 or 3 or 4th Bhava : In whichever Bhava it is, planets transiting in any one of these three stars must produce most advantageous and agreeable results.

But suppose Jupiter transits in any of these 3 stars. Jupiter is in 3. Then Jupiter as lord of 3 in 3 and as lord 6 shows that through the matters indicated by the houses 3 and 6, he gains; through younger brother; by making short journey; by editing, publicity etc., or through maternal uncle etc., he may gain. It is also indicated that he may recover from the disease, feel healthy and make friendship with one who attended on him. 6th house, disease, that is the cause: 3rd house acquaintance and both 3 and 6 show assistants and attendants. 11th house indicates friendship.

Therefore it must be clearly understood that every point in the Zodiac is governed by a planet, depending on the constellation in which that point has fallen.

Next, one should note the beneficial and adverse planets to oneself. By beneficial it is meant that planet which can fulfill his desire. Suppose one wants to go overseas, then the significators of the houses 3, 9 and 12 are beneficial; suppose one wants to commit suicide, then the signifier of the 8th house is beneficial to him then. Suppose one wants scholarship for studies then significators of the houses 4, 6, 9 and 11 are good.

If one wants to marry, significators of 2, 7 and 11; if he wants a divorce then the significators of the houses 6, 12, 10. 8 will finalise the divorce.

Next we have to remember that when the constellation is ruled by the signifier of the second house and if it is the ruling planet of the partner in business, the native gains money but the partner faces difficulties as the second house is the 8th to the 7th. But if the signifier of the 2nd house is the ruling planet of wife, she experiences difficulties, in spite of husband's gains. Children get promoted as the second house is the 10th to the 5th; mother makes good profit as it is the 11th house to the 4th; younger brother loses, or changes job or he is hospitalised or cheated, father falls ill and incurs debt and so on. Thus it can be seen that the person may gain, earn etc., whereas different results will be enjoyed by different relatives. If a pin pricks in any part of your body, it pains in that area you feel it. Similarly close kith and kin, if they suffer, one will be worried, though personally one can have some small fortune in one's efforts. Prediction will be incomplete, if all are not systematically taken, carefully judged and presented in an orderly manner. (For example planet denoting 10th house matter may give promotion to the native but his son may be seriously ill and father pass away.)

Finally one should consider the sub. What is it? It is one of the nine sub divisions of the constellation, in the proportion in which they are allotted the number of years in Vimshottari Udu Dasa system. Each sub has its own lord. Hence the constellation, as the whole, has one lord who takes the first division sub in that star. Then in the cyclic order followed in Udu Dasa system, the other subs and sub lords are noted.

Some planets are favourable to the native and some are evil. Therefore the subs ruled by beneficial ones will be fruitful whereas the subs of malefics to that horoscope and matter will be disadvantageous.

The lord of the constellation has to indicate certain matters due to occupation and ownership. Whichever planet transits, it brings to light these matters. Whether they materialise and be advantageous or they fall through and disappoint the person is judged from the sub.

Suppose Jupiter transits in the constellation of Mercury (lord of 2 and 11 occupying lord of lagna constellation in 2). When Jupiter passes through Mercury star Mercury sub, an advertisement is made and many horoscopes are received; astrologer is consulted. When Jupiter moves in Kethu sub, for 4 days the girl does not keep normal health. When Jupiter moves in Venus sub (3 and 10), some boys come and see the girl. Hopes keep them cheerful. During the time When Jupiter transits in Sun sub, gold ornaments are purchased for the girl. Jupiter in Moon's sub, brings the negotiation nearer. During Mars sub period, one belonging to the same place and coming from a stranger's family fixes the marriage. During the time when Jupiter transits in Rahu sub, purchases for the wedding and arrangements go on. When it transits in the sub of Jupiter which was in Gemini in 11, marriage is celebrated. When Saturn sub is entered by Jupiter, the boy takes leave from the girl, goes alone back, saying that he will find some accommodation and take her. Thus all the matters refer to her marriage. But each sub

shows the different stage in the matter. Unless one calculates and notes down the periods when a planet enter into a constellation and then it moves from one sub to the other, detailed prediction to the day cannot be predicted. This is the only convincing method which can give clear indications offering results without missing any point.

If one wants to satisfy himself, let him do the following test. Or if one would like to know when his aim will be achieved, let him carry out the experiments as follows. It will prove to be 100% correct. This will assure you that what Mr. Morarjibhai told is correct. "Horoscope shows only the tendency and it is not a certainty. Only Brahma can predict with certainty" is said by some. I disagree. Mr. Morarjibhai says that he believes that the law of Karma governs the universe and therefore he believes in astrology. If a horoscope only shows a tendency and if one can change the event by one's will, then astrology has no place. If one predicts that a person will not die at a particular age, but he uses his will and tries to commit suicide and die, he can never die. I had already published that a fellow tried to commit suicide by hanging, drowning, over drugging, shooting etc., But he could not die. He did not die then.

Everybody has the desire and will to live for some more years. He exercises his will, he prays, puts on Gems etc., he dies at the moment correctly fixed by the astrologer according to the horoscope erected for the moment of birth which completely depends on his previous Karma. Just like one has no choice about his birth time, place and his parents, so also there is nothing left in one's hands. Everything is predestined. None can change it. Then only one can predict using this science.

A few examples are given to prove that correct predictions offered cannot be changed.

(1) I predicted to a teacher in Poona that he would have a child born after 5 months. On the day of query, his wife was admitted in the hospital for profuse bleeding in the 4th month of the pregnancy. Doctors declared that she would abort. They also assisted. Yet, in a few days bleeding stopped. She gave birth to a child and all are alive.

(2) One brilliant student who had been scoring very good marks and coming out successful with distinction was predicted that he could not have a pass that year. Actually, he did not sit for the the last 3 papers, as he fell ill and he had to sit for another examination next year.

(3) A boy related to one of the Directors of Simpson group was predicted in April 1956 that he should be an engineer from 1961 and since he must study for at least 5 years to complete the course, he must be admitted in the Engineering College. In July 1956 he had no admission. He joined Arts College. But in September, a vacancy fell and only this boy was selected, and admitted. He passed in 1961 and from then he is an Engineer.

(4) Please refer the letter written by a high official at Delhi, Dr. Tiware, in May issue. How his son was admitted in medical college after November, 1969 as predicted by me though college was opened in July and admission was over by July.

(5) If one follows stellar astrology, with sub and Krishnamurti Ayanamsa, one can predict when one can have his desires fulfilled; A girl was running Mars Dasa Kethu Bhukthi. A bridegroom and his parents wrote that they would see the bride (for marriage purposes) on a Sunday when the star was Uthrapathrapada. I told them that they might not keep up the word and your daughter would be seen only on Aswini star day. The bridegroom was a A.R.W.I. On Saturday he had an interview for promotion at Bombay. The interview went on and in the meanwhile the train steamed off. Later he was able to arrive at

Delhi only on Aswini star day and see her as predicted. She is the daughter of Dy. Director of Estates.

(6) Mr.K.Ganapathy predicted to the father of a young boy who had made all arrangements to send his son to Germany, that the boy would be hospitalised for months and could not go as per programme. The father did not tell anybody. But actually, the boy vomited blood in the next week. He was admitted in the hospital and was treated for 3 months. That year he did not go. He went only on the date predicted by Mr. K. Ganapathy. The boy is now in Madras. He is the Sound Engineer in a Cinema studio.

(7) A person wanted to give his daughter to an **I.A.S.** officer. He had no mind to give to an air pilot officer. In spite of his will, efforts and determination, his daughter married only the air pilot officer who is now in Delhi.

(8) A sub officer in All India Radio was predicted that he would leave this and take up Air-Piloting. He is now at Hyderabad as Air Pilot Officer. An advocate was informed that he would give it up and take up Cinema line. A professor was told that he would leave the job and take up business - of supplying fish. It had come true. Thus one can find that our life is like the taxi-driver who does not know where he will be driving his car that day. He has to drive as the passenger at the back seat dictates. The route he has to take, the number of minutes he has to halt etc., are entirely left to the passenger who is the God-governing Destiny. Volumes can be written to prove that none can dodge the fate. It has its own course. As this is true, astrologers who can predict with confidence, say exactly, precisely and correctly without mentioning "Tendency, likely, 50-50. and so on."

Traditional astrologer did predict as follows. A child is born or a company is started or a ministry is formed. Cast a horoscope and predict - what? The child will die. Or the company will be closed or the ministry will come to an end. Everybody knows

that when a child is born, it should die one day or other. If a ministry is formed, it also will end one day or other in a year or two or twenty and so on. Therefore people want when such an end will come. If one says "The combinations indicate change of leadership due to much of confusion and the health of the political leader. Is it a prediction? When will the health fail? In 1967 or 1968 or 1969 or when? When will there be the internal trouble? When will the change come? This alone is wanted. This is to be predicted by the astrologer. Even a layman will say that this will not last long. Some may fall ill. they may disagree, they may fight with each other, etc., Is it a prediction? It will be useful if such astrologers give the month when such will happen. If he predicts correctly, nothing in the world can change the result.

Useful Guide

Coming to the point, suppose one just enters into Venus Dasa. It is to run for 20 years. In which sub period one can have larger profits; in which sub period, the business will be dull; will there be a partition etc., then let him strictly observe and record the results as is advised below :

(1) Venus Dasa is on : Its stars are Bharani, Poorvaphalguni and Poorvashada. Note from the Ephemeris when Moon enters into Bharani, Poorvaphalguni and Poorvashada. Note the time when it enters, when it leaves and the date. Note down for 6 months. There will only 19 occasions.

(2) Divide the duration of each star and note when the first sub belonging to Venus ends i.e., 20/120 of the total duration [Suppose, a child is born this time, we will say that the child will have Sukra Dasa, Sukra Bhukthi at the time of birth]. The moment 20/120 of the total duration is over then Sun's sub will be on for an interval of 6/120 of the total duration then Moon's sub will follow for 10/120 of the duration; Mars sub will be for 7/120 of the duration and so on.

Some subs will pass away while asleep; ignore. But consider such subs on another day when you are busy. In these 19 occasions, at least on 6 occasions the subs will be during day time.

If during a particular sub, in any of the 3 stars Bharani, Poorvaphalguni and Poorvashada, you note good sales and profit, you will note that invariably it is ever good. It means in Venus Dasa, the sub period of that planet is profitable.

If during the hours, when Moon transits in Venus star and a particular sub, there is not much sales in those hours, then in Venus Dasa, the Bhukthi of this sub lord will not be helpful, in its Bhukthi, the business will be dull. Thus against each sub, note the results.

They will ever prove to be true. This has been tested and found to be correct by hundreds of the members of the Modern Astrological Research Institute in between 1951 and 1961,

I carried out such experiments while playing cards and while betting in the races. Venus is a strong benefic to me and the sub Rahu is advantageous. So invariably I gain on Venus star days and Rahu sub i.e., during other subs (when Moon transits in other subs). I do not gain. So I play only during the hours when Moon transits in Rahu sub, either in races or in playing cards.

I had been considering that the whole star day will be good. But my friend who consulted me whether he would gain on a particular day, I said that the significator of his Lobhasthana is on; so he will win on that day. Actually he lost Rs.90 in the games. When he came home, he understood that his friend who took Rs.6,000/- without even a promissory note, 5 years ago, returned the full amount, handed over to his wife and rushed to his place, as he was on his way from Singapore to Coimbatore. Then, I began to consider and work the sub. I applied to the races. I found, how I won the second and fifth races, whereas I lost in others; or I won the first two races and lost the other ones; or I lost in the beginning and gained on the last.

This sub alone answered. No doubt; no mistake. Those who want to test, I request them to do. Never you will fail. Follow Krishnamurti Ayanamsa and work out the interval for each sub. Forget other ayanamsas.

(a) Suppose one wants to meet an officer, let him select such a star day and in that the most benevolent planets sub. Work out when Moon enters this sub and leaves. In those hours, find out when the lagna will be in such a combination.

The sub may be between 2-30 p.m and 4-33 p.m. In these two hours select those minutes when the lagna falls in that degree which is ruled by the star lord and sub lord. These minutes will be lucky.

It is really fortunate. As there was no single occasion of failure, one can boldly declare and select the moment. This proves that one cannot change fate and things happen according to the timing indicated by the planet and not desired by the person. Lucky act at good time. Unlucky will transact during unlucky time even if astrologer gives lucky time.

A Silk merchant at konjeevaram told me that a big marriage party phoned him that they would visit his shop at about 9 a.m. and that they should return by 12 Noon. He kept the shop open. I went with an advocate Mr.Kasthuri Rangan to konjeevaram on that day in the morning to visit the temple. On Punarvasu day, the silk merchant being a friend to us we stayed with him. At about 11 a.m. the silk merchant asked me, " I am expecting a rich client who will buy for thousands at one stroke. He told that he would come by 9 a.m. and that he should return by 12 Noon. He has not come .-What do you think?" I looked at the horoscope of the merchant. He was running Jupiter Dasa Venus Bhukthi. The star day was Punarvasu. I worked out the sub. Till 12-40 p.m. Kethu sub on. Venus starts after 12-40p.m. and runs up to 5p.m. So I told him that he can expect them only after 12-40. He must gain on that day. But it is not before 12 Noon. But only

after 3 p.m. when Jupiter star Venus sub and Jupiter sub operates. Actually they came at 1 p.m. and transaction was over by 3 p.m. when they paid cash. Thus one can note which hour is good on a day, and from such minor events, find out which subs are good and which subs are bad.

Thus noting down the results, apply the same to dasa bhukthi system. Also whenever any planet transits through those subs, good or bad as indicated by the subs, must happen through the source indicated by the nature, occupation and ownership of the planet transiting.

Those who do not want to understand and apply, those who want to simply pass destructive criticism, those who do not strictly follow my instructions (using Raphael Ephemeris, his table of houses, New comb or my ayanamsa) may say anything. Ignore their remarks. But truth-seekers will apply - just like my students do, and congratulate for a very simple method to serve as an index for major events in one's life.

Suppose one wants to know whether Saturn and Jupiter can do good or bad to oneself during their transit in Mercury's star Ashlesha or Jyesta, note when Moon transits in these stars. Work out the sub. Record what happened during the hours when Moon was in a sub. If they are encouraging and advantageous when Moon is in a particular sub, be sure that whenever Jupiter and Saturn transit those subs you will have beneficial results. But when Moon transits in a sub and you face some problems in those hours, be sure that during the time Saturn and Jupiter transit those subs, you must face difficulties. It is a certainty. Source depends on the transiting planet.

For example a person born in Capricorn, if he has favourable Mercury and Rahu, he must have good fortune through younger brother or by editing or by the receipt of a cheque when Jupiter transits in Mercury star Rahu sub, i.e., around 9-8-67. Sun also will transit. Hence 9-8-1967 must be lucky. I shall inform the readers

what happens on that day to him. Jupiter will be in that sub for 12 days. But I pitched up on 9-8-67. As Sun conjoins Jupiter and both are in Mercury star Rahu sub. (It came true - it was surprising to traditional astrologer).

If on 9-8-67 he receives a cheque for a good amount or he enjoys his life by fulfilling a desire or comes out successful in his efforts which is long pending, again he can expect such an advantage when Saturn in 1968 passes Mercury star, Rahu sub through the source indicated by Saturn (This also came correct). Similar observations in 1969 and 70 came as expected.

Such a calculation alone proves that Astrology is a science which is in an incomplete stage now, and everything is under divine plan as is shown by planets and not in the hands of anybody. If the rule is the same and applying it, you get the same results, then it is a science. Free will is free from fate. Will, will not change the course of Divine Plan. It is the attachment to self- importance and egoism one may say that one can modify the results by one's will and a few take shelter under it saying that Astrology shows only the tendency : it is not a certainty. To me it appears that it is more for an excuse. To day, I conclude by saying that Astrology is a science. It needs further research and confirmation. There is no use for the word "Likely". Everything is a certainty. If you follow transit system also, one can pitch up the time and know the events to one's advantage. Summing up, let me say how to judge the results by transit system.

(1) Erect a horoscope as is advised by me. (Do not cast in any other manner and then find that you are nowhere.)

(2) Note the arc of each Bhava where it commences and where it ends.

(3) Note in which house each planet is posited.

(4) Find out which matters are signified by each planet - Sun, Moon. Kethu

(5) Note which three stars are ruled by each planet. In their areas, write the matters signified by the lord of the constellation.

(6) Note, for each matter in your life, which are the signifiers and which contributes for the fulfilment of those matters and which are detrimental, delaying, adverse and disappointing.

(7) Then in those constellations, mark the favourable sub and the unfavourable ones.

Now you have the whole Zodiac divided into 249 subs, 27 constellations.

Three constellations belonging to the same planet denote certain matters in your life. Certain matters about your kith and kin. The subs in those constellations promise whether the matter will materialise or not and how it would be to the relatives.

(8) A planet transiting in a constellation brings to light those matters shown by the lord of the Constellation due to its occupation and ownership. The period when the planet moves from one sub to the other gives clearly the time when the same result shown by the lord of the Constellation undergoes various stages.

If the lord of the Constellation denotes 'service' and a planet moves in that constellation, various stages in the matter of appointment progresses depending on the lord of the sub. When the planet is in the first sub, the applicant may be interviewed and entertain hopes. The next sub may be ruled by a signifier adverse to self acquisition. So, in this period he gets discouraging news. The planet moves to the next sub. He makes another attempt in another place. The sub lord being Mars, which is very advantageous to him, he is interviewed and during the interview itself he is informed that he is appointed and that he may join duty after 3 weeks when one retires. So he returns home happily. The next sub belonging to Rahu shows idling (wasting) away one's time

but enjoy peace of mind. During the time when the planet enters and moves in Jupiter sub he joins duty. Thus, the significators shows that its constellation when transited by a planet brings out the results and the various stages are well explained by the sub lord. Suppose one runs Jupiter Dasa Mercury Bhukthi Sun anthra then the areas which must be transited by the lagna (to note the minute of taking charge), by Moon or Sun and the signifier will be,

- (a) Jupiter sign Mercury star Sun sub $351^{\circ} 33' 20''$ to $352^{\circ} 13' 20''$ or
- (b) Mercury sign Jupiter star Sun sub, $88^{\circ} 46' 40''$ to $89^{\circ} 26' 40''$ or
- (c) Jupiter's star Mercury sub or
- (d) Mercury star Jupiter sub.

One knows that Jupiter Dasa Mercury Bhukthi Sun Anthra runs for 1 month and 10.8 days. So in those 44.8 days, Mercury and Sun can be in any of the above 4 sensitive points. It will be there. It must be there. So find out the day and the date. This is what is discovered by me and found to be very true by many students till 1971.

To carry out such experiments, you must use Krishnamurti Ayanamsa. If you use any other Ayanamsa, Dasa Bhukthi will change. The dates of transit in a particular sub also will change. By using any other Ayanamsa and house division, do not make attempt to use this method. If you follow strictly what I say, you will find that this system introduced by me is marvelous, and correct and this proves that my Ayanamsa is to be followed. For any other Ayanamsa, stellar astrology will not come correct.

LECTURE ON THE CONSTELLATION AND SUB THEORY

Friends,

All of you who have gathered here are, no doubt, my students since long number of years and also those who are very highly qualified and supremely intelligent, so as to quickly grasp, apply and with open mind appreciate the role of the Sub, When you all ask me to speak on this subject especially to know how it struck me, I would like to tell you my early part of life when this method came to my mind.

In 1939, I found that the Constellation Theory is correct where as the predictions offered taking the sign and the house alone failed miserably; brought ridicule to Traditional Astrology.

One of the horoscope which clearly indicated the above is as follows:

Rahu		Jupiter	
	9-9-1893 8-53A.M. 13-04 N 80-15 E Kethu Dasa Balance 1 year 3 month 7 days		
			Moon, Merc, Mars, Sun.
		Asc.	Saturn Kethu Venus

Horoscope

PLANET	CONSTELLATION LORD
--------	--------------------

Sun	Venus
Moon	Kethu
Mars	Venus
Mercury	Venus
Jupiter	Sun
Venus	Mars
Saturn	Moon
Rahu	Mercury
Kethu	Mars

His father died in 1917 January, leaving behind good business and decent property acquired during Kethu and Venus dasa.

But the native lost everything during his Sun, Moon and Mars Dasa. During Rahu Dasa, just before leaving India he consulted me whether he could prosper at least in Rahu Dasa. I encouraged him. He went at the end of June 1939. Thereafter I don't know what happened to him and to his family.

My finding was that Kethu and Venus were in the Constellation of planet in 11. So they gave gains, even though they were in 12 threatening loss as per the misleading traditional method.

Sun, Moon were in the Constellation of planets in 12. So, they gave loss. Constellation or Stellar System is correct; so useful.

I am sure he would have prospered during Rahu dasa till the end of his life in Rahu dasa as Rahu was in the Constellation of Mercury in 11. (Though Bhadrakasthana to Libra Lagna born.)

Similarly, I verified series of charts, noted down their results, did postmortem and discovered Krishnamurti Padhdhati by sub-dividing the Constellation into Subs, as I could fix an event within a range of 13 days, instead of exact date. There was also another handicap.

If one runs Mars dasa Kethu Bhukthi, I used to predict that a matter will materialise between 13th April and 26th April as in that fortnight Sun will pass in Nirayana Mesha owned by Mars and Kethu Star Aswini.

If it were to be Sun dasa Kethu Bhukthi, I predicted in the second fortnight of August as Sun would be in Sun sign, Kethu star Makam. If it were to be Jupiter dasa Kethu Bhukthi; then the matter will materialise in the second fortnight of December as Sun would be in Jupiter Sign Kethu star.

But for Kethu Bhukties in other dasas, I could not give, even this range.

If one had been running Mars dasa Venus Bhukthi, I pitched up the days when Sun was transiting in Mars Sign, Venus Star; (Aries) or Venus sign (Libra) Mars star. Thus when I proceeded,

I found that in Mars sign, there is no Moon, Rahu, Mars Stars; in Venus Sign, no Saturn, Mercury Kethu Venus Stars. Hence to dasas, many Bhukties had no constellation.

Then it struck me that as long as Stellar theory is correct, instead of taking Sign, take the Star to represent dasa, and the sub to indicate Bhukthi. Now every period and subperiod has 3 positions in the Zodiac at a distance of 120° from one another.

When I had been doing research on the Constellation Theory, first I thought that if a person were to gain during the period of a particular planet then the day ruled by it, three Constellations governed by it, the signs owned by it must prove to be favourable, and also advantageous. So I started to note whether the above will come true. Prior to 1932, I had gains during the conjoined periods of Venus, and Rahu, even though the Dasa lord was favourable or not. Even when A Dasa B Bhukthi was operating the combination of Venus and Rahu Anthras and Sookshmas prove to be good. So I thought I could note down in my diary for one full year all the Fridays and also the days when Moon was transiting either in Venus star or in Rahu star. On those days

only (played cards and before 1939, I have found that during some such days I gained and during some such days I lost. No doubt those days were either Friday or Wednesday indicated by Rahu in my horoscope (Rahu was in Gemini) or I played on Bharani, Poorvaphalguni or Poorvashada star days or during Arudhra, Swathi and Satabhisha star days. Swathi proved to be much better than any. I thought it would be due to Rahu Star in Venus sign.

in 1939 I came to the conclusion that whenever I played the cards on the star days governed by Venus when Moon was in the 2nd pada, I was coming out successful. In Rahu's stars days when Moon was in the 3rd pada I had won. Then it came to my mind why I should not divide a Constellation into 9 Subs. I thought a child born on a day when Arudhra is transited by Moon then if the time of the birth were to be within four hours from the commencement of Moon's entry into Arudhra the child will be having Rahu Dasa, Rahu Bhukthi at the time of the birth. Then for a few hours when Moon is further Progressing in that star the sub is ruled by Guru. Next few hours Moon will be in Saturn sub i.e., a child born at this position in that Constellation will have Rahu Dasa Saturn Bhukthi at the time of the birth; A few hours later if the child is born it will have Rahu Dasa, Mercury Bhukthi at the moment of the birth. Thus on an average, the 24 hours duration of Arudhra star sub divided among the 9 planets commencing from Rahu in the cyclic order of Vimshottari Dasa. There after from 1939. I thought in Rahu star days the sub of Venus will be auspicious and similarly in Venus stars days sub of Rahu will be for victory. This I wanted to test and within three months I found that my finding was very correct. Every day I had been winning. So I had instructed one of my children as follows:-

If supposing I expect that I would win between 6 and 8-30 PM., I used to ask one to come to the club where I used to play and simply call me saying that somebody has come for consultation. I go to the Club some 10 minutes earlier so that to

start with I go on losing. Then when exactly Moon enters into Rahu Sub I start winning. When I know that I would lose, as per instruction any of my children will come and call me in the last 2, 3 minutes. As soon as I was called I purposely began to lose so that in the beginning and in the end I lose for a few minutes whereas for hours I win. Later I went to races simply to note how far it works and there also I found that I lost during the time when other Subs operated whereas invariably, I had been gaining whenever I bet when the time was auspicious as Moon would be transiting in either Rahu Sub or Venus Sub. In playing cards since it is very frequent I could not further develop my knowledge but in the races I further found that it is not enough if one bets and gains during the beneficial star day and in the favourable Sub. Even though the ultimate result is gain, yet we lost in a few, we gained in a few. Why? Then I found that even though the Sub period runs for 4 hours unless the Ascendant rising in the East also transits in such a favourable Constellation or sub at the time when the horse passes the winning post; even in such a period there was failure. Therefore, one must note down which group of planets will offer success and victory over enemies or gaining in races or winning in competition. Then one should also select the position in the Zodiac governed by such group of planets. Whichever planet transits those point, then success is assured. Prediction comes out correct. Thus I did research till 1951 when I started a Astrological Research Institute. In a few months, during my lecture. I narrated the above and coached them up in this method. (Thereafter they never came to me to play cards). This is the way how I found out the use of the Sub and thereafter developed it.

TRANSIT OF ASCENDANT AND RULING PLANETS

Today 20-9-67 is Wednesday governed by Mercury. Moon transits at 353°-34' in Mercury star Revathi in Meena rasi owned by Jupiter. Time is 6 p.m. Lagna Is in Pisces, Lord of which is Jupiter. Therefore, Jupiter, Mercury and Rahu rule this moment.

Place: - Bharatiya Vidya Bhavan, Curzon Road, New Delhi.
Peon enters the room; he announces "Sir, from this afternoon, there is no fan, light; electricity failed".

One student gets up. Another writes in a slip. The third asks "Sir, now we have Sunlight before it gets dark, please predict, when the electric light will come? If not, shall we go home".

Another says, "Sir, if you ask us to wait, we all will wait. But, let us know the time when it will come".

The ruling planets are:

- (a) Lord of the star now Mercury - Revathi
- (b) Lord of the rasi - Jupiter - Pisces.
- (c) Lord of the day - Mercury - Wednesday.
- (d) Sub lord of Moon Mars; Rahu is in Mars sign, nowadays take Rahu as long as Rahu is in Aries.

Take the point ruled conjointly by the significators; Mars and Mercury offer results in the earliest opportunity).

Now, the point that rises in the East is in Pisces. As Mars and Rahu, do not have stars in Pisces, take Mercury star earliest sub belongs to Mercury. Sub - sub Rahu.

Pisces : - 330° to 360°

Revathi: - $346^{\circ}40'$ to 360°

Mercury sub : - $346^{\circ}40'$ to $348^{\circ}-33' 20''$

Rahu sub sub : $347^{\circ}43'$ to 348° .

This Nirayana position is to rise in the East. Krishnamurti Ayanamsa is $23^{\circ}-18'$. So Sayana Lagna should be Aries $11^{\circ}-1' 11^{\circ}18'$ **Aries.**

Refer to Krishman's table of Houses, Aries $11^{\circ}1'$ will rise at 18hrs. 31 mts. 7 secs, L.M.T. at Delhi $28^{\circ}-38' N$ and $77^{\circ}12' E$.

Therefore, the difference between **L.M.T.** and **i.s.T.** = 21 mts. 12 seconds.

If we add this to the figure we get 18 hrs 52mts. 19 seconds 11°-18' is over by 11 hrs. 53 mts. 20 seconds.

I predicted that it would come at 6-53 p.m. i.s.T. and it did come. Tube light will take a few seconds. We have to use common sense also.

This prediction given to the class regarding the supply of electricity at 6-53 p.m. by the Professor on Wednesday 20-9-67 at 6 p.m. came very correct to the minute. We endorse our appreciation.

A LUCKY TIME FOR PLAYING CARD

Practical Method:

Whether one has got a horoscope or not, there should be a method by which it should be possible to find out the auspicious period in a day when one can relax himself by going to a club to play cards or any other game. What he should do and furnish to the Astrologer is a diary wherein he should note down his gains and loss on various days, in the past mentioning which minute to which minute he won and which minute to which minute he lost. Also he should mention the ultimate gain or success on that day. Then the Astrologer is to adopt the following principles.

1. Take date by date. Then note down when Moon entered in to a constellation on that day and the duration of its stay, which is the interval between Moon's entry into a star and its passing on to the next star i.e. completing and just leaving this star.

2. Find out the number of hours and minutes which Moon takes to pass on in that constellation. Each constellation is of 13 degrees 20 minutes and to pass it, it may take 24 hours or 25 or even 26 hours or in 22 hours it may pass; most irregular: never uniform: ever unsteady.

3. Then divide the constellation in the proportion in which each planet is allotted the number of years in Vimshottari Dasa. Therefore, if the duration is for X hours, then Venus takes $20/120$ into X hours. Sun takes $6/120$ multiplied by X hours, Moon $10/120$ of X hours, Mars $7/120$ into the total of X hours, Jupiter $16/120$ of the X hours and so on.

4. If Moon takes, say, 24 hours to pass through a particular constellation, then divide it by 120. The number of minutes obtained will be to a planet, if it is allotted one year. So multiply these minutes (total duration divided by 120) by the number indicating the number of years allotted to a planet. For example, if Venus is allotted 20 years, then the duration is divided by 120 and multiplied by number of years allotted to Venus.

Since every hour is of 60 minutes and we divide the duration of hours by 120, it is quick to work by dividing the duration in hours by 2. That is, if 24 hours is the duration, then 12 minutes will be the time, if a planet is allotted only one year, in the vimshottari dasa. When Sun has 6 years in Vimshottari Dasa then 6×12 minutes will be the duration for transiting the Sun Sub in that star by Moon. If Moon transits in the Sub of Rahu (as for every year it takes 12 minutes) for 18 years, Moon will take 18×12 i.e. 216 minutes. If Mars Sub is to be transited by Moon, it will take 7 multiplied by 12 minutes; if it is Mercury, 17×12 minutes and so on.

5. Note, to which planet the constellation belongs. Then the first Sub is ruled by the lord of the constellation there after in cyclic order, each Sub is being transited by Moon. So from the moment when the Moon enters into a Nakshatra, Be adding the number of minutes for each planet commencing from that of the constellation lord in cyclic order.

6. Note down, from which minute to which minute a particular Sub is running in the constellation.

7. Note down, in which Sub period, the native had won and which sub he had lost. Then one will find the group of planets which offer advantageous results and the group which always work against his interest. For the future, in the diary, note down the hours and minutes in a day, when lucky group's sub will be transited by Moon. There are the hours and minutes when one can surely gain.

Horoscope:

If one has got a horoscope, then note down those planets which are the significators of 6 and 11. Only those planets not connected with 8 and 12 will give profit. If a planet is the significator of 8 and 12, reject it, as it will cause loss. Therefore, you have to erect the horoscope of the native. Note down the significators. Find out which are not connected with 8 and 12 and select those which are the significators of 6 and 11 and then work out the days when this group will conjointly be operating, i.e. when Moon will be transiting in the constellation of one of the planets, being the significator of 6 and 11 and among the sub of planet which is also the significator of 6 and 11. Then only, one can be sure of gain, even when one runs bad time.

According to Dasa Bhukthi :

In my experience I found that if the Dasa and Bhukthi is evil, then there will be obstacle for him to sit and play cards in the club during such short lucky time. There will be some disturbance. He will not be in a position to play. But the planets will create, such opportunity as to visit during the bad hours he will find it to be unlucky. Supposing one runs, according to Dasa and Bhukthi, a very good time, then he will not be allowed to play during the hours which are considered to be disadvantageous. But he will somehow sit during the hours and minutes which are ruled by the benefactors and he will surely win. This very method of working goes to prove that nobody can change fate and everything happens according to the Divine Plan

and even in these silly matters, we have no hand in it. We are helpless and our fate alone, wins the race.

Again it proves beyond doubt that Krishnamurti Ayanamsa is correct and if the ayanamsa is different, do not apply K.P

Horary New finding :

Only in the month of April, 1971 , while going on doing research it is confirmed beyond doubt that a person who wants to play Cards or bet in the Race Course should adopt the following method, whether he has a birth horoscope or not.

Note the place of judgement, provide yourselves with Table of Houses and Ephemeris'. Take any number which comes to your mind or which you see. It is preferable to have a book containing 250 pages and note that number on opening the book. If in that particular page, the page number is not printed, either you do not play or you neither lose nor gain. If you find any number please refer to Krishnamurti padhdhati Table and find out where that particular sub commences.

Take it as the starting point .That is the Ascendant. Work out the other cusps for that latitude of judgement. Note down the position of the planet at the time of judgement. Find out the sub lord of the 5th cusp.

If the sub lord of the 5th cusp is deposited in any sign in any constellation, but in the sub of the significator of the houses 6 and 11 one wins most satisfactorily . Highest reward.

If the sub lord of the 5th cusp is deposited in the sub of the significators 2 and 10, the gain is moderate.

If the sub lord of the 5th cusp is deposited in the sub of the significator of 1 and 3 there is the gain. But it will be insignificant.

If the sub lord of the 5th cusp is deposited in the sub of the significator of 12 and 5 there will be great loss and one will be necessitated, even to borrow money to run to bankruptcy. But if

the sub lord of the 5th cusp is deposited in the sub of the significator of the houses 4 and 8 one will not over trade and the loss will be moderate. If the sub lord of 5th cusp is deposited in the sub of the significator of the houses 7 and 9 the loss will be feeble - negligible.

This is the general rule which is proved to be very correct in about 95 % of the cases according to our statistics. But it is also found that one in twenty cases if the sub lord of the 5th cusp moves from one sub at the time of judgment and to the other sub at the time of playing the game, the results vary. Furthermore, research is being done and it will be announced in the magazine, after my next visit to Delhi where this is being done by a few intelligent and painstaking scholars.

LUCKY TIME FOR HORSE RACING

Example horoscope is given below

VI 29-34 Merc 23-33 Sun 16-58	VII 26-15	Venus 1-13 VIII 25-34	IX 25-34
V 29-34 Kethu 7-34			X 27-34
IV 27-34 Moon 22-28			Rahu 27-34 XI 29-34
III 25-34 Mars 22-12	Jupiter 27-03 II 25-34	Asc. 26-15 Sat. 7-47	Fortuna 1-15 XII 29-34

At the time of birth Moon Dasa balance 0 Year 7 Months 24 Days.

First of all, one should know which method, when followed, will give correct time, date, month and year of one's gains in races.

There are innumerable methods to find out the number of the horse which would win - when we read the books on races and consider the examples given by the author, the method is appealing. When we apply the same method on future races with limited knowledge we find that horse, so selected by us is either scratched or it chases the other horses. No other horse could be seen behind the one so selected: being last lost the race.

But to a good extent the previous history of the horse and its present condition are considered and experienced people guess and they come out correct only 50-50.

Certainty cannot be declared, as, such a sure horse tumble down, jockey may fall down or due to its peculiar moment in the course, it may be disqualified. Hence from experience one can't select anything as a certainty.

Mangoes are in the tree. A boy anxious to have a fruit throws stones; unless he is destined to have, he cannot. But if he is fortunate to have, then he will have that number of mangoes as he is lucky to have.

Hence, what are we to do?

(1) Can I have gains without pains.

(2) Is so, will it be through races.

(3) or lottery or what.

(4) When? Will it be only once in my lifetime or frequently. If frequently the exact timings.

Answer: (1) To gain without much effort one should have the period ruled conjointly by those planets deposited, in the constellation and in the sub of the significators of the houses (Bhavas) 2, 6 and 11.

(2) If one is to gain through races then any of those planets mentioned above should be connected with 5th house.

(3) If any of the planets deposited in the constellation and in the sub of the significators of houses 2, 6 and 11, is connected with 3rd house one gains by way of lottery.

(4) If the significators are not posited in 2 and 12 to each other, luck will repeat. But if the significators are in 2 and 12 to each other, then during the period of the planet in 12 to the other significator and the sub-period of the planet in 2 to the major lord, one will win. If the major period is governed by one in 2 to the sub-period lord, i.e. if the sub-period lord is in 12 to the major period lord, one will lose.

But if the significators occupy any other position one will win often whenever their conjoined period operates.

Yes, a period runs for months. Does it mean that in every race and on all days, one will win.

No. On the whole, in this period he will have substantial profit. But to find out in which race and on which day. One will win, one has to apply only Krishnamurti Padhdhati.

One should select the star days governed by dasa lord and in that the duration of the time when Moon will pass in the sub of the Bhukthi lord. Further to note the time when Moon will pass in the sub sub of the significators of 2, 6, and 11. Lagna at that time also must be calculated for judgement.

The procedure is follows:

1. cusps of houses and extension of each house: (Refer Horoscope)

- I. 26°-15' Libra to 25°-34' Scorpio.
 - II. 25°-34' Scorpio to 25°-34' Sagittarius.
 - III. 25°-34' Sagittarius to 27°-34' Capricorn.
 - IV. 27°-34' Capricorn to 29°-34' Aquarius. V
 - 29°-34' Aquarius to 29°-34' Pisces.
 - VI. 29°-34' Pisces to 26°15' Aries.
- 180° added gives the cusps of the other houses.

2. Which are the Planets in each house?

House	Planets
I.	none
II.	Jupiter-Mars
III.	Moon
IV	Kethu
V.	Sun, Mercury
VI.	none
VII.	Venus
VIII.	none
IX.	none
X.	Rahu
XI.	none
XII.	Saturn

3. Planets in the constellation of occupants.

- II. In Jupiter star none. In Mars star none
- III. In Moon's star Moon alone.
- IV. In Kethu star Rahu alone
- V. In Sun's star Venus: In Mercury star, Jupiter, Sun, Mercury
- VII. In Venus star Mars alone

X. In Rahu star Saturn and Kethu

XII. In Saturn star none.

Therefore Jupiter and Mars are the strongest significators of the second house. Venus Jupiter, Sun and Mercury are the significators of 5th house.

Lords of the houses and planets in their stars.

I and VIII Venus; Mars is in Venus star.

II and VII Mars; none in Mars star.

III and VI Jupiter; none in Jupiter star.

IV and V Saturn; none in Saturn star

IX and XII Merc.; Jupiter Sun and Mercury are in Merc. star.

X Moon; Moon alone is in its star.

XI Sun; Venus alone in Sun star.

Hence second house is signified by Mars, fifth by Saturn, sixth by Jupiter, eleventh by Sun and Venus. As Rahu is in Sun sign take Rahu and Saturn as well as Kethu in Rahu's star.

Moon is not connected with 2 or 5 or 6 or 11. The most important method of selecting beneficiais and rejecting the tempters is as follows:

Note in which sub, these planets are. They should be in the sub of the significators of 2, 6, and 11 alone: never 5th: 5th we take to show the mode of gains alone. It is applicable to constellation - never for sub.

Significators of 2nd, 6th and 11th houses, are Jupiter, Mars, Sun, Venus, Rahu, Saturn and Kethu.

Jupiter is in the sub of Jupiter

Mars is in the sub of Saturn

Sun is in the sub of Mercury

Venus is in the sub of Rahu

Rahu is in the sub of Kethu

Saturn is in the sub of Rahu

Kethu is in the sub of Rahu

Mercury is in the sub of Rahu

Benefics are Venus, Saturn, Kethu, Mercury and Jupiter

Adverse ones are Mars, Sun, Rahu by that, it is meant that the benefics in their star days and sub periods ruled by them alone will give gain. During Mars, Sun and Rahu sub periods, even in the major beneficial periods or star days will end in a loss.

Reject other star days.

Star days of benefics :-

Venus Bharani, Porvaphalguni and Poorvashada

Saturn Pushya, Anuradha, Uthrapadrapada.

Kethu Aswini, Maka, Moola.

Mercury - Ashlesha, Jyesta, Revathi.

Jupiter Punarvasu, Visaka, Poorvapadrapada

Dates on which races are expected to run and the stars on those days with **remarks:-**

Bangalore :

31-5-69 - Saturday. Anuradha till 6-55 RM. I.S.T.

Saturn star day. Total duration 21 hrs. 20 mts. Hence between 12.53 P.M. to 4-05 RM. Rahu sub. 405 RM. onwards; Jupiter sub only after 4-05 RM., time is lucky.

Saturn as lord of 5 gives the mind to bet. Jupiter as lord of 6, in its own sub, gives gains, (6th shows loss to competitors).

1-6-69:-Sunday: Jyesta till 4-01 RM. Later Moolam. Hence only after 4-01 RM. luck starts.

7-6-69: Saturday: Porvapidrapada till next day 3-57 A.M. Total duration 24 hours. Hence Mercury sub is upto 2-24 RM. which is to be avoided. Later Kethu sub till 3-48 RM. is good, Again Venus sub between 3-48 and 7-48 P.M is better.

8-6-69: Sunday: Uthrapadrapada from 3-57 A.M. to 4-34 A.M. on 9-6-69. So from 108 RM. Venus sub runs for 4hrs. 16 mts.. i.e. till 5-24 P.M. This is advantageous. After 5-24 P.M. sun rules. So, no good after 5-24 RM. on this day.

14-6-69: Saturday: Mrigasira from 2-29 P.M. Mars rules this star. It is in the sub of planet in 12owning the house 5. It shows that one will take venture - event follow doubling system and lose more than normal.

15-6-69: Sunday: Mrigasira till 5-18 P.M. later Arudhra. Results will be like 14th. But anything after 5-18 PM. will be governed by Rahu in the sub of Kethu. This is also not good. Better 14-609 and 150-69 are otherwise spent.

21-6-69 Saturday: Poorvaphalguni from 7-31 RM. till next day 9-28 A.M., 7-31 to 11-51 Venus sub: then 11-51 to 1-09 PM. Sun: Then 1-09 P.M. to 3-19 P.M. Moon sub: 3-19 to 4-52 PM. Mars, Later Rahu. Though Venus star is good, all these subs do not contribute.

22-6-69: Sunday: Uthra Phalguni from 9-28 A.M. to next day 10-45A.M. Only after 6-01 PM. Jupiter sub comes. Prior to that Rahu, etc., after 6-01 very good.

28-6-69: Saturday: Jyesta 5-34 A.M. to next day 2-43 A.M. So up to 1-13 PM. Sun sub. Later Moon up to 2-24. Then Mars till 3-39: Later Rahu. On the whole, not profitable.

29-6-69: Sunday: Moola Starts at 2-13 A.M. ends by 11-38 P.M.

From 2-34 P.M. Jupiter sub excellent; 5-19 PM. onwards. Saturn sub; Very profitable so. in the month of June, 29-6-69 is lucky.

Let us note dasa, bhukthi also. Saturn Dasa Mercury Bhukthi operates from 27-11 -1968.

27-11-68 to 14-4-69 Mercury Anthra.

14-4-69 to 10-06-69 Kethu Anthra.

10-6-69 to 22-11 -69 Venus Anthra.

10-6-69 to 6-7-69 Venus Shookshma.

6-7-69 to 14-7-69 Sun Shookshma.

14-7-69 to 27-7-69 Moon Shookshma.

27-7-69 to 6-8-69 Mars Shookshma.

6-8-69 to 30-8-69 Rahu Shookshma.

30-8-69 to 21 -9-69 Jupiter.

21 -9-69 to 17-10-69 Saturn.

17-10-69 to 12-11 -69 Mercury.

12-11 -69 to 22-11 -69 Kethu.

On the whole, Venus Anthra is profitable. In that 10-6-69 to 6-7-69 and then 30-8-69 to 20-11-69 are lucky sub periods. In the other periods, there will be mixed results and profit cannot be expected: Hence 29-6-69 is lucky after 10-6-69.

LUCKY TIME FOR HORSE RACING

Example II

Sir,

Is it possible to find out (a) in which day this person can have gains and (b) in which hour? A day may be beneficial ultimately: but in between there are ups and downs. Have you, in your research, found out a method which will be useful to

calculate and know which time is advantageous and lucky. If you can't reply me personally, let me request you to publish it the magazine taking a horoscope as an example one; I give my friend's chart.

The horoscope is as follows:

VII 6-53	VIII 4-51	Kethu 3-2 IX 4-51	M.C. 6-51
VII 8-51			XI 8-51 Jupiter 23-43
V 8-51 Moon 0-55			XII 8-51 Sat 16-34 Mars 19-51 Ven. 29-44
IV 6-51	III 4-51 Merc. 3-30 Rahu 3-2	Sun 13-49 II 4-51	Asc. 6-53

Sun Dasa balance 4 years 1 month and 15 days.

Now he is running Jupiter Dasa Venus Bhukthi from 27-10-66 The anthras are as follows:

Anthra	From	to
Venus	27-10-66	7-4-67
Sun	7-4-67	25-5-67
Moon	25-5-67	15-8-67
Mars	15-8-67	11-10-67
Rahu	11-10-67	5-3-68

Guru	5-3-68	13-7-68
Sani	13-7-68	15-12-68
Budha	15-12-68	1-5-69
Kethu	1-5-69	27-6-69

After 27-6-69 in Jupiter Dasa Sun Bhukthi will run.

Cusps:

I. Virgo 6.53; II. Libra 4.51; III. Scorpio 4.51; IV. Sagittarius 6.51; V. Capricorn; 8.51; VI. Aquarius 8.51.

Therefore lagna bhava extends from virgo 6°-53' to 4°-51' Libra. second house extend from Libra 4°-51' to Scorpio 4°-51'; Third house from Scorpio 4°-51' to 6°-51' Sagittarius. Fourth house extends from 6°-51' Sagittarius to 8°-51' Capricorn.

Therefore, find out in which area, these planets are posited.

- I. Bhava-none.
- II. Sun in Libra; Rahu in Scorpio and Mercury in Scorpio.
- III. None.
- IV Moon in Capricorn.
- V. None
- VI. None.
- VII. None
- VIII. Kethu in Taurus
- IX. None
- X. None.
- XI. Jupiter in Cancer.
- XII. Saturn, Mars, Venus in Leo.

Lordship: Lord of a bhava is the lord of the sign where the cusp falls. It may be in the very beginning or in the middle or in the fag end of the sign even: it does not matter in which sign major part of the Bhava is. Therefore,

Mercury is lord of 1 and 10 as Ascendant is in Virgo and M.C.in Gemini.

Venus is lord of 2 and 9 as 2nd cusp is in Libra and 9th in Taurus.

Mars is lord of 3 and 8 as 3rd cusp is in Scorpio and 8 in Aries.

Jupiter is lord of 4 and 7 as 4th cusp is in Sagittarius and 7th in Pisces.

Saturn is lord of 5 and 6 as 5th cusp is in Capricorn and 6th in Aquarius.

Moon is lord of 11th cusp, as 11th cusp is in Cancer and Moon is the owner of Cancer.

Sun is lord of 12th bhava as 12th cusp falls in Leo and Sun governs Leo.

Occupations of Planets

Second Bhava	Sun, Rahu and Mercury.
Fourth Bhava	Moon
Eighth Bhava	Kethu
Eleventh Bhava	Jupiter
Twelfth Bhava	Saturn, Mars, Venus

Second Bhava :

Sun rules Karthik, Uthraphalguni and Uthrashada, Karthik; extends from 20°46' Aries to 10° Taurus. Uthra extends from 26°-40' Leo to 10° Virgo. Uthrashada extends from 26°-40' Sagittarius to 20° Capricorn. Find out whether any planet is deposited in this area.

Kethu is in Karthik in Taurus.

Venus is in Uthraphalguni in Leo.

Moon is in Uthrashada in Capricorn.

Rahu is the lord of Arudhra, Swathi and Sathabisha; Arudhra 6°-40' Gemini to 20° Gemini; Swathi 6°-40' to 20° Libra; Sathabisha 6°-40' to 20° Aquarius. Find which planet is in this area.

Arudhra none.

Swathi Sun

Sathabisha - none.

Mercury rules Ashlesha, Jyesta and Revathi. Ashlesha extends from 16°-40' to 30° in Cancer. Jyesta extends from 16°-40' to 30° in Scorpio. Revathi extends from 16°-40' to 30° in Pisces.

Note which planet is in this area.

Jupiter is in Ashlesha.

Jyesta and Revathi unoccupied.

Therefore, planet in second Bhava are Sun, Rahu and Mercury.

Planets in the constellation of the occupants are Kethu, Venus and Moon in Sun star.

Sun is in Rahu star and Jupiter is in Mercury star. Therefore Kethu, Venus, Moon, Rahu and Jupiter are in the constellation of the occupants of 2nd Bhava.

Fourth Bhava : Moon is in 4 : Its stars are Rohini, Hastham, Sravanam. Rohini extends from 10° to 23°-20' in Taurus. Hastham extends from 10° to 23°-20' in Virgo. Sravanam extends from 10° to 23°-20' in Capricorn. No planet is in Moon's star.

Moon is in fourth Bhava. No planet is in its stars. Therefore Moon is the strong significator of the 4th house results.

If there is planet in the star of the occupant, the planet situated in the star will give the results of the Bhava occupied by the lord of the star, e.g., Kethu, Venus were in the star of Sun. Therefore note which house is occupied by the lord of the star, i.e., Sun.

Sun is in 2. Therefore Kethu and Venus will give second house results. They are stronger than Sun in offering second house results and they are called as the signifiers of the second house. If there is no planet in any of the 3 stars of the occupant, then the occupant offers the results of the bhava occupied by it and it is stronger than the lord of the house. Tenants are stronger than the owners. Here we judge " who is stronger " by taking the bhava occupied by a planet and the owner of the sign where the cusp of the Bhava falls. Here we judge the sign.

But previously, we take the 9 planets. We distribute 27 stars to these 9 planets. Each star extends to 13°20' and the owner of 3 stars will be one planet, e.g. Karthik, Uthraphalguni and Uthrashada are ruled by sun. Rohini, Hastham and Sravanam are governed by Moon, hence planets in Sun's star is stronger than Sun in offering the results of the Bhava in which Sun is posited; and similarly planets in any of the three stars of Moon are stronger than Moon in giving the results of the Bhava indicated by Moon by its occupation.

Eighth Bhava : Occupied by Kethu which rules the stars Aswini, Maka and Moola. Aswini extends from 0° Aries to 13°-20'; Makam extends from 0° to 13°-20' in Leo and Moolam from 0° to 13°-20' in Sagittarius. No planet is found in any of the three zones. Therefore Kethu is the strong signifier of 8th Bhava.

[Node is ever stronger than the lord of the sign, the planet or planets with which it is conjoined.] Kethu is in Taurus owned Venus. It is stronger than Venus. But Kethu is in 8th house. 8th cusp falls in Aries. Mars is the lord of the 8th house. Therefore Kethu is stronger than Mars in offering 8th house results.

Kethu in Taurus represents Venus who owns houses 2 and 9. Therefore Kethu will give the results of both these houses.

Eleventh house : Occupied by Jupiter. Its stars are Punarvasu, Visaka, Poorvapadrapada.

Punarvasu extends from 20° Gemini to 3°-20' Cancer. Visaka extends from 20° Libra to 3°-20' Scorpio. P.P.Pada extends from 20° Aquarius to 3°-20' Pisces. Rahu alone is in Visaka star Scorpio sign.

[Rahu is conjoined with Mercury. Hence Rahu in its sub-period and Mercury sub sub period will offer such results which Mercury is to give. Rahu is in Scorpio owned by Mars. Mars is lord of Scorpio and Aries. 3rd cusp is in Scorpio and 8th cusp is in Aries, therefore 3rd house and 8th house results will be given by Rahu in the conjoined period of Rahu and the significators of the 3rd house and the 8th house. Mars is in the 12th house. Rahu represents Mars. Hence planets in Rahu star will give 12th house results also.]

Twelfth house : Occupied by Saturn, Mars and Venus.

Saturn : Pushya, Anuradha and U.P.Pada. Pushya extends from 3°-20' to 16°-40' Cancer. Anuradha extends from 3°-20' to 16°40' Scorpio. U.P.Pada extends from 3°-20' to 16°-40' Pisces.

Mercury alone is in Anuradha ruled by Saturn. Hence Mercury in second Bhava will give 12th house results, whereas planets in Mercury stars will give second house results.

Mars is in 12 : Its stars are Mrigasira, Chithra and Dhanishta.

Mrigasira extends from 23°-20' Taurus to 6°-40' Gemini, Chithra extends from 23°-20' Virgo to 6°-40' Libra, Dhanishta from 23°-20' Capricorn to 6°-40' Aquarius. No planet in Mars star.

But Rahu is in Mars sign. Rahu is in strong significator than Mars. Hence find out the stars of Rahu and note which planet is in Rahu star. This planet in Rahu star will give both the second house result, because Rahu is in 2nd Bhava and also 12th house results as Mars, lord of the sign where Rahu is posited is in 12th bhava. Sun alone is in Rahu star. Hence Sun will give both the second and twelfth house results. Second house is for increase in bank position and some member of the family reuniting or

marriage, birth of children, etc., 12th house is for issue of cheques, expenses, separation, etc., Then, how to predict? If Sun's period is running and during that period, the sub-periods, are favourable i.e., the lord of the sub is favourable one will enjoy 2nd house results : If Sun's period is running and the sub-period in it is ruled by a planet which is disadvantageous, you can have only expenses or separation due to 12th house results.

Venus is in 12 : Bharani, Poorvaphalguni and Poorvashada are the stars of Venus, Bharani, extends from 13°-20' to 26°-40' Aries. PPGuni extends from 13°-20' to 26°-40' Leo. P.Shada, extends from 13°-20' to 26°40' Sagittarius. Saturn, Mars are in Venus star. Venus which is to give 12th house results, is weaker than Saturn and Mars.

Now, you see whether there is any node in any of the Venus signs, Taurus or Libra. Kethu is in Taurus. Therefore Kethu is stronger than Venus. Kethu stars are Aswini, Moola, Moola : No planet is in its star. Hence Kethu will give 12th house results also. Kethu in 8th house and no planets in its star is to give 8th house results. As Kethu is in Venus sign, it has to give 12th house results due to the occupation of Venus ; and Kethu is to offer 2nd house and 9th house matters as Venus owns 2nd and 9th houses and Kethu is an agent of Venus.

Now the question is about gains with least pains. Gain to one means loss to another. In betting lagna unafflicted indicates the person who bets; 7th house denotes the others who compete.

If the other is to lose, it is 12 to 7th house i.e 6th house.

Hence 6th house shows that the competitor losses and thereby the native gains.

If one makes a profit, the bank position improves. So it is the matter of the 2nd house.

Profit is shown by the 11th house. Hence judge houses 2, 6 and 11. Now we have to select the significators :

- (a) Planet posited in the constellation of the occupant of a bhava ;
- (b) Planets occupying a bhava ;
- (c) Planets situated in the constellation of the lord of the sign where the cusp of the bhava falls,
- (d) lord of the bhava;
- (e) planets conjoined with any of the above significators or aspected by any of the above.

In this order we have to make a selection.

We have already discussed the 2nd and 11th Bhavas.

6th remains unexplained. There is no planet in 6th house which extends from 8°-51' Aquarius to 6°-53' Pisces.

Hence find out who is the lord of the sign where 6th cusp falls. It falls in Aquarius. So Saturn is the lord of the 6th bhava. Saturn governs the stars, Pushya, Anurahda and Uthrapadhrapada. Only Mercury is in Saturn's star Anuradha. Hence Mercury is to give 2 results; they are 6 and 12; they are diametrically opposite ones: 6 shows gains: 12 shows loss. Then consider and judge in the following manner. If the lords of dasa or bhukthi or anthra of other planets are beneficial in that period. Mercury gives gains, If the lords of dasa or bhukthi or anthra of other planets are adverse in that period. Mercury will bring loss.

Hence the significators are as follows:

- (a) Kethu, Venus, Moon, Sun and Jupiter:
Second ; Mercury - 12th and 6th bhava : Rahu 11th bhava.
- (b) Jupiter - 11th bhava.

In this combination we do not find Saturn and Mars. They are in the 12th bhava, in the constellation of Venus in 12. Hence avoid Saturn and Mars sub-periods. Again Mercury and Kethu will give mixed results. Genuine good planets are Sun, Rahu, Jupiter, Moon and Venus.

Mixed results by Mercury and Kethu. Adverse results by Saturn and Mars. Therefore if the bhukthi belongs to Mercury and Kethu, the sub periods in that bhukthi, if ruled by Sun, Rahu, Jupiter, Moon, Venus, you gain.

During Mercury and Kethu periods Saturn and Mars sub will incur loss.

During Sun, Rahu, Jupiter, Venus and Moon periods, sub of Mercury or Kethu and sub sub of Saturn and Mars loss. Sub period of Saturn and Mars loss. But the other sub-periods will bring good profits.

Now you are running Jupiter Dasa Venus Bhukthi from 27-10-1966.

In that from 5-3-68 to 13-7-68 Jupiter sub sub is to operate. Again find further subs in Jupiter's sub sub period.

Jupiter	5-3-68	22-3-68
Saturn	22-3-68	12-4-68
Mercury	12-4-68	30-4-68
Kethu	30-4-68	8-5-68
Sukra	8-5-68	29-5-68
Sun	29-5-68	5-6-68
Moon	5-6-68	16-6-68
Mars	16-6-68	24-6-68
Rahu	24-6-68	13-7-68

So avoid . 22-3-68 to 12-4-68
 30-4-68 to 8-5-68
 16-6-68 to 24-6-68

other periods are favourable.

People may play cards : may bet: may go to races. All the 24 hours of the day, or in all the sub-periods one cannot gain. On the whole, how it could be, may be predicted by any learned astrologer. But they cannot offer a prediction, with scientific explanation, which moment one will gain, which moment one will lose and so on.

The method to find out the moment is as follows:-

Note down which dasa is on : which bhukthi operates.

Then select the 3 stars belonging to dasa lord and 3 stars owned by bhukthi lord.

In these 6 star days one will gain, if both the dasa lord and bhukthi lord are advantageous.

Note when - which moment - Moon enters into that star and which moment it leaves that star. The interim period or interval between its entry into a star and its exit is the duration of the star. It may be 22 hrs.or 23 hrs. or 24 or 26 hrs. and minutes.

Take the duration, convert into minutes. Divide by 120. Then if the period of a planet is only one year then the result obtained by dividing the duration of the star by 120 will be the time taken by Moon to move 1 /120 of the star. If one wants to know the duration needed for Moon to move the Sun's sub which is allotted 6 years in Vimshottari Dasa, multiply the result obtained for 1 year by 6.

If the duration needed for Moon to move the Moon's sub which is allotted 10years in Vimshottari Dasa, multiply the result obtained for 1 year by 10.

For Mars and Kethu multiply by 7.

For Jupiter by 16; for Mercury by 17; for Rahu by 18 : for Saturn by 19 and for Venus by 20.

When you add all these, then the total duration will be obtained.

Therefore one knows, which time to which time the sub-period operates.

For example, let us take this chart. He is running Jupiter Dasa Venus Bhukthi Jupiter Anthra.

These planets promise him fortune or at least gains and success.

Therefore note down the stars governed by Jupiter and Venus. They are Punarvasu, Visaka, Poorvapadrapada, ruled by Jupiter. Bharani, Pooraphalguni and Poorvashada governed by Venus.

Take the almanac - Note down when Moon enters into these stars - on which date and at which time : also note when Moon leaves this star - which date and which time. (Better use K.P. Ephemeris.)

This interval between the entry of Moon in a star and its exit is the duration of Moon's passage in that star.

Convert the duration into minutes. Divide it as mentioned above and note from which time to which time Moon was in that sub.

For example let us take 28-4-1968 on which day there is a race. Moon is in Venus star.

Bharani star ruled by Venus will be entered by Moon on 27-4-68 at 7-15 PM. It leaves Bharani on 28-4-68 at 10-15 PM. So, the duration is between 7-15 PM. on 27-4-68 and 10-15 PM. on

28-4-68 = 27 hours convert to minutes = 27×60 mts. Divide by 120, so that the result shows the number of minutes, duration, if the lord of the sub is allotted only one year.

$$= 27 \times 60 / 120 = 13 \text{ mts. } 30 \text{ secs.}$$

Hence Moon will be in Sun's sub for a period of 13.5 mts. $\times 6$ as Sun is allotted 6 years in Vimshottari Dasa = 81 mns. Moon will be in Mars sub for 13.5×7 mts. 94 mts. 30 Secs. The same duration will be taken to pass Kethu sub. Moon will take 13.5×10 mts. to pass Moon's sub as Moon is allotted 10 years in Vimshottari Dasa 135 mts. Similarly Jupiter sub will take 16×13.5 mts. = 216mts. Mercury 229.5 mts. Rahu 243 mts. Sani 256.5 mts. Sukra 270 mts.

As the star Bharani is ruled by Venus, the first sub will be governed by Venus, next by Sun, then, Moon, Mars, Rahu ; Jupiter, Saturn, Mercury and Kethu. Moon will enter Bharani on 27-4-68 at 7-15 P.M.

First sub belongs to Venus = $20 \times 13.5 = 270$ mts. = 4hrs. 30 mts.

Hence Moon will be in Venus star sub of Venus from 7-15 P.M. to 11-45 P.M.- 27-4-68.

Next Sun's sub is for $6 \times 13.5 = 81$ mts.

So 11-45 PM. 27-4-68 to 1.06 A.M. 28-4-68.

Moon's on 28-4-68 1.06 A.M. to 3-21 A.M.

Mars on 3-21 A.M. to 4-55-30

Rahu 4-55-30 to 8-59-30 A.M.

Guru 8-59-30 to 12-35-30 PM.

Saturn 12-35-30 to 4-52 PM.

Mercury 4-52 PM. to 8-41-30 PM.

Kethu 8-4-30 PM. to 10-15 PM.

Races run between 1-30 and 6 PM. Venus star Saturn sub will operate upto 4-52 PM. Hence he will lose till 4-52 PM. Then in the last 3 races, it is governed by Mercury. As both dasanatha and bhukthinatha promise gains, Mercury gives on plurality of the cases. Hence he must gain in this period.

Suppose he plays cards, from, say, 7 A.M.

As Rahu sub will be till 8-59-30 A.M. he must gain.

Luckily Guru sub is between 8-59-30 A.M. to 12-35-30 PM. He gains.

Now, this is the time for him to come home, take lunch and have rest till 4-52 PM. But if he continues to play when Moon is in Saturn sub, he will surely lose; again during Mercury sub he will make profit.

Thus one is to calculate and find out the time - auspicious and advantageous to each horoscope.

LUCKY TIME TO COMMENCE WORK TO TAKE TREASURE

For those who have the horoscope find out whether the Sub-lord of the 11 th cusp is connected with Saturn and the houses 4 and 6. Only for such of those people they can find something valuable from under the ground. Select the Dasa and Bhukthi ruled by the Significators of 2, 4, 6, 11 not connected with 8 and 12. The day when one can start unearthing to get the treasure should be on such a day when Moon transits in the constellation of a planet who is the significator of the houses, 2, 4, 6, 11 not connected with 8 and 12 it should be connected with Saturn also. In that case one must necessarily come by treasure on the day when the Dasa Bhukthi, Anthra and Sookshma are all governed by the significators of 2, 4, 6 and 11.

TO START TREATMENT FOR INVALID CHILD

Having erected the horoscope according to Krishnamurti Padhdhati and found out the significators of each houses, one has to pick up from the horoscope of the invalid child the particular period (i.e. the Dasa and Bhukthi of the planets who are the significators of the houses 1,5 and 11.) Then the treatment should be started on such a day when Moon transits in the constellation and Sub ruled by Dasa lord and Bhukthi lord. In such cases there will be the cure. Here the administration of the medicine should start at the moment when the ascendant is also in such a position so that the sign lord, star lord and sublord are the significators of 1,5 and 11.

If everything is correctly done it means the child has got the fortune of getting cured but if a child is destined to suffer, either the astrologer will commit a mistake in the calculations or the watch in the house may not show correct time or there will be some obstacle in administering the medicine at such a lucky time. If everything is correctly done there must be the cure.

A LUCKYTIME TO PROSPER AS AN ACTRESS

After calculating the horoscopes and finding out the significators note, which planets are the significators of the houses 5, 6,10 and 11 in their conjoined periods on the day when Moon transits in such a constellation ruled by a planet, who is the signficator of the houses 5, 6, 10 and 11. Find out the Sub lord of which is also the signficator of 5,6,10 and 11. Then there will be success in the attempt which one makes and if the Sub-lord of the 10 is very strong one will become famous. Sublord of 2 and 11 show the gains. Therefore, select the moment to sign the contract when the ascendant also transits in such a position so that the lord of the Sign, the lord of the constellation and the lord of the Sub are all the significators of 5, 6, 10 and 11.

O SUBMIT TENDER FOR CONTRACT WORK

One will come out successful in having certain contracts for building or supplies if he signs acontract at a time when both the ascendant and the Moon, transit in such a star and sub governed by the significators of the houses 3, 6, 9 and 11.

TO START SHOOTING OF A CINEMA FILM

The time selected should be such that the significator of the houses 6, 10 and 11 operate and such significators are not connected with 8 and 12. Similarly also a time must be selected (or each artist to act. If an artist for the first time begins to act, he or she should start at such an auspicious moment at which time both the ascendant and the Moon were transiting in the constellation and sub governed by the significators of the houses 6, 10 and 11.

As regards releasing of the film whatever be the time in a day either morning, evening or night, the time should be so selected that both the ascendant and the Moon transit in such constellation and sub governed by the significator of the houses, 2, 6, 11 and not connected with 8 and 12.

LUCKY TIME

To Purchase a Ticket for Lottery:

Nowadays most of us have developed our minds to have easy gains and at the same time we feel more happy when we are legally allowed to enjoy the full amount without paying any tax. When every Pie which has been got either after hard labour or without any effort at all, strain at all, then if we are allowed to enjoy the entire amount, there is no room to feel sorry. On the contrary, we are very very happy. One of the ways by which it would be possible to have a good lump sum or at least something, is Lottery. Everybody cannot have it. Therefore, one has to judge whether according to one's horoscope, one is entitled to have

such a fortune, whether one is born at such a time as to have gains without pains. Then in their cases we can calculate.

As majority of the people do not have correct horoscope, and also most of the people in India follow incorrect almanacs, we cannot completely depend upon the time of the birth given by the native and also the horoscope presented by them. Therefore is advisable to go by Horary Astrology and find out the significators of the houses 2.3.6 and 11 and also 8 and 12. We have to select such auspicious period according to Dasa, Bhukthi calculated on the Horary horoscope and during that time select such days when Moon transits in such a constellation governed by the significators of the houses 2.3.6 and 11 and eliminating the significators of the houses 8 and 12. When one calculates correctly and selects such a star day and in that such a sub (that it will be few hours) and in those hours to select such a position in the Zodiac which will be transited by the Ascendant. So calculate that minute and purchase the ticket.

Tickets are sold everywhere. And therefore, make sure that you are purchasing from one who sells the genuine ticket. If a person were to do so, certainly he must gain for such an action.

Whenever one sows the seed in auspicious moment certainly the yield from the field will be to one's entire satisfaction.

When to Meet the Agent or the Manager of a Bank to have Over-Draft Facility :

Even when one is worth a few laksh or millions, occasionally there will be the necessity for such a person who does business wherein the money is rolling. During the adverse days of the person whatever bill he sends will not be honoured, money will get entangled and he has to necessarily pay to others and thereby the necessity will arise to go in for Overdraft facilities from the Bank. When honour is at stake and we have to maintain our prestige, such a facility alone will offer peace of mind and we will have the go ahead spirit. Therefore, it is really worthwhile to note down the moment when one can previously arrange and

have an appointment with the manager or the agent of the Bank and the businessman goes and finds him at that moment. Such a moment would be the time which is governed by the significators of the houses 3,6,9 and 11. That is you must go at a time when your Dasa, Bhukthi, Anthra are governed by the significators of the houses 3,6,9 and 11 and also on the day when Moon transits in such a constellation governed by the significators of 3,6,9 and 11 and in that star day to select that sub period which is also ruled by the significators of 3,6,9 and 11 and also at the moment when the Ascendant will be transiting in such a position in the Zodiac which is also governed by the significators of 3,6,9 and 11. In that particular case, even if the person who applies for Overdraft had already drawn just to over the limit, Yet the agent will come to an agreement and sanction, allowing him to enjoy the overdraft even from that moment. Any recommendation is being made by the agent to the Head Office will be immediately sanctioned and one can maintain one's prestige. Which person in the world would not like to have such a success by simply following Astrology?

One thing is to be remembered. Unless one is destined to have such a facility whether by selecting such a moment after consulting an astrologer or he himself unknowingly present that application at such an auspicious time. But if a person is so destined as not to have the sanction and he is to suffer, then whatever be the calculation by the Astrologer and whatever effort would be taken by him to reach the agent's place at the stipulated time, yet there will be break-down while going by car or there will be some hindrance or obstacle that he could not utilise the most useful scientific knowledge, but he will approach the agent in the wrong moment which promises according to his horoscope that he should suffer and he cannot have the Overdraft facility sanctioned. Therefore, every student of KRISHNAMURTI PADHDHATI must first of all note down which houses one is to judge, which significator of certain houses alone will be helpful, which Significators will be harmful etc., When once that principle is understood, then selecting the time is very very easy and

one can be sure of the results by selecting a time and acting either at the same moment or at the wrong time. So the moment of action indicates the result which is to come immediately or late.

Lottery Gains or with no Pains :

The chart of a person is as follows :

VIII 23-24 Jup 7-24	IX 24-24	Sun 22-48 X 24-24	Rah- 5-55 Mer. 12-3 XI 24-24
VII 23-28	DOB : 7.6.27 15-27 N 75.5 E. Venus dasa Bal : 6Y.3M 18D		Ven. 6-23 Mars 7-46 XII 23-24
VI 23-24			Nep. 1-45 Moon 22-28 Asc. 23-38
V 24-24 Kethu 5-55	IV 24-24 Saturn 10-47	III 24-24	II 23-24

Fifth house shows whether one is inclined to speculate or not. If the sublord of the Third is in any way connected with the 5th, 6th or 11th one is hopeful of gaining through lottery.

Here 11th cusp is in Gemini in Jupiter star and Mercury sub. Mercury the sublord is in Rahu constellation and sub of Saturn in the 3rd house. So, gain is promised. I do not say that there is a tendency to gain. I declare that you must gain.

"The cusps indicate whether it is promised or not. The signifiers point the time of event. Both dasa, bhukthi and gochara must agree."

11th house is for profit and gains, Lord is Mercury. He is in 10th in the star of Rahu and conjoined with Rahu. Rahu acts as the agent of Mercury as it is, in one of the signs of Mercury. So Rahu is to indicate the second house matters. Rahu being deposited in the constellation of Mars in 11 and sub of Moon who is the significator of 11 also as Moon is in Venus star. As owner of 12 is in 12, Moon indicates investment, money spent to buy tickets. Also it is in Venus star, thereby 11th house significator.

Rahu and Moon are the significators of the 11th house. Rahu is the significator of the 2nd house also as it is conjoined with Mercury lord of 2nd and is in Mercury's sign. Rahu and Mercury are the significators of the 2nd house. No planet is in 6. Saturn owns it. Planets in the star of Saturn are Saturn, Venus, Mars and Jupiter. Among these significators we have to select those which are in favourable subs and reject those in unfavourable subs.

Venus, Rahu and Mercury are very favourable. Financial position ought to have improved from the time Venus sub period started.

"Now you must win in the lottery during Rahu dasa Venus Bhukthi Mercury Anthra and Venus Shookshma. On 30th October, Sun will be in Venus sign Rahu star, Mercury and Moon also will be in conjunction in Venus sign Rahu Star."

Actually he had lump sum on 30-10-70.

to Open an Account in a Bank :

The idea behind opening an account in a Bank is to have savings. However much one may try to open an account in the most auspicious time during the Dasa and Bhukthi of the Planets which are significators of 8 and 12, one cannot save money. But the amount will be either stationary or completely closed. Withdraw the amount to which he is eligible after deducting the charges for the Ledger etc., But if one were to select an

auspicious time during the Dasa and Bhukthi of the planets, signifying the houses 3, 6 and 11. Then the moment when one is to open the account normally, (if he is not influential to open it at a time when the Bank will not be accepting the operation), during those hours on working days we have to find out whether Moon transits in favourable stars, the lords of which happen to be the significators of the houses 3, 6 and 11 and also the Ascendant in such a similar position. If one opens an account at that time, it is an indication that he will be accumulating wealth. It is similar to one, who sows the seed just before the season starts and naturally it will have good growth and with sufficient fertility.

When to Start C.I.D. Work to catch the Thief :

If an Inspector of Police were to be entrusted with this job, better he consults the student of KP to find out the auspicious moment to start his work in catching the thief. The student will select a day when Moon transits in such a star governed by the significators of 6, 10 and 11 and in that, he will calculate the time when the Ascendant will be in the sign, star and sub governed by the significators of 6, 10 and 11. If an Inspector of Police were to follow this strictly, and the KP follower is good in calculation, it is a certainty that the thief will be caught.

If per chance, the significators of 6, 10 and 11 happen to be the significators of 5 and 9, then, the thief will be safe for some time till the conjoined periods 6, 10 and 11, unconnected with 5 and 9 operate.

To Trap one, receiving the Bribe :

I have seen a few horoscopes of the people who had been trapped and badly caught. In their horoscopes, it was very clear that the sub-lords of 5, 8 and 12 operated at the moment of being trapped. That is on that day Moon was transiting in a star which is governed by the significators of 5, 8 and 12 and the moment at which he was arrested is also at the moment when the Ascendant

was rising in the East for that place where he was trapped. If a person were to feel that he would be trapped even though he has this knowledge, he cannot avoid this, because receiving bribe need not be only in the office. It can be done anywhere. I have seen the horoscopes of the cases wherein people were trapped near Petrol Bunk, in the office, in the house, in the hotel and other places.

Since fate and Karma come first, God comes only next, however much you pray, whatever be the extent to which you can either retard or beg pardon from the authorities, nobody can escape.

to File the case in the Court of Law :

The significators to be selected are 6 and 11. Note down which day during the office hours, Moon transits in such a constellation, the Lord of which is the significator of 6 and 11, and has no connection at all with the houses 8 and 12. Similarly, the Ascendant also must necessarily be transiting in that sign, star and sub, governed by the planets who are the significators of the houses 6 and 11 and not at all connected with 8 and 12. If actually, it is done correctly, then one will come out successful. But the students are warned that they should not give in writing that a person will come out successful, in a legal suit, especially after it had been filed in the Court of Law, since it may per chance account to contempt of the Court. No doubt the Astrologers will have no mind to disobey Law. Astrologers are those, who are Law abiding and God fearing. They will not peacefully, intentionally, commit any crime, but yet, unknowingly why should we do and be put into trouble? Therefore, my advice to astrologers would be, "tell them vocally, whether they will win the case or not. If you have to necessarily write, and if that consultant lives for away, in that case you simply answer that if an attempt is made by you at this moment, success is promised. In that whole letter, there should be no word about the suit, Law, legal action etc."

When to Start a Strike for fair deal :

What you want is, either increase in income or reduction in the hours of work. Everyone would wish to have it, very frequently, as it is not possible to carry on the family enjoying the irreducible minimum of pleasure. If you have to fill up a tank how difficult it is ? So with great difficulty, you have to drain a well and fill up a tank. So also to get money from one, who is to give, is so difficult. Therefore, you have to give notice personally at a particular moment when the Leader of the Strike hands over to the person concerned. This time should be governed by the significators of the houses 6 and 11, not at all connected with 8 and 12 of that leader. In that case, you can expect a fair deal in a short time.

Initiation of Manthra for Siddhi :

Find out the moment when Moon and Lagna transits in such a position, the lords of the constellation and sub will be the significators of the houses 11 and 10.

Auspicious Time to Commence Music :

Note down the time when the significators of the houses 2, 3, 5, 10 and 11 operate. In that case, one can lead in this line and also earn satisfactorily.

To Demand Donation :

Whenever a donation is needed for certain good cause and even though the party will be very willing to give, yet, we should not approach at the moment when he is not in his seat; nor we should return with a very small amount. Therefore, it is necessary to find out the most auspicious time. If possible you kindly try to get the horoscope of the donor, that is, he, who is to contribute. Find out the significators of the houses 8 and 12 for him. Select the day when Moon transits in such a constellation, the lord of which is the significators of 8 and 12 to one, who is to donate. Also note down the time when the Ascendant will be rising in the East to that locality at a time when you meet him. This position

also should be in such a sign, star and sub, all governed by the significators of 8 and 12 to that person. In that case, you can have most satisfactory donation. Whenever we want to break a hard nut, we find whether there is a crack; or whether it is thin. Therefore, either in unguarded moments or even when one is well guarded in such moment, when we will give expression in such words, which will appeal to the mind of the donor, then our effort is amply rewarded. So you have to select the auspicious time according to KRISHNAMURTI PADHDHATI and enjoy your life.

LUCKY TIME

To Sign an Agreement:

Cast your horoscope correctly by one of the students of Krishnamurti or the follower of KRISHNAMURTI PADHDHATI. Request him to find out the significators of each house and note down such of those planets which are the significators of the houses 6 and 11. And at the same time note the significators of the houses 5 or 8 or 12. During the conjoined periods of such planets, which are not the significators of 5, 8, 12, but they are the significators of 6 and 11 or 2, 6, 11, they must bring success and profit. (Even though people who play cards, happen to be friends outside the club, one helping the other even out of way, yet at the moment of playing cards, one is to consider the other as the opponent. Similarly, when an agreement is being signed by two parties, then this agreement is because of friendship. But astrologically, the other person, with whom the agreement is made, should be considered as a partner or opponent. Nobody would like to lose, and everybody wants further progress. So the 6th and 11th houses alone can give enough money, profit, victory and success.)

The same student may be requested to note down the days when Moon transits in such a star which is governed by the significator of 6 or 11 or both. In such a star day the sub should

be governed by a such a significator who signifies the houses 6 and 11. Then in those periods one is to calculate and find out when the Ascendant will rise in the East on that day, in such a sign, star and sub, which are governed by those planets which are the significators of 6 and 11.

If a person were to sign at that moment when it is correctly done, it is an indication that in the future due to this agreement, he will have peace, progress and prosperity.

A man will be able to sign only when according to his horoscope, prosperity is indicated in the future. If adversity is there, certain circumstances develop which then will delay by a few minutes and at the time when the sub which rises in the East happens to be governed by the significator of 5, 8 and 12, he would be forced to sign, will have obstacles, impediments, difficulties and also dissatisfaction.

Let us pose one question. If a person is unlucky, and if he tries to sign at this time, simply because an astrologer following KP has selected this moment for another friend, if a third person takes that moment to be auspicious, not referring to his horoscope, then, will he gain or lose. Why ?

If to the third person, the significators of 6 and 11 happen to be the same, then he also will gain. But those planets which are the significators of 6 and 11 to the person who consulted a KP follower is the significator of the houses 5, 8, and 12 to another, certainly, even though this moment was considered to be very auspicious to one, yet to the other it will prove to be disastrous. Therefore, everyone should have his horoscope correctly cast using Krishnamurti Ephemeris and Krishnamurti Ayanamsa, and thereafter carefully selecting the significators and then correctly calculating the time when one should have fortune. This truth never fails.

To win in Cricket match :

Supposing a person's auspicious time so calculated (correctly casting the chart and calculating the hours which are considered to be lucky for each individual) makes use of this knowledge. He will score satisfactorily. Suppose one's luck time commences only after 3 p.m. and it will run, say, till 6-30 p.m. Even if the Captain would request him to go and fill up the vacancy at 10-30 a.m. or 12 Noon and so on if he, in a way suggests to him to allow him to enter the field to bat only after 3 p.m. then this person has made use of KP and he has got speedy score of runs and he can continue to bat the next day. Such a thing can happen only when this Cricketer is destined to score so much.

But, if the Captain forces him in an inauspicious time, then the Cricketer is unlucky, even though he knows which hour is the best. In this case, he will start batting and even with in one over he will be finished. Therefore, Cricket players, if they note the auspicious time to each individual player and adjust in that manner, I am sure that particular team cannot be beaten by the other. It is absolutely necessary to note which minute to which minute or which hour to which hour is auspicious to each player.

For Love Affairs

After casting the horoscope correctly according to the KP and selecting the significators, one has to note down the days when Moon transits in a constellation, the lord of which happens to be the significator of 1,7,11 or 7,1,5 or 1,5, 7,11. If the lord of the constellation happens to be the significators of 1,7,11, the native will initiate, i.e., act first, when the other hesitates. If it were to be 7, 11,5 the other party will initiate i.e., start and offer courage to the other and the time spent will be most pleasant as to forget all other worries in the whole world. One should not select the day when Moon transits in such a constellation, the lord of which is the significators of 4, 6 and 10. Whenever the significator of 6 operates, mostly even by Phone call, it will not

be possible to contact the other. When once the lucky star, lord of which happens to be the significator of 5, 7 and 11, on that day, the extreme pleasure or expression to the love affairs will be in those few minutes when the Ascendant also transits in such a position in the horizon, which is ruled by the group of planets who are the significators of 5, 7 and 11. According to Moon's transit, one can select a few hours and in those hours they can meet. They can even keep company. But yet, the extreme happiness will be when the Ascendant also agrees.

If the other party were to fix an appointment at a time when Moon transits in such a sub which is ruled by 4, 6 and 10th house's significators, avoid since the meeting may start in pleasure but end in pain. Anybody who would like to gain the influence of the other party, must follow strictly the rules given above.

I love a girl, parents are not willing; What to do ?

Select such auspicious time when Moon transits in such a constellation the lord of which is the significator of 3,9,11; better still 3,5,9 and 11 in that case if you can have the interview with them and you discuss in those hours, then at the moment when the Ascendant falls in particular sign, star and sub governed by the significators of the houses 3,5,9,11 the parents will agree. In Tamil Nadu, it is said "What good time can do, even dozens of good people cannot." Therefore, it is necessary, to find out the good time: not according to the traditional system (which in majority of the cases disappoints.) but according to K.P, Avoid the days when Moon transits in the constellation governed by the significators of 8, 10 and 12.

To Occupy A New House :

You have to select that star day, the lord of which happens to be the significator of 2, 4 and 11, You should avoid the days when Moon transits in the constellation of 5, 8, 12. In that star day, select the sub period of a few hours governed by a planet which is also the significator of the houses 2, 4 and 11. Never enter at the time when Moon and ascendant are in the sub ruled

by the significators of 5, 8 and 12. In that star day, select the sub period of a few hours governed by a planet which is also the significator of the houses 2, 4, and 11. Never enter at the time when Moon and ascendant are in the sub ruled by the significators of 5, 8 and 12. Also select the moment when the Ascendant in the East will be transiting in the sign, star and sub of the significators of the houses 2, 4 and 11.

To take delivery of Vehicle

Whenever you take delivery of a car, or a Scooter, or a cycle or any other vehicle, for your use, it is absolutely necessary to cast your horoscope correctly, find out the significators of the various houses and assort them to know which planet signifies which house's results. Thereafter, one has to select such of those planets which are the significators of the houses 4 and 11. During the time when Moon transits in such a constellation governed by the significators of the houses 4 and 11 and also in the sub of a planet, significator of 2,4,11 and not the significator of 3 and 10 will prove to be favourable, especially when the Ascendant also will be in the that sign, star and sub governed by the significators of 4 and 11. If one takes at the time when the Ascendant transits in the sub of the 9th house, then, his vehicle will be damaged and has to be sent to the Garage for repair. If it is taken during the sub transited by Ascendant governed by the significator of 12, then there will be loss of money. If the sub transited by the Ascendant, or by Moon happens to be ruled by the significators of 3 and 12, the vehicle will be lost even by theft.

To Sign the Letter for Scholarship :

As above select the moment when Moon and the Ascendant transit in such a position which is governed by 3, 6, 9 and 11.

For Passport select the time governed by the significators of 3,9, 11 and 12.

For College Admission also when you make an application, it should be signed at a time when the Ascendant and Moon will

be transiting in a position, the sub of which is ruled by the significators of the houses 4, 9 and 11.

Time to leave the House for airport The moment when one leaves, the ascendant and Moon should be in such star and Sub the lords of which are the significators of the houses 3, 9 and 11.

LIFE WITH WIFE : ROOT FOR FRUIT

Though it may appear to be funny, nowadays, I am doing experiments upon such people who are not having children for the past 4 years or 5 years or 6 years after the marriage by giving them the most auspicious time to be friendly with their wives so that they may have at least one child. The time selected was when Moon was transiting in such a star, the Lord of which is the significators of 2, 5 and 11 and not at all connected with 1,4 and 10 and the sub selected also should be governed by the significators of 2, 5 and 11 and sub transited by the Ascendant is ruled by the significators of 2,5 and 11. This is a case wherein I want to prove that a lady who cannot conceive for years, becomes the mother, in due course. One also should note that the Dasa and Bhukthi should be governed by the significators of the houses 2,5 and 11 and not connected with 1,4 and 10. After I come out successful in at least a dozen cases, I shall write articles in my Magazine, how the auspicious moment was suggested only in such cases where they were destined to become the father. But if a person has no chances to have any child according to the Karma done by him, then I will also find out from them whether they adhered to my principle or that particular time could not be made the best use of. All the facts will be published in 1972, after noting down whether there was abortion or miscarriage or normal child birth or failure in the attempt. Such a research done is really useful than to select auspicious time using the Traditional method.

Moon in the Eighth House (cusp ?) in different stars

Moon is generally mentioned as a planet in Astrology. But; according to the definition given in the dictionary it is not; it is one of the luminaries. It is the nearest to the earth and it alone revolves round and round the earth. Daily it moves around 13 degrees in the Zodiac.

It is a feminine and a changeable planet. Its effect is modified by the lord of the star and sub occupied by it, by the planets conjoined with it and also aspecting it.

Moon is termed as "Mathi", meaning "Mind". There are in all, 12 planets. But astrologers have found it possible to predict the results of Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu, Kethu, Uranus and Neptune only, the results of Pluto are still being studied and it is in an experimental stage. Hence, leaving Moon and Pluto the other ten planets may occupy any position in the horoscope. In few cases Moon may be in evil constellation and sub. Those who afflict Moon, will cause trouble through the source indicated by them: i.e, as Moon governs the mind, a person will be worried with such matters, as are indicated by the lord of the star or sub or those with whom Moon is conjoined or by whom Moon is aspected by. No man in the world has peace of mind, as Moon becomes evil by any of the above connections.

Eighth house, according to Ramadaya, author of Sanketa-Nidhi, is the house of mystery and according to us, of misery also. It shows the fear and danger from enemies, danger caused by diseases, death, imprisonment and the like, crossing a river, theft, robbery, siege of a fort, fighting, wrong action etc.

Kalidasa in Uthra Kalamrithasays that the following matters are to be investigated from the 8th house:

Longevity, happiness or sorrow, defeat, bonus, money of the deceased, affliction of the face (as this house opposes the

second house indicating face), urinary disease (8th house shows bladder and genital organs), calamity, brother's enemy (as it is the 6th house to the third), teasing a wife's tuft of hair, enemy's fort, laziness, punishment from Government. (10th house shows Government 8th house is the 11th to the 10th; Hence, the fine paid by the native is the gain to the Government), fear, loss of money (only when evil planets occupy), giving a debt (when a benefic occupies the 8th house), other's money received without knowledge, permanent possession, wickedness, sin, murder of a living person, amputation, hearing bad news, chain of unlucky events, war, agony, etc.

The kind of death, wills, legacies, gratuity, provident fund, insurance business, money through partner and through wife are also judged from the 8th house.

It also indicates disease of the younger brother, speculative gains to mother, landed property and conveyance of children, enemy's younger brother, wife's movable property, her vision, danger to her life, father's life in a foreign place, or separation, honour to elder brother, or friends.

To a nation, it shows the conclusion of a peace treaty, public morality, deficit budget, as regards exports and imports, estate duty, encroachment by others, loss of territory, loss of the leader, national grief, calamities, earthquake, volcano, floods, fire, famine, infection, disease, causing much mortality, serious accident, etc.

Moon as lord of lagna in the 8th house, Aquarius, Kumba in Dhanishta star actually causes Raja yoga, and offers most brilliant results, when one in an infant stage, running Mars dasa and the sub of Moon. Later in every Moon sub-period he will have a rise in his career. Moon in Sathabisha causes worry and anxiety, unless Rahu, at the time of birth, is the significator of favourable houses. Moon in poorvabhadrapada star gives success after much struggle; it causes anxious ill health; it increases enemies; but one can win in election or competition. Partner may lose

money. Otherwise, wife may cause worry due to her bad luck, or hospitalisation.

Moon, as significators of 2 in 8, in Uthrashada star, gives loss through brothers or while making short journey, or by editing books, or by Government officials. One may be picked especially in a public, Government office, bus stand, railway station, etc. Moon in Sravanam star gives wealth and not health. Moon in Dhanishta, governed by Mars, shows that one will have litigation and will be lucky to have grand success. One may suffer from any chronic disease during other sub-periods. Whereas Moon gives cure in its period, as it is in the constellation of lord of 11, Mars.

Moon, as lord of 3 in 8, causes anxiety and worry, if it would have been in Moolam star. But, one can make money. If it was in Poorvashada. He may become a partner and give finance to run a show with satisfactory bank position. Moon in Uthrashada star indicates sale of landed property and reduction in the permanent holdings. Moon causes troubles through vehicles, mother, etc. A few will change their residence to avoid the persistent trouble given by the house owner if Moon was in Uthrashada star.

Moon, as lord of 4 in 8 in Visakam star, gives success in higher education, long journey and life in a far-off place, after experiencing lot of troubles. Separation from family, hospitalisation of father and sale of property are also indicated. Moon in Anuradha star indicates that one can have through legacy or inheritance, landed properties and one may serve in insurance or chemical engineering industry or in mines. It indicates enjoyment of life in decent quarters, erected by the Government, and also purchase of property at competitive prices through the influence of friends. Moon, in the constellation of Jyesta ruled by Mercury, threatens, enmity, disease, frequent change of residence, debts, purchase of property through any society or by raising loan. So also, one may buy a car under hire-purchase system.

Moon, as lord of 5 in 8 in Chithrai star ruled by Mars, Indicates that the native will lose money in speculation or by producing pictures, in cinema drama or by betting. It also shows ailment to brother or misunderstanding with him. Moon as lord of 5 in 8 in Swathi, threatens that one may divorce the partner who will never cooperate; or the partner may be ill. At least it gives separation for sometime due to lack of understanding and adjustment. Moon in Vishakam star in 8 gives success in speculation, unexpected gains by betting, lottery, etc. One may serve in a maternity hospital or stock exchange or race club. One will become very popular and also rich, if the malefic planets do not afflict Jupiter, by forming adverse aspect.

Moon, as lord of 6 in 8 is most advantageous, only when it is in Hastham star. But, if it were to be in Uthraphalguni, the native will incur debts, suffer from abdominal trouble, indigestion, loose bowels, etc. Health will fail; bank position will deteriorate, enmity will increase. Moon in Hastham causes loss to the opponent and gain to the native. Health may fail, but the native will not lose money in his transactions. There will be law suits, but he will invariably win; may cause gastric ulcer. Health of brother also will fail and both cannot have good understanding. Separation and partition are threatened.

Moon, lord of 7 in 8 in Makam star, denies happy domestic life, especially in adult age, when one is to really enjoy peace of mind and be happy. It is dangerous to his partner's longevity. She may have fear complex or hysteria. Partner in business will be very wise and he may silently make up larger profits without the knowledge of the native. Moon, lord of 7 in Pooram star in 8, makes one religious and forces him to speculate; invariably, he will lose. Venus rules Poorvaphalguni. It is lord of 5 and 10; its star is occupied by the lord of the 7th house - opponent - competitor - and Venus is lord of 11 to the 7th house. Moon, lord of 7 is in 2 to the 7th house. Hence, the competitor wins. The native will speculate as Venus is lord of 5. Moon in

Poorvaphalguni gives opportunity for one to enter into cinema line or share broker's office or to take up music or deal in scents, petrol or milk. moon in Uthraphalguni in eight causes ailment to partner, but much gain to him with minimum effort. Rather he will be a partner assisting with finance alone, whereas the native is to work hard, earn; give away major part to the financier.

Moon, in 8 in Cancer in Punarvasu star, shows disposal of landed property, hatred towards close relatives and loss of comfort etc. One may sell away the conveyance. To his mother, Moon offers most desirable results. She may have popularity. Moon in Pushyam is very bad, as the person will lose money, and have many enemies; he will be a pessimist. There may be fear complex, inferiority complex and failure due to his own laziness, reluctance, silence and negligence. Annoying letters and depressing messages will be received. He may incur debts due to business in petrol or mine products. Moon in his own sign, the 8th house in Aslesha star promises fortune, money through partner, house, property, etc. through wife or husband, as also vehicle through them and promotion in one's profession. It offers advancement in one's career, inclusion of a Mercurian to expand his business, name, fame and reputation.

Moon in 8 owning the 9th house indicates that father will be fortunate in a place other than his native place; father will have mixed results by speculation, etc., if Moon was in Mrigasirisha star owned by Mars. He may purchase a property at a price higher than the market rate. In the bargain he will lose. Moon in Arudhra indicates danger to father, failure in higher studies, unnecessary attempts to go overseas, etc. Moon, as lord of 9 in 12 to the 9th house in Rahu's star Arudhra, is definitely evil if Rahu would have been in the 3rd or the 10th house. Moon in Punarvasu star gives satisfactory bank position, gain of money, success in pleasurable pursuits, chances of marrying one, born in a stranger's family or "Love marriage", intelligent children and making money in cinema, music or speculation.

Moon as a lord of 10 in 8 in Karthigai star, will prove to be a Maraka. It may end his life even in youth, when other planets are weak and also afflicted, because Karthikai is ruled by Sun, who is a bhandhaka Sthana-adhipathi. Planets in the constellation of bhadhaka Sthanathipathi will give death in their period or sub period. As regards his profession, he will have satisfaction in his remuneration. He will be much respected. He can save money. He will have peace, pleasure, prosperity and permanent tie of friendship. Moon in the constellation Rohini indicates early demise of father, dissatisfaction in service, though well-paid always thinking of a change, desire to go overseas, etc. Moon in 8 in Mrigasirisha in Taurus indicates success in enterprises, a very liberal partner, a spend-thrift wife or husband, delay in marriage, difficulty in the state of married life, profit by insurance or gaining money by legacy.

Moon, as a lord 11 in 8 in Aswini star, is definitely evil. The native can neither have pleasant life, nor friends to oblige him, or at least console him. He cannot think straight. He will be confused. He will be rash and will land himself in trouble. He may have friends in the Police or Military or in such departments where the officials have extraordinary powers. In his weak and unguarded moments, he may take them into confidence and may talk about his wrong action. When Moon Bhukti operates, these friends will betray him and will give valuable assistance to the colleagues to spoil the person. Moon in Bharani star gives wealth, music, large circle of friends, much respect in society, separation from father due to the transfer in the father's profession, loss through paternal uncle, difficulty through son-in-law or daughter-in-law (5th house shows one's son or daughter and 11th house is the 7th therefrom. So their partner in life is indicated by the 11th house). Partner will speculate and lose; Whereas the native will gain. Moon in Karthigai star shows loss through friends, or by paying penalty to the tax department or fine in the court of law or even imprisonment. Father may dispose of the ancestral property

Moon, as lord of 12 in 8 in Poorattathi star, shows that there will always be difference of opinion between the person and the partner. The partner will gain in all disputes and it is advisable to effect a compromise, rather than fight out a case. One can return the loan or give away the share of profit to the partner. Wife's health will not be good, though she may make larger profits and purchase movable properties and costly jewels etc. Moon in 8 in Uthrapathrapada star is dangerous for one's longevity. One may suffer from any chronic disease. Hospitalisation during the period of Moon may be necessary. Partners in business and wife at home will bring about loss and also unnecessary expenses, outweighing one's income. Enemies will cause worry, though success to the native is assured after a long delay. It is the delay and the period of suspense which will irritate the native. Moon in Revathi star will prove to be lucky. Good investment, sudden gains, satisfactory bank position, substantial profit, large number of benefactors and fortunate partner to carry on business are all indicated by Moon in 8 in Revathi.

Moon in 8, in the constellation of Sun, Significator of Bhadhaka or Maraka Sthanas cause death from typhoid, heart disease, cerebral meningitis, sharp fever or malaria etc., or give death by paralysis, dropsy, beri beri, intestinal diseases, catemental disorders, convulsions, excess of drinks, uremia, tumors and diabetes etc.

Moon in Mars star similarly deposited indicates death due to inflammation, plague, haemorrhage, boils, stones in bladder, abortions, profuse bleeding, fistula and dysentery.

Moon so posited in Mercury constellation causes death by mental derangement, nephritis. Vitamin 'B' deficiency, hysteria, nervous breakdown, paralysis and digestive disturbances.

Moon in Jupiter star as significators of 8, bhadhakasthana or marakasthana cause cerebral congestion, liver complaints, jaundice, dropsy, flatulence, pleurisy, carbuncle, blood poisoning, etc.

Moon afflicted by Venus, gives death by diabetes, tonsils, amoebic dysentery, cysts, diseases in the generative system, goitre, etc.

Moon, afflicted by Saturn, gives death due to cold wave, gall stones, chyluria, TB. of bones, T.B. of lungs, cancer, paralysis, Bright's disease and pus formation.

Western:- Moon, afflicted by Uranus, threatens danger by paralysis, hiccough, hysteria, gas trouble, breathing troubles and spasm.

Neptune, afflicting Moon, makes one mad after something or other and finally lose control. So, brain troubles, overdose of medicine, especially sleeping dose, use of narcotics, coma, etc., are indicated.

Moon, conjoined with many planets in 8 will cause sudden tragic and unnatural death. Moon in the constellation of lord of 6 or 8 and also afflicted by them will give a watery grave. 8th house shows boat. So it may be that the boat capsizes and the native loses his wife while crossing a river.

The above is applicable in natal horoscope to ascertain the results of Moon when Moon Dasa or Bhukti or Anthra operates.

IS CHANDRA - ASHTAMA EVER EVIL ?

Then how has my desire been fulfilled on chandra ashtama day?

The following is the letter and horoscope of Mr. H Viswanathan who wants the scientific explanation for his success on chandra ashtama day.

On Thursday 30-9-1965 at 3.30 PM. I have been relieved on leave by my present employer for undergoing training in a leading firm after passing a professional examination. There had been delay in my relief to this day. Can you explain why I had my desire fulfilled on a chandra ashtama day?

Sun	Mars Moon		Kethu
Mercury Saturn Venus	Born on 26-3-1936		
ASC 3-56			
Rahu Jupiter			

At the time of birth, balance of Venus Dasa was 9 years 5 months and 23 days.

Answer:

On 30-9-1965, Jupiter rules the day, Mars governs the sign Scorpio-Vrichika where Moon was transiting and Jyeshtha was the constellation in which Moon was passing at 3.30 PM. and the Ascendant was the 1 st degree in Aquarius.

On the day you were relieved, you had been running Mars Dasa, Mercury Bhukti, Mars Anthra. It commenced on 19-3-1965.

1. Generally if the Dasa lord and Bhukthi lord are strong in the sign, then the matter signified by them can be had when Moon transits in the sign, star and sub ruled by them. Actually on that day the star was Jyeshtha, governed by Mercury in Scorpio, owned by Mars. Whatever be the position of Moon in the horoscope, whether it is chandra ashtama or not, the matter will be fulfilled.

2. You are born in Capricorn ascendant Moon owns Cancer the 7m house. It indicates those with whom you transact. It shows one with whom you work, one who is to issue orders, etc.

Jyeshtha is governed by Mercury which rules both the 6th and 9th house. 6th house signifies service; 9th house is negative (12) to the profession house 10. Hence, to get relief in service, the lords of 6 and 9 will prove to be helpful. Further, Mercury was in the constellation Poorvapadra, ruled by Jupiter owning the houses 3 and 12 indicating changes in the routine.

Mercury owns the houses Gemini-Mithuna and Virgo-Kanni. It is to be remembered that Rahu or Kethu in Gemini or Virgo will offer the results themselves, and during the period of the planet in its constellation. Kethu is in Gemini. It represents Mercury, the lord of the sign and Jupiter, the planet which aspects Kethu. Hence, Kethu is the agent of Mercury and Jupiter who indicates change in the routine, transfer, higher education training or probation.

Mars and Jupiter are in Kethu stars, Aswini and Moolam respectively.

Mars Dasa, Mercury Bhukti, Mars Anthra shows that you should have a transfer. Mars, the lord of 4 in the 3 house indicates change of place. Mercury, the lord of 9, promises further study.

Hence, on a Jyesta star day you are relieved.

To your ascendant, Moon, the lord of 7, with whom you have to deal, was transiting in the 11th house. So the officer was helpful on that day and relieved you.

Moon is the lord of 7. It was in the constellation of Venus who rules the 11th house counted from the 7th house. So when the lord of the 7th transits in a sign, eighth from the sign occupied by it in the horoscope, and if that lord is in the constellation of the lord of 11 counted from the house which it owns, It shows separation. The period was Mars dasa, Mercury Bhukthi, Mars Anthra-Mercury was in Jupiter's star. Hence, on a Jupiter day, Thursday, on Jyesta star day ruled by Mercury, when Moon was in Scorpio owned by Mars, the officer had to relieve you.

The moment when you were relieved also needs explanation. The lagna was Aquarius at 3-30 PM. on 30-6-65. It was in the 1st degree. According to Krishnamurti System, 1st degree Aquarius is Dhanishta star ruled by Mars and the sub belongs to Mercury. (Suppose a child is born with Moon in the 1st degree of Aquarius. Then according to Vimshotari Dasa, what dasa and bhukti will the child have at the time of birth? Is it not Mars dasa, Mercury Bhukti? So that area is ruled by Mars and Mercury). The general rule is that Chandra ashtama day is evil and that, one cannot have his desire fulfilled.

The students can verify in all horoscopes and invariably they can find that results depend on the lord of the constellation in that sign and the general statement fails miserably.

CHANDRASHTAMA AND ITS TRUTH

(moon in 8th sign from natal moon)

Q. Why do the Astrologers advise the consultants to avoid Chandrashtama days ? Is there any truth ?

We have to take only the exact position of the lagna, which alone indicates the person. Also we should consider the exact position of all the planets (constellation and sub) and offer the prediction. Otherwise the prediction given by either of the western or Hindu system will be similar to blind persons, touching any part of an elephant and describing how its physical features appear to be or touching some animal and giving elephants description.

By Chandrashtama, Hindus mean those days whenever Moon transits for nearly 2 1/4 days in a sign, which is the 8th counted from the sign occupied by Moon in Natal Horoscope. They do not take into consideration whether at the moment of the birth time, Moon was in the very beginning or in the middle or in the end of the sign. Nor they take into consideration whether the transmitting planet is in the beginning or in the middle or in the end of the sign. They count sign by sign not from the exact position of Moon to the exact position of any planet. This is most unscientific.

Those who are born in Ashwini or Bharani or the first quarter of Karthik star, will have Moon in Aries. The other 3/4 of Karthik, Rohini and Mrigasirsha first half, will be in Taurus : thus all the 27 stars contained in the 12 signs so that each sign has 2 1/4 stars. So, for Aries-born, Scorpio is the 8th Chandrashtama. For Taurus-born, Moon transiting in Sagittarius, is said to be Chandrashtama. The Gemini-born, Chandrashtama means that Moon is transiting in Capricorn. So, for Cancer, which sign transited by Moon is said to be Chandrashtama. Aquarius, is it not ? Thus to each sign one is to note.

Astrologers consider that planets transiting in 8th sign must cause damage and do harm. But the truth is not so.

Now, coming to Chandrashtama, let me not give many examples to prove that no useful purpose is served by mentioning in the monthly predictions, the days or dates when Moon will be in Ashtama. Why do they give ? What do they mean by that ? Do they expect that Chandrashtama days must be evil ?

They have not noted that during Chandrashtama day, some win the case, some come out successful in Election, some pass the examination, some get married, some have easy delivery of children, some gain by lottery, some win in the races and so on.

is it wise, simply going on threatening people or like an ill- omen to mention these dates ? No doubt, whether one threatens or not, according to destiny one will win or gain in the period when planet transits in the 8th house.

Similarly whenever Saturn transits in many signs, the traditional astrologers threaten people by giving undesirable and disagreeable results, especially ashtama Sani, etc., They do not take into consideration that during Sade-Sati, i.e., 7.5 years Saturn, most of the people have grand success. If this is brought to their notice they say look at dasa, bhukthi etc., But when the twins horoscopes are handed over and asked why one of the twins has passed the examination and the other failed, they have no explanation. First of all they follow a wrong method. Secondly there is either limitation or only confusion. IF one were to follow Krishnamurti Padhdhati, he can very well differentiate and come out correct in all cases, by taking into account the "Sub".

Let me give you an example of one of the very well-known politicians. The horoscope, which was published in page 20 in April, 1986 "Astrology and Athrishta" issue, is as follows.

Kethu 18-24 Jupiter 0-53			Neptune 11-43 Mercury 16-35 Sun 20-00
Moon 28-32	Rasi		XI 8-51 Jupiter 23-43
Sani 14-40			Asc. 1-0 Venus 14-37
Uranus 0-5			Rahu 18-24 Mars 25-15

If according to Hindu system we take the position of Moon, it is in Aquarius and he has won very meritoriously with overwhelming majority against the wish and obstacles thrown by his opponents. Is he not having sade-Sati and do we not find a group of planets in Ashtama (in the 8th sign counted from Aquarius) ? Saturn and Rahu are in 2 and Saturn is said to be causing Sade-Sati. Jupiter, Kethu and Moon are in Ashtama. If a person takes this chart and shows to an Astrologer to give the results as per transit how can he give correct results using Hindu System ? Will not he dissuade the person ? Is it not doing harm to the person and also bringing ridicule to astrology.

But follow Krishnamurti Padhdhati. On the day of the announcement of Election results, i.e., 9th January, 1969 in the night, when Jupiter, Kethu and Moon were in 8 and Sani and Rahu were in 2, he came out successful. According to

Krishnamurti, Saturn was transiting in Mercury star and sub of Rahu, who is to give the results of the Houses 2 and 11, in his horoscope. It is said by Krishnamurti that houses 1,2,3,6,10 and 11 are the houses, which will promise success in one's competition, election, litigation etc., Therefore, even though Saturn was in the 11th house from the lagna, as it was transiting in the constellation and sub of the planets occupying and signifying the house 2 and 11, he came out victorious. One may ask how can Rahu offer beneficial results during the time a planet is transiting in its sub. Rahu is in the 2nd house. It is in the constellations of Moon and sub of Mercury. Moon is in the 7th. 7 shows opposition. Moon is lord of 12. It shows that the opposition will be in a foreign place and position of Rahu was 18°24' in Virgo. It shows that it was in Mercury's sub. Therefore, Rahu is occupying Mercury's sign and also Mercury sub. Hence good luck has repeated. Guru was in the 11th counted from Moon. But it was actually transiting in Mercury sign, Moon star and Rahu sub. Moon was transiting in Sun star. Sun is lord of the lagna posited in 11 in his horoscope. Therefore Uttaraphalguni Nakshatra is a fortunate one when one has regained the lost position.

[Please refer to the article written "No Rose without a Thorn" wherein this chart is taken as an example. Now he is elected. Where is a Thorn ? Mother died. So good and bad come side by side.]

It has ever been mentioned that our Deputy Prime Minister regained the lost position and had a better one during Ashtama Sani and also when majority of the planets were in Ashtama, counted from moon position (because he is born in Poorvaphalguni Nakshatra in Simha Rasi) and at the time of announcement of the result and also at the time of taking charge of Deputy Prime Minister; there was no Guru Balam according to the Traditional Astrology because Guru was in 12 and there were Ashtama Sani, Ashtama Rahu, Ashtama Surya and so on.

After reading this, I trust, the readers will follow Krishnamurti Padhdhati. and forget the traditional system which is useless.

Now my desire and my request would be that the traditional Astrologers should switch on to Krishnamurti Padhdhati.

The Honourable Gururji Jyotish
Marthand
K.S.Krishnamurti Brahmin
Street, Saidapet, Madras -15.

Respected Sir,

Jai Samb Sadashivji !

The principles of Advanced Stellar System propounded by our Gururji Shri K.S.Krishnamurti under the title 'Krishnamurti Padhdhati' are strikingly unique and have revolutionised the Astrological World. The discovery of the system by the application of which to the practically handled horoscopes - clients. Astrologers may be a novice or scholar in the the field - every one is convinced of the 100 % accurate predictions. If just like the discovery of Electron - that tiny particle (within the Atom) discovered by English Physicist Joseph John Thomson (which won him Nobel Prize in Physics) which startled the then Scientific minds, the discovery of this Padhdhati has made Astrology not an 'art' but 'an' exact Science'. This credit goes to Shri K.S.Krishnamurti - our Gururji and consequently whole astrological world is indebted to him.

For last two decades, myself and other celebrities of our Institute had solely been predicting on the basis of age old principles which ones however correctly and strictly applied could not place us in a position to predict meticulously beyond 40 per cent margin of accuracy. Now all the members of our Astrological Institute have totally switched off all traditional principles and have been happy enough to switch on yours one.

May lord Ganesh bestow a long span of life so that the Science itself may be most benefitted by more and more discoveries propounded by our able Guruji Varahamihiracharya of our age.

How long will it take us to have your forthcoming books in Astrology ? Their outcoming is eagerly awaited.

Yours faithfully, Jyothir

Ashtama Sani and Honour

Is Ashtama Sani ever evil? No.

The honour and reputation conferred on a Hotel Proprietor and his success in the competition during Ashtama Sani is discussed.

The following is the horoscope of Sri. A.R. Sethumadhavan proprietor of Hotel Ooty at Daba Gardens, Visakapatnam.

		Jupiter 10-5	Kethu 5-38
Sun 10-39			Moon 5-7 Sani 16-46
Mercury 26-17 Venus 21-25			
Rahu 5-38		Lagna	Mars 8-11

At the time of birth, the balance of Saturn dasa was 16 years 5 months and 20 days.

Rotarians are noted for their kindness, sympathy, pure and refined affections. They are fond of society and sociability. Like Gemini-borns, they are intelligent. Like Librans, they are very capable in proper assessment and correct judgment. Like Aquarians, they are most loyal to friends and they have highest grade of humanity. They never act in a hurry and so they seldom

have cause to regret their actions. Rotarians are generally rich in wisdom and wealth. They have the qualities of the three airy signs Gemini, Libra and Aquarius.

In Visakhapatnam, the Rotarians are very enthusiastic. They give life to the people who have a routine and monotonous career. On 15-7-1964, the positions of the planets were as follows:-

	Jupiter	Venua Mars	Rahu Sun
Saturn (Retro)	15-7-1964 Evening		Mercury
Lagna			
Kethu			Moon

The proprietor of the Hotel Ooty was presented with a fancy and costly rolling silvercup by the Rotarians recognising his Hotel to be maintained in the best condition in that year (1964) - the hygenic condition in which the hotel premises are kept, the absence of fly nuisance inside, preparation of delicious dishes, prompt service without any waste of time, the proper sterilisation of the utensils and the cleanliness of the kitchen, cooks and servers, etc.

On 15-7-64, according to Vimshottari Dasa, he was running Venus (lord of Lagna) Dasa - major period, in the constellation 253

lord of 10 (for honour), Moon (lord of 10) bhukti in the constellation of occupant of 10th house - and sun (lord of 11) Sub - Sub period - Anthra. Sun was in the constellation of Rahu who represents Jupiter lord of 6 in the constellation of the occupant of 10.

Generally, lagna indicates the results enjoyed by the native of the horoscope. Lord of Lagna offers grand success to a native if it would have occupied the constellation of the lords of 1,2,3, 6, 10 or 11th house: The sub (according to Krishnamurti System) in that constellation must be ruled by one of the lords of 1,2,3, 6, 10 or 11th house. Then in their conjoined period one can look for success. Here, Venus - Sukra - is the lord of the lagna. It is in the constellation of Moon, lord of 10 and is also in its own (Venus) sub (Krishnamurti System) as it was in $21^{\circ}-25'$, which is between $20^{\circ}-27'$ and $22^{\circ}40'$ in Capricorn - Makara - ruled by Venus in Moon's star Sravana. So Venus will contribute for success.

10th house is owned by Moon, this is in its own sign conjoined with lord of 4 and 5 and in Pushyam star, the constellation of Saturn, lord of 4 and 5 and in the sub of Mercury. Therefore, Moon who is under the influence of Saturn and Mercury cannot confer any honour during the joint periods of Moon and Saturn or Moon Bhukti, Mercury Anthra. Venus aspecting Moon (lord of 1 aspecting lord of 10) gives beneficial strength to Moon to offer beneficial results, after Saturn and Mercury sub - Sub - periods are over, and during Venus dasa Moon Bhukti, Venus Anthra alone, it has to give.

It may be a fact that a few months prior, mostly in January and February 1964, the judges could have considered this hotel as one of the two to be recognised. Moon in conjunction with Saturn is called Punarphoo. That is, in the first attempt Saturn conjoined with Moon does not offer the desired results. Either it may be delayed or denied. Only on the subsequent attempts the native will be crowned with success. But the moment when Venus Anthra started after 5-4-64, this Lodging House could have

impressed on the customers and Rotarians that his hotel is second to none in Vizag. Probably he would have improved the hotel from 5-4-64.

11th house is always for success, Lord of 11 contributes for social and financial success; also one can come victorious in any conflict, litigation, competition or war only during the beneficial sub period of lord of 11. That is why, Ravana tried to keep all the planets in the 11th house to lagna when his son Indrajit was about to be born. But Saturn stretched itself to the twelfth house to save the lives of the Devas by bringing misfortune to Indrajit. This is to commit to memory that in any horoscope, the 11th house promises success.

Lagna indicates the native. The seventh house shows the opponent. The sixth house indicates enmity - open inimical activity and also the loss to the opponent, as the sixth house is VRAYA to the 7th house. The eleventh house is for success. Tenth house brings honour, name and fame. Therefore, when this native was running the dasa of the lord of the lagna - Venus (Sukra), sub period of the lord of 10, Moon bhukti and lord of 11 (Sun) anthra, he had this honour and prize.

According to transit followed by the Hindus, taking the position of Moon alone in the horoscope at the time of birth, one has to say that the native's chart shows that Moon was in Cancer (Kataka) and Saturn, on 15-7-64, was in Aquarius (Kumba), which is the 8th house from Cancer. In Tamil Nadu, it is said that people who could have been uniformly happy for many years will suffer during the time when Saturn transits in 8. For example, one may be committing a crime for a great number of year. But he will be caught and punished during Ashtama Sani. This is the common saying in the south.

Also, it is said that Jupiter, transiting in the 10th house, portends a fall in one's career. It may bring scandal and ill repute.

Such slogans should end. Proper application of the science alone is needed.

Astrologers may say that Ashtama Sani is evil in a few cases especially when the dasa is adverse. They may add that Ashtama Sani cannot prove to be harmful if the dasa is good. It is true. But the statement is incomplete. In which cases Sani is a benefic and (b) in which cases Ashtama Sani is evil, has not been scientifically discussed elaborately.

Western System amended by K S K

Lords of 1,2,3,6,10 and 11th houses, whenever they, during transit, form favourable aspects, offer desirable results during competition, election, litigation, etc. And, lords of 4, 5, 7, 8, 9 and 12th houses, whenever they form evil aspects during transit, the native wins. Find out to which house Saturn is the lord.

The native will lose in the competition whenever the lords of 1, 2, 3, 6, 10 and 11th houses form evil aspect to their original position at birth and loss is also to be expected during the time when lords of 4,5,7,8,9 and 12th houses form favourable aspects to their radical position. This is the truth which the readers can confirm after application and verification.

1. Who is Saturn? He is lord of 4 and 5 to the native born in Thula Lagna. Therefore, he is lord of 10 and 11 to the Mesha (Aries) borns, which indicates the opponents as 10th house and 11th house show reputation, success and profit. Saturn the lord of 10 and 11 to the opponent, will do good to the opponent; if Saturn forms good aspect with radical Saturn in Cancer, then the opponent will win and the native will lose. But if Saturn form evil aspect with its original position, it is incapable of producing its beneficial results and hence the opponent loses and the native gains. Therefore, Ashtama Sani is bad to the opponent and not to the native (Ashtama to Moon sign). It is also worth doing research to confirm that those who are born with a planet in

retrograde motion, have on advancement in their career when the same planet is again retrograde during transit.

When will he lose the rolling cup? -

Astrological explanation.

When Saturn transits in Pisces-Meena-and forms favourable aspect with its radical position i.e. in the year 1967, after having had a "Hat Trick", the cup will leave his hands. At that time, the dasa will be ruled by Venus, and the sub-period (bhukti) will be ruled by Rahu. When Sukra and Moon have jointly done this good to him, the planet in 6 or 8 or 12 to these two planets will undo what they have done. This is one of the truths. If planets A and B in their periods give a result, then the planet in 6 or 8 or 12 to A and B will give the diametrically opposite results. If one joins a service during A dasa B bhukti, then he will lose or leave this post during C Bhukti. If C is in 6, 8 or 12 to A and B and forms evil aspect with A and B.

Rahu is in 12 to Venus and it forms (45) semi-angular aspect with Venus. Moon and Rahu are forming quincunx aspect (150) and Rahu is in 6 to Moon. Therefore, the honour conferred on him during Venus Dasa, Moon Bhukti, will be withdrawn during Venus Dasa, Rahu Bhukti in 1967, as Rahu is in 12 to Venus and in 6 to Moon.

Therefore, while judging the transit results, the following must be included:

- (a) take the radical position of the planets;
- (b) consider whether they will contribute for one's success or not; and
- (c) find out what aspects they form, during transit with their original position.

Such a consideration will be corrective method for the Western System.

Sade-Sati- Satisfactory Gains

The following is the horoscope of a native born on 9-5-1926 at 1-19 PM. I.S.T.

Moon Venus	Sun Mercury		Rahu
Mars Jupiter			
			Lagna
Kethu	Saturn		

At the time of birth the balance of Mercury dasa was 11 years 6 months 29 days.

He purchased one Prize Bond having effect for 5 years. He won a prize and received the cash during his Sun dasa, Moon bhukti on a Friday when Moon was transiting in its own star Sravanam. Therefore, he had his success ultimately, though there was long delay for a period of 5 years. First one should know how normally one will predict and then the corrective method.

Hindu System

(1) Sun, lord of Lagna; was in the 9th house in the constellation of lord of 10 and conjoined with lord of 2 and 11.

So Sun has to cause Dhana Yoga (Lords of 1, 2, and 11 conjunction is beneficial).

(2) Can it be said that Moon, lord of 12 will produce this yoga only when it is not connected with other planets which do not own either 6 or 8 or 12. But Venus is conjoined with it. Venus owns the beneficial house, the tenth - a Rajayoga house.

It is also likely that one may threaten saying Moon is lord of 12. It is in 8. Both are evil houses. Hence you will lose and suffer or it may be said that lord of 12 spoils the planet with which it is conjoined. As Venus and Moon are together in one sign and Venus is the lord of the 10th house, one may say that the native may be reverted; his income may be reduced as also the status and it is likely that he is transferred.

Another astrologer when consulted a few days before shuffling, may advance his argument and ask the native to forget about the luckin prize bond by saying, "Sir, when you had Saturn transiting in the Labhasthana - 11th house, you did not get any. When Saturn's 7.5 years transit is on, especially when Saturn is in 12, how can you expect any luck." He may recite some slokas. Further he may add that Jupiter transiting in the third sign counted from Moon sign is very very bad and most unfortunate. He can quote the malefic effects of Thirtheeya Brahaspathi". It will appeal to those who have not done research, that when a man did not get prize when Jupiter was in 2 and Saturn in 11; he can never get during Saturn 7.5 years and Thirtheeya Brahaspathi period.

The fact is that he has gained. How can he win a prize?
KRISHNAMOORTHY SYSTEM.

(1) (a) Suppose Planet 'A' is in the constellation of another planet 'B'. 'A' is stronger than 'B'. That is why Venus, lord of 10, could not give easy money in the last portion of its dasa. (b) it was purchased in Mercury Bhukti which was under the sway of the node - Ketu in the 5th house. So neither Mercury in its own

sub-period nor Kethu could give. 5th house gives inclination to speculate but profit to the opponent. Lagna denotes the native - 7th house represents those with whom one competes. 5th house to Lagna is the (Labhasthana) 11th to the 7th. Hence, 5th house gives the mind to speculate and contribute for the benefit of the competitors and not for himself.

(2) Always houses 1, 2, 3, 6, 10 and 11th promise grand success and gains without pains.

(3) Planets must be judged by considering the constellation occupied by them. One need not worry about the name of the lord of the constellation. But note which houses are governed by the planet which rules the constellation. If Moon is in Revathi for one born in Simha Lagna then one is to consider that the lord of 12 throws light through the modifying side which owns the houses 2 and 11. Hence, the matters of 2 and 11 alone will operate. Lordship of the 12th house shows that one can gain through investment, Prize bond is an investment for many people, without interest. For those who win the prize the interest is many times the capital itself.

Hence, Moon in the constellation of Mercury i.e., in the constellation of the lord of 2 and 11 gave money in Moon's star day, i.e., Sravana star day.

Venus, in the constellation of Saturn, the lord of 6 and 7, rules Friday when he received the prize. Any planet in the constellation of lord of 6 occupying the 8* house or in the constellation of lord of 8 occupying the 6th house will invariably bring luck without any strain. For the 7th house represents opponent, 6 and 8 are the 2nd and 12th houses to the opponent. So, if there is connection between houses 2 and 12, one is to lose. Hence the opponent's loss is the native's gains.

So, the day of receipt was Friday, governed by Venus;
Sravanam star day ruled by Moon and the rasi was Capricorn

owned by Saturn which owns the 12th house of the opponent and it aspects the 12th house of the competitor.

As regards 7 a years Saturn, it is an incorrect statement. How many people, after waiting for a long number of years get married during Sade-Sathi. How many get into service only during Sade-Sathi. How many bring forth children. Also how many gain by lottery, races, speculation, prize bond, etc. The astrologer who attributes any loss only to 7.5 years Saturn, has no experience and has not gained sufficient knowledge. So also his argument of Thritheeya Brhaspathi is to be valued.

As per transit, Saturn causes Sade-Sathi. Jupiter was in the constellation of Sun, lord of Lagna which is advantageous to the person. Sun was in its own constellation.

Hence, one is to follow the stellar system; analyse by taking the 7th house as that of the competitor or opponent. Then alone correct result can be had.

(A planet may own any house; when it transits, it gives such matters signified by the lord of the constellation, through the source indicated by the transiting planet, by lordship, occupation and its nature e.g., suppose a planet owns the houses 3 and 10. 3rd house denotes brother editing, short journey, etc. 10th house indicates profession. If any planet transits in the constellation of that planet owning houses 3 and 10, the results will refer to the matters signified by the houses 3 and 10, irrespective of the lordship of the transiting planet).

SADE-SATI AND ITS TRUTH

(HOW TO GIVE GENERAL PREDICTION)

Sade-Sati means that Saturn will be transiting in the 12th sign to the sign occupied by Moon (whatever the position of Moon be in that sign either in the first degree or in the last degree of the sign), then Saturn transits in the sign where Moon was deposited and in the second sign counted from that tenanted by Moon. Therefore, the three signs, the 12th sign to the sign where Moon was, the sign occupied by Moon (called Janma) and the second to it are considered to be the three consecutive signs which when transited by Saturn, it is said to be Sade Sati or $7 \frac{1}{2}$ years Saturn. People who go by mere traditional convention and the general principles will sing a song or reproduce a sloka and translate it that it is 7.5 years Saturn which is harmful; one will be dissatisfied, there can be denial, disappointment, depression, difference, dispute, disharmony and no desirable results. Thus they threaten. But, I am very confident and I can boldly say that they do not care to correct themselves after knowing the facts. Why ? It is not unlikely that they know well that people born in this star, get married during Sade Sati, have promotion, make purchases of land, construct houses, possess new car and enjoy all fruits of life. Those who had no business at all or no profit when Saturn was transiting in the 11th house, (considered to be lucky according to tradition) they actually pay a much larger amount of Income-tax. Why ? When they have Sade-Sati the profit is much greater than the previous years, even though the rate may be reduced.

But, when a person is to note down the stars in which certain people were born (the sign where Moon was) and also the 12th and the 2nd sign, they will find that the general Principle which had been expounded by our sages do not agree at all with the results which we enjoy. At the time when they predict adverse results, we enjoy pleasure. At the time when they predict and promise good future, there is actually much of pains. So,

generally at the time when they say that there will be pains, we enjoy; and we really suffer at the time when they encourage offering auspicious results. It is really the misfortune of the consultants that they approach those Astrologers who do not care to find out how far it has acted and how they have to modify the rules.

Let me treat this in brief. Saturn will transit in Pisces. What are the three Nakshathras in that sign ? The first 3° 20' happen to be Poorvapadra ruled by Jupiter, who owns the houses 9 and 12 to Aries-borns. It is after all 3 degrees 20 minutes. Let us leave it. Then, there are 26 degrees 40 minutes in that sign which are covered by two Nakshathras (stars), Uthrapadra and Revathi. Uthrapadra is governed by Saturn. It owns the signs Capricorn and Aquarius which are the 10th and 11th to the Moon sign Aries. Consider in the following manner. When lord of 10 and 11 transit in the constellation of lord of 10 and 11, what will it offer ? Can anybody predict that there may be any evil even though it will transit in Meena-Pisces. By lordship, Saturn promises to do good. But if the sublord is adverse then during transit (Gochara) it may offer evil results. At that time, Saturn is incapable of doing any good; it is helpless ; its hands are tied. A father may have money. He would like to send Transit Money Order to his own son. But if there is the postal holiday, what can he do ? Similarly, Saturn as lord of 10 and 11 to Mesha rasi is a strong benefactor as regards friends, finance, fortune, pleasure, profit etc., even though it is Badhakasthana Athipathi which may affect only the health, if its dasa or bhukthi is operating or the dasa or bhukthi is ruled by the planet in the constellation of Saturn. Excepting that, Saturn has to necessarily do good to Mesha rasi-borns when it transits in Saturn's star, Uthrapadhrapada. So, if it transits in its own constellation it is auspicious and advantageous to the person if it is the significator of beneficial houses. Saturn gains strength. It will surely do good, irrespective of the fact that Pisces is the 12th sign to the sign Aries, where Moon was. At the time when Saturn passes on to Revathi, it offers the results signified by

M2).-y the lord of Revathi. Mercury owns Gemini and Virgo which are the 3rd and 6th houses. Third house shows short- journey; it indicates that one will be helped. Also, there will be prosperity through the neighbours, cousins, brothers and sisters; to make money by editing, publishing, etc., is also indicated. As lord of 10 and 11 transiting in the constellation of lord of 6, it shows that it is the time the native will take all preventive measures against infectious diseases and that he will gain as the opponent is destined to lose. The opponent loses, thereby the native gains.

During election those who are born in Mesha rasi, if their lagna also happens to be Mesha, they can take it for granted that they will have thumping majority, victory over enemies and they may be confident that the enemies will lose their deposit unless Saturn in one's horoscope is the significator of 8 and 12. But, Saturn is such a powerful planet and it is in a fruitful sign. Therefore, it can never disappoint when it is in its own constellation. It is really very beneficial to people born in Mesha Lagna. It is certain.

For general public, not taking individual charts, let us see if a person is born in Rishaba lagna and Mesha rasi, then you may be sure that he will win whether it is in Uthrapada or Revathi as both the stars are ruled by the benefics to Rishaba lagna. To Mithuna lagna, if Saturn were to transit in Uthrapadra then there will be mixed result, as lord of 8 is Saturn and lord of 12 is Mercury. To Simha (Leo-borns), it shows that the native will have victory over enemies most easily and opponent will lose against expectations. Leo-borns may have a strong opposition. Does not matter. Because those who promise that they will work for the opponents will finally let them down without their knowledge. To Kanya lagna, we have to take that Saturn will ultimately do good and compensate, as he may have to lose some money during the 2.5 years period. To Thulam (Libra - borns), it is really against their interests. So, people born in Libra may very well withdraw at least in the last moment when the deposit amount may be refunded to them. But suppose somebody wants to

take a financial partner to do business, better he selects one born in Libra, as the money that is received by Libra will be mostly given away to the partner. If a girl were to marry a Libra-born, she can expect such advantage and gain through her husband. People who were married a few years ago, if they had no children so far, they can expect a child when Saturn transits in Uthrapada.

Now one may ask "Sir, I am born in Libra. Does it mean that all Libra-borns cannot come out successful in the election." No. It is not so. Suppose one is born in Libra and at the time of birth Saturn was not the significator of 8 or 12 then what will be the result? Saturn cannot do that which it has to do. If Saturn has to do harm to Libra-borns, it does offer, but it is insignificant as greater, good results are enjoyed when other planets contribute for success. It is similar to a person gaining in 5 races and losing in one race; ultimately there is profit.

Therefore students are to note that the lordship of the planet ruling the star decides the fate and the house signified by Saturn indicates the source. Coming to Scorpio, he is another loser. Coming to Sagittarius-Dhanus, he will come out victorious.

Capricorn people will come by most desirable results. He can make fortune. "Make Hay when the sun shines". So reiterates Saturn when it is transiting in Uthrapada Nakshathra. People born in Makara lagna, people born with Sun and Moon also in Makara they will note that when Saturn transits in Uthrapadra star, they will come by fortune. It is not unlikely they gain in lottery; they have some unexpected income and it will be sudden and substantial. To Kumbalagna, Saturn transiting in Uthrapadra, shows that there will be mixed results; so also to people born in Pisces Lagna.

Consider in which constellation a planet transits. Note down the matters of the houses signified by the lord of the constellation. That alone will be offered by the transiting planet through the source indicated by transiting planet and the sub shows the success or failure, pleasure or pain.

TRANSIT: MARS - SATURN CONJUNCTION

Sir,

I am sure that you are aware of Mars now transiting in the position of my Saturn in Scorpio and in a few weeks Saturn will be transiting in Aries where there was Mars in my birth chart. I have heard many, so far. I had only different opinions from my friends and confused and worried.

I would like to hear from you so that I can have the clarity;

Horoscope is as follows:

VI 8-32	VII 5-51 Mars 18-16	VIII 5-32	IX 5-32 Rahu 17-16
V 7-32	5-46 A.M. 5-11-1926 18° 55' N 72° 54' E		X 6-32
Jupiter 25-22 IV 6-32			XI 7-32
Kethu 17-16 III 5-32	Mercury 12-18 II 5-32 Saturn 3-58	Sun 19-05 Ven. 14-59 Moon 12-15 ASC. 5.51	XII 8-32

Rahu Dasa Balance 10yrs. 5 months 8 days. Now running Saturn Dasa, Rahu Bhukthi upto 1-10-1969.

Mars is in Aries 18°16'. It means it is in Mars sign, Venus star, Rahu sub. Saturn is in Saturn star Saturn sub.

How to predict ?

What is your ascendant ?; "Libra".

What does each planet signify ?

Sun, lord of 11. deposited in Rahu star, Moon sub. In which house is Rahu ? It is in the 9th house. Hence Sun will offer the matters signified by the 9th house, i.e. father, wife's younger brother, younger brother's wife, grand child, next elder brother's elder brother, as regards relationship; other matters are higher education, long journey etc., Hence during Sun period and whenever a planet transits the position occupied by Sun (though it is in lagna) 9th house matters will be enjoyed. Is there any planet in Sun's star ? None - In that case Sun will also indicate lagna bhava results. (If there is any planet in Sun star, then that planet will give to a greater extent, lagna bhava results.)

Is there Rahu or Kethu in Sun's sign - No. Then its results will not be shared by or represented by any other planet.

If there is any, then what are we to judge ?

If there is any or there are many, those planets situated in Karthik or Uthraphalguni or Uthrashada will give the matters signified by lagna bhava.

No planet is in Sun's Star.

So Sun will give both lagna and 9th house results as it is in Rahu star.

"Yes".

How will it give?

The nature of the result is shown by the lord of the constellation according to its occupation. So 9th house results.

Also, only when there is no planet in its star, the matters signified by the Bhava occupied by it will be given.

Apply systematically. Arrive at each, methodically. Proceed patiently and properly; then predict precisely.

Sun rules Leo. 11th cusp is in Leo. It extends upto 8°32' in Virgo from 7°32' in Leo. In this are, there is no occupant. So you should take that Sun, owner of the sign Leo, where 11th cusp has fallen as the significator of 11 because there is no planet in Sun's star. Sun has to indicate the 11th house matters also".

"So Sun indicates the results of the houses 1, 9 and 11.

"How will the above results be accomplished ? i.e. the source for this nature of result ?

"Source is to be judged from the matters signified by the Bhava or Bhavas owned by the planet and also the Bhava occupied by it.

Saturn is in Lagna Bhava and hence slow in grasping. When once learnt, then never forget as one repeats whatever is learnt within himself.

Take Moon. It is in Libra at 12°-15', i.e. in Venus sign Rahu star Saturn sub. Moon rules Rohini, Hastham, Sravana Stars. It is in Rahu star who is situated in 9th house. Hence any planet in Rahu star will give 9th house results. So Moon also will give 9th house matters.

No planet is in Moon's star. So the Bhava occupied by it being lagna Moon will give lagna, effects also.

Further in Moon's sign, the meridian alone is. In 10th house there is no planet. So Moon is to offer 10th house results also as there is no planet in its star. Hence Moon is to bestow the results of the houses 1, 9 and 10 during its periods, sub periods, etc., and any planet transiting in the position occupied by Moon will indicate matters connected with the houses, 1, 9 and 10.

The source will be from first and tenth houses, as it owns the 10th and occupies the first Bhava."

Mars is in the 7th house. Its stars are Mrigasira, Chithra and Dhanishta. Hence Jupiter in Dhanishta will give the results of 7th house. Mars is in Venus star, Rahu sub. Lord of the constellation is in lagna. Hence Mars, though lord of the houses 2 and 7, and is in 7, yet will offer the results of the lagna. Second house is occupied by Mercury. So, the second house matters will be given by the planets in Mercury constellation and if there is no planet, in Mercury star Ashlesh, Jyesta and Revathi, Mercury will offer second house matters. Actually there is no planet in its star. Therefore Mercury indicates both the second and 12th house matters.

The source will be through 9th and 12th houses. As regards Mars the source will be 7th and 2nd houses and the result will relate to lagna.

Saturn is in Lagna Bhava, it is in its own star, and sub. Mercury is also in Saturn's star. Therefore, Saturn as it is in Lagna Bhava and Mercury, in Saturn's star, show lagna results. (Mercury has another portfolio, i.e., the 12th house.) The source or in other words how it will be accomplished is judged from the houses owned by it; they are 4 and 5. As there is no planet in the 5th, 5th house results also will be given by Saturn. Even though he owns the 4th house, as there is Jupiter in 4th Bhava; planets in Jupiter star or Jupiter himself will give 4th house matters through 6th house source. Saturn gives mostly through 5th house and partly through 4th house matters. Thus, one should analyse and keep ready, a ready chart wherein for each planet, which houses, matters they will offer and which is the source for the materialisation of the nature of the result.

Sun gives the results of the houses 1,9 and 11 as there is no planet in its star and it is in the constellation of one in 9 and it is the owner of the 11th. The sources are 1 and 11.

Moon gives the results of the houses 1,9 and 10 through the 1st and 10th houses.

Mars will give the result of the first Bhava through the second and seventh sources.

Mercury offers the result of lagna, 12th and the second houses through 9th and 12th houses.

Jupiter offers the results of seventh, sixth and the 4th houses through the 3rd and 6th house matters.

Venus gives its results of 9th houses, results through lagna and 8th house matters. Saturn offers the results of the first and the 5th Bhava through the first, 4th and 5th houses.

Rahu will give the results of 9th and 12th houses matters : also the second. The sources will be the 9th and 12th houses.

Kethu gives the first house, 8th house, 6th house and 4th house matters through the third and sixth houses.

When a planet transits, the transiting planets show the source of the result. Transiting planet indicates how a matter is brought out.

What is the matter ? That is judged from the lord of the star in which it transits.

If we take Mars as the planet which transits the star of Saturn Mars shows the source. Saturn indicates what aspect of life is ignited then.

As Mars signifies the first Bhava, the source is mostly first house, partly second and seventh. Saturn is the significator of lagna. Hence Mars conjoining Saturn indicates good health and success in your efforts. To younger brother prosperity; To mother, poor health, and gains. To children, long journey, to wife indifferent health. (Saturn is in Bhadhakashthana to mother and it is Bhadhakasthanaadhipathi to wife); to your father, loss in speculation; to your elder brother short journey. Gains by salesmanship or by taking agency; gets brokerage etc., If Mars

conjoins Mercury younger brother unhealthy as Mercury is Bhadhakasthanaadhipathi to him.

If Saturn conjoins Mars, your health is good. Younger brother gains. To mother reputation, success; to Children long journey and pleasant. Wife or partner unhealthy; to your father loss; to elder brother auspicious, agreeable results.

As in this example chart many have the connection to first house only, one more example will be of advantage.

Mars Dasa balance 0 yr. 6 month 6 days.

Let us judge Mars and Saturn.

Mars is in 4th house. Jupiter, Rahu and Moon are in Mars star. 4th house matters will be given mostly, to a good extent, by Jupiter, Rahu and Moon. But Mars is in Kethu star which is also in 4. Hence, Mars also denotes 4th house matters. Then Kethu and Mercury also indicate to a little extent. We are concerned

with Mars. It is in 4, in the star of node in 4. So it gives 4th house matters, i.e., it is connected with 4th house.

It owns the 5th cusp and no planet is in 5. So Mars gives 5th house results also along with Moon, Rahu, Jupiter and Kethu (Kethu conjunction Mars is the way how it gets strength for Kethu). There is a planet in 12th Bhava. Hence 12th Bhava results attributable to Mars will be given to a mild extent by Mars. Hence Mars gives the results of the 4th and the fifth house, through 5th house matters mostly, and through 12th house partly.

Saturn in 12 is in Mercury's star which is in 8th Bhava. Therefore Saturn has to give the 8th house results. The source will be 2, 3 and 12. Therefore when Saturn transits at 8°14' Aries and conjoins with Mars, 4th and 5th houses matters will come to forefront through the 2nd, 3rd and 8th house matters.

As he is a boy of 10years, regarding 5th house matter one should not predict love affairs. But one has to say, that nowadays most of the people are very ambitious and even avaricious to have gains with minimum pains by way of lottery, etc., So he will speculate ; source being 2, 3 and 12, younger brother may buy (3rd house) and give (the 2nd is 12 to 3). Purchase by brother and getting it, will be at that time, 12th house shows investment. This is a pleasant prediction for which astrologer will be thanked.

Again it can be said that 5th house indicates profits to the opponent. 3rd house indicates pocket. 2nd house money purse. 12th house loss. So he will be pickpocketed on that day

Westerners consider that the conjunction of Saturn and Mars is very evil. Here the prediction is given taking only the nature of the planet into consideration ; nothing else. So, one should not apply universally to all. The results given by them is mentioned briefly. "One develops rash, hasty and even murderous tendencies. Uncontrollable anger, cruel - accident, surgical diseases, separation, eminence, etc., - outburst of temper, demoralising tendencies - ruins himself by committing rash acts

commit theft, squander away estate, suffer from poxes, carbuncle, rheumatic diathesis, etc."

The above is applicable only when Saturn and Mars in a chart were deposited in the constellation and sub of the occupants of the houses 6, 8 and 12 which is rare, i.e. lord of constellation and lord of sub of both Saturn and Mars must be so. Therefore, majority will never suffer. Only a few will.

Individual chart must be studied and prediction offered. General statement is useless.

SATURN-RAHU CONJUNCTION

Saturn a natural malefic, conjoins with the ascending node, Rahu, another malefic at 11-30A.M. on 25-4-1968 at 24°35' in Pisces in Jupiter's sign, Mercury star and Rahu sub.

According to Krishnamurti Padhdhati, whomsoever have Mercury and Rahu favourably deposited in their horoscopes will be benefitted then, whereas those who have Mercury and Rahu ill - posited must suffer at that time (suffering will be ill - health, financial loss, enmity, failure in attempts, etc., depending on the matters signified by Mercury and Rahu in their horoscopes). Mercury indicates the nature of the result whereas Rahu shows whether in that matter the native will gain or lose, proceed or meet with obstacles, maintain health or suffer etc.,

Mercury governs the signs Gemini and Virgo. Mercury rules the star Ashlesha, Jyesta and Revathi. Planets including nodes posited in any of the three above stars will offer the results indicated by Mercury. Mercury can occupy any Bhava. Then, the planets and the nodes in those 3 stars will offer the results of the matter signified by that Bhava.

Therefore, people born in Aries, could have had Mercury in any of the twelve Bhavas, Though the lagna remains the same, Mercury by occupation indicates any of the 12 houses and so,

the planets or the nodes in any of the three constellations of Mercury, will offer absolutely different results. If there were to be no planet, in any of the 3 constellations of Mercury, Mercury will offer the results of the house occupied by it. As it can be in any of the 12 houses, and each house has its own results which vary widely from each other and in some cases they are diametrically opposite. Therefore, to all Aries borns, planets in Mercury star will not yield the same results. They depend on the Bhava occupied by Mercury.

The source of the results given by the planets either deposited or transiting the constellation otherwise called nakshathra, asterism or star will be through the relations or matters indicated by the house occupied by Mercury and also owned by Mercury.

Again, people are born in different signs as lagna and different cusps of the houses therefore, will be in Gemini and Virgo owned by Mercury, so to different lagna borns, the source of the results will vary as Mercury will be the lord of different houses.

Anyhow, the results we have, can be broadly classified into two : i.e. good or bad, desirable or undesirable; successful or failure ; pleasant or painful etc. Hence Mercury, ruling the star Revathi, where the conjunction of Saturn and Rahu is to happen, indicates different nature of results to the people and Rahu sub shows whether it is advantageous or not, depending on the lord of the constellation in which Rahu was posited. Rahu might be in the 11th house but it could be in the constellation of the planet occupying 12th house ; thereby Rahu is incapable of giving a profit, whereas loss will be the experience. Also Rahu may be in 8th Bhava ; traditional astrologers may call Rahu as a malefic, but Rahu may be in the constellation of the planet in 11, when Rahu brings fortune. Hence, one should not pass a judgement whether a planet is a benefic or a malefic, only from the house occupied by it, but one is to note where the lord of the constellation is deposited. No doubt, Rahu in an evil sign can do such a harm as is threatened by that house, only when there

is no planet in its constellation, Arudhra, Swathi or Sathabisha. Therefore, if at all, any astrologer is to predict the results to be enjoyed by Aries-borns or Taurus-borns etc., it is only general, it is not applicable to all, percentage of failure will be greater than the percentage of success. As you want the general prediction, I give below.

Saturn's transits. It is lord of 10 and 11 to Aries-borns, 9 and 10 to Taurus-borns : 8 and 9 to Gemini-borns; 7 and 8 to Cancer- borns and so on.

As the owner of these houses, it can offer the nature of results indicated by Mercury as lord of 3 and 6 to Aries-borns; 2 and 5 to Taurus-borns; 1 and 4 to Gemini-borns : 3 and 12 to Cancer- borns and so on.

(1) Aries-borns : Short travel : new friends helpful ; proceeding on camp : receipt of traveling allowance, good relationship with brothers and uncle, release of books and journals, new agency, commission taken ; enters as a liaison officer, gets telephone, if it was long pending, victory, success in litigation, etc., provided Rahu is a benefic. If Rahu is evil, the adverse results in the above nature of results is to be judged. This rule applies to all lagna borns. The results are given to the lagna-Ascendant; not to Moon sign (Nakshathra or Sun sign) date of birth.

(2) Taurus-borns : Gains money through music, opera, cinema, goes overseas, strangers and foreigners lend their assistance, gets into service in a far off place : Tonsil operation successful; So also, cataract and one can regain the vision. Success in higher studies, departmental examinations and thereby improvement in status is shown. Loss to younger brother, prosperity to children are marked.

(3) Gemini-borns : Good health, recovery from disease, Construction of house : erection of machinery, purchase of vehicle, disease to mother, younger brother or sister either getting

married or gaining through partner, success in education, litigation, higher status, promotion, admission for higher studies, gain through strangers are to be expected.

(4) Cancer-borns: Loss by having brokerage or commission business - Loss of Liaison office. Loss during short trips, ill-repute and receiving irritating and annoying letters, Difference of opinion with partner, dispute, Publication in this period will not be advantageous.

(5) Leo-borns : Even though the conjunction is in the 8th house, yet Mercury governing Revathi, owns the houses 2 and 11. Therefore grand success, social and financial success, victory over enemies, win in election, defeat to opponent in litigation to have a new financing partner in business. A successful time.

(6) Virgo-borns Promotion, prosperity, name, fame, reputation, award, gains through business, new contracts, agreements, good health; grand success, purchase of property by partner. Equally father also makes money, whereas elder brother will lose heavily; children will fall ill and treatment will be given in headquarters hospital.

(7) Libra-borns : Long journey, overseas higher education; speculation or gain through music or cinema in far off places, sale of property, retirement from service, termination of service, are to be expected, Younger brother is fortunate, gets a wealthy partner, gains in profession.

(8) Scorpio-borns : Gains through commission, legacy, brokerage, success in mediation. Purchases property, vehicle etc, success in examination. Receipt of bonus, gratuity, Insurance amount, wife will be more lucky, ailment to youngsters, marriage to children though this is Maha Makar-sankranti or Kumbha Mela; loss to father.

(9) Sagittarius-borns : Good luck, Prosperity, is assured. Marriage takes place. One can have child born. New partner joins for business. Publicity will be made. Propaganda will be done. Salesmen will be changed. Speedy turnover, larger profits, good luck.

(10) Capricorn-borns : Victory over enemies, easy overdraft facilities, scholarship for higher studies - foreign assignment, reputation, honour - unexpected gains by correspondence, competition and speculation, good luck to children.

(11) Aquarius-borns : Worries, anxieties, child may be missing, or may cause anxiety, Purchase of property on child's or partner's name, ill-repute, Loss in speculation, litigation etc.,

(12) Pisces-borns : Marriage, purchase of land, house, vehicle, assistance through friends, success in examination, may leave the native place. Change of residence. Entry into new house. Loss to children. Gains to younger brother.

Thus, a general picture can be given by following Krishnamurti Padhdhati.

As regards mundane astrology, I have very clearly stated how it is in an infant stage and one cannot using traditional astrology, pinpoint any event. For example, if one predicts an event due to the conjunction of evil planets, why it should happen is to be scientifically explained. Otherwise the readers may take that the prediction is his wish. For example, if one has said that between March and June of any year, policies may be modified, we expect such whenever the conjoin.

On 17-10-1956 in Scorpio; 15-5-1945 in Gemini; 11-2-1934 in Capricorn; 24-7-1922 in Virgo; 2-5-1911 in Aries; 10-11-1899 in Scorpio, Saturn and Rahu conjoined.

Saturn and Kethu were together in conjunction, similarly once in 11 years. On an average, once in 5 1/2 years Saturn conjoins with either of the nodes.

Let us refer to Indian History and World History. Except that in 1939 when Saturn and Kethu conjoined (not Rahu), Germany began the Second World War, no incident had happened when Saturn came in conjunction with Rahu.

TRANSIT OF SATURN

Let us take the year '1964'

On 26th January, Saturn passed on to Nirayana Aquarius and up to 23rd March, it moves in direct motion in the Nakshathra Dhanishta; then it transits in the same direction in Sathabhisha star ruled by Rahu the Ascending node till 15th June 1964. On 15-6-1964 it commences to retrograde, and till 17th September 1964, it is in Sathabhisha, from 18th September Saturn by retrograde motion, transits in Dhanishta, governed by Mars in the same sign Aquarius - Kumbha. On 2nd November it takes a direct course, and throughout the year, it is in Dhanishta.

One should note that Saturn is not the only Planet which indicates what a person can expect in 1964. Every planet contributes to certain events in one's life according to (Hindu) System (1) its lordship, (2) the position which it occupied at the time of one's birth, (3) the houses owned by the planet (4) the house transited by the planet, (5) (Western System) the various aspects it forms with the other planets with its radical position, with the Ascendant, with the meridian and also its conjunction with the planets in the sign in which it transits and (6) (K.P) the nakshathra or star in which the planet transits, and the house signified by the lord of the nakshathra and Sub. All the points are very important, according to the system followed. But one should follow only K.P. System. Both the nature of event and the time of event will be correct only when properly judged, using K.P System.

Western : - It may be said that good aspect from planet to any other planet may get cancelled by the adverse aspect to another planet. It is not correct. Both the results will be enjoyed and experienced. If Saturn as lord of 11 forms good aspect with Sun, lord of 5, and bad aspect with Venus, lord of 2 and 7, latter adverse aspect will not rob away the former beneficial aspect. Actually, due to the favourable aspect to Sun, lord of 5, he may

gain in races, speculation, or betting, or be benefitted by children, and because of the adverse aspect with Venus, Saturn may indicate ailment to wife some worries at home and also uncommon expenses. The day will not pass, without all these events; one will not cancel the other. It may be that, whatever he gained he had to spend away. But he ought to have felt happy for the success in speculation of gain through children and miserable, due to wife's ill-health, and in his ledger he should make both the entries, the first is the income through speculation or children and also the expenses of the medical bill, etc., due to the adverse aspect.

So, also if a planet forms good aspect with any other planet which also receives evil aspect from a third planet, then also both the results will be enjoyed by the person.

Thus when an individual's chart is taken, and the transit results are offered; by considering all these vital points, the prediction will come nearly satisfactory and be to some extent helpful : but for a general prediction all these points cannot be included, as either lagna or Moon's or Sun's position alone is taken, that is the main reason why the transit results, given in general do not come to pass.

What Saturn can generally do : - Saturn, forming good aspects with other planets, will make one sober, thoughtful, and contemplative, will be careful and attentive. There will be an increase in one's popularity and prosperity. Saturn will offer self- reliance. One will be able to re-organise, and systematise his work or business. He will advance, to a good extent, and find much progress due to his sincerity, methodical approach and tact. One can look for a position of trust. One may not have rapid progress, but yet success will be slow, steady, sure and well secured. It will be long-standing. One may purchase land, begin to construct a building, lease out one's building or land, or enter into a long-term agreement. It is also likely that one takes excavation work, or get employed in mines, or deal with plumbers,

shoe-makers, hide-and-leather dealers, masons, gardeners, agriculturists, coal and fuel dealers and also be benefitted through aged persons.

Saturn, forming evil aspect with planets, shows that the person will be unfortunate. One will be discouraged due to failures in one's enterprises. Even petty problems will appear to be big and difficult. The depression and the melancholy feelings will gain possession of the person. However much one guard his speech or controls his tongue, yet he will be mistaken, if he speaks out anything: if he keeps quiet, and observes silence, that too, will be mistaken. What a pity it is. His judgement during this period will be poor and there can be no intuition. Even if he tries to start a new business the impediments and obstacles will so much depress him that he will be inclined to give up his projects, and find himself helpless. Further, as Saturn represents elderly people, only aged persons or those born on Saturdays or in Makara - Capricorn, or Aquarius - Kumbha Lagna or rasi, and those born in Pushyam. Anuradha, or Uthirattathi star, will do harm to him.

So you should deal carefully with old people. Also if you are living in any old house, not at all repaired by the owner, try to shift from those quarters. If you work in a mine, you should be careful. Those who deal in the business governed by Saturn, will incur much loss. Compensation for the loss of the life of a servant, is also threatened. You have to take all precautionary measures to avoid falls, injuries and accidents. Try to keep company with people who are witty, and who will cheer you up. Join those clubs where many younger and more active people assemble. Even though you cannot apply your mind and concentrate, you be witnessing it you will laugh, when they laugh, and be counting days, when the evil effects of Saturn will be over. You will again become active and more wise than before, when the evil aspect is over, and Saturn forms good aspect with a benefic.

KP General Prediction : - To be modified to individual's chart.

15-12-64 enters into Sathabisha star.

From 26-1-64 throughout the year, Saturn is in Aquarius. Hence, Sign Lord is Saturn. Between 26-1 -64 and 23-3-64 it is in Dhanishta star, governed by Mars. Between 23-3-64 and 18-9-64 it is in Sathabisha, ruled by Rahu. Later it is again in Mars' star Dhanishta between 18-9-64 and 15-12-64, when it enters Rahu's star, Sathabisha, again. The above statement furnishes the Nirayana Longitude of each sub, its lord and the time of transit of Saturn.

Aries-Mesha : - This refers to people born in the Ascendant - Lagna Aries or with Ascendant in Ashwini, Bharani and first pada of Karthikai Nakshathra.

When Saturn transits between 26-1-64 and 11-2-64 from 0° Aquarius, (Kumbha) to 1 degree 53 minutes and 20 seconds, it will be in Mars' star, Dhanishta and in the sub of Mercury. Mars is lord of 1 and 8: Mercury is the lord of 3 and 6. Hence, one may receive annoying and irritating letters, reminders and even notices for the repayment of loans; pressure from bankers, or summons from the court. Or one may make short journeys and incur loss; or one may have misunderstanding with brothers, claim for partition, and receive his share of property from his brother. But one may gain through editing and publishing and publicity. Efforts will be successful after getting over some difficulties or meeting with some accident or after hot discussion, negotiation and at last compromise.

Saturn between 11-2-64 and 18-2-64 will be transiting between 1 degree 53' 2" and 2° 40' governed by Mars and sub of Kethu. This is a time for visiting holy places, or disposing of landed properties, or worrying oneself with the difficulties which crop up. Separation from family members during this period due to travel on duty, is also indicated. A few business people may suffer from the troubles caused by their subordinate staff and labourers.

Saturn between 18-2-64 and 7-3-64 will transit between 2°-40' and 4°-53'-20". It shows reunion, pleasant life, gain through partner, receipt of bonus or fixed deposit, facilities to overdraw from banks : larger profits, social and financial success; new friends and grand success to those who deal in the leather industry, mine products, motor spare parts; silk, soap, tailoring, etc.,

When Saturn transits between 4° 53' 20" and 5° 33' 20" (between 8-3-64 and 13-3-64). (Mars star and sun sub) unexpected advantages will accrue : Government officials will be favourable; there will be larger profits in speculation. Quick buying and selling will amply reward you in the short period. Children will co-operate and help you. Even though normally you

may not attend cinema, drama, etc., you will be taken by your children. They may complete the construction of any building or purchase a plot of land.

Saturn between 5°-33'-20" and 6°40' will be under the sway of Mars and sub of Moon, between 13-3-64 and 23-3-64. Hence you may gain through landed properties and permanent investments: To come out successful in the examination, to acquire a new conveyance, or have the old one repaired, and mostly renewed, to have some benefits through mother or mother leaving her permanent place of residence and joining you. all these are presaged.

Saturn now enters Sathabisha governed by Rahu on 23-3-64. Depending on the matters signified by Rahu to each individual, the results will vary. In general, when it transits, between 23-3-64 and 12-4-64 in Rahu's star and Rahu's sub, between 6°40' and 8°40' one may have some difficulty or other. One may not come out successful. One gets dejected. There will be misunderstanding, disharmony and dispute with others, also rheumatic pains near the knee cap, calf muscles, etc., chronic sufferers have to take prophylactic measures; filarial patients must observe hygiene, and should not exert much. Do not hurt your leg : use mosquito curtain; avoid culex bite. If Rahu would have been in Leo, at the time of birth and if one has heart trouble, he has to keep his blood pressure under control by taking the sedative, regularly and avoiding exertion, emotion etc.,

Saturn transits in Jupiter's sub, in Rahu's Star Sathabisha from 12-4-64 to 5-5-64, i.e., between 8°40' and 10°26'40". Those who desire to go overseas for higher studies will proceed now. Business people will go on long journey and come in contact with foreigners and enter into contract with them. They can have foreign collaboration, and improve their exports; politicians and administrators will be helpful, and they will receive quota for imports. Father may have a transfer to a desired place. Mother may fall ill and cause anxiety. A few may enter into service in any

foreign embassy. Elder brother will enjoy beneficial results in these days and realise his ambition.

Saturn, then proceeds on till 15-6-64 in Saturn sub: A few may have positions of trust. Some will be promoted. New friendship will be formed. It is a troublesome period for mother. Her health will run down. Wife may go to her native place for delivery and beget a child.

Saturn, retrogrades on 15-6-64, and continues to be in Saturn sub till 27-7-64. Labourers may cause trouble. In speculation, there may be a little loss; or money may get locked up. Obstacles and hindrances will not allow you to complete any work. Around 26-6-64, health of mother will be critical, and even expert medical aid to a few may fail.

On 27-7-64, Saturn enters into Jupiter's sub, and it is a period when one can return home after a long journey or rejoin duty, or reunite with relatives and friends. You may invest money on landed properties, or celebrate the marriage of children in the 3rd week of August. Younger brother will be transferred in his service. Donation for religious functions, or for temple renovation, is a drain within 21-8-64.

On 21-8-64, Saturn passes on to Rahu sub and on 17-9-64 enters into Dhanishta star. Saturn indicate ill health, but there will be larger profit, and anxiety to recover the entangled money.

Between 17-9-64 to 2-11-64, Saturn retrogrades in Dhanishta and becomes direct on 2-11-64: throughout this year, it is in Dhanishta. Therefore, the results mentioned under Moon-sub for a period between 13-3-64 and 23-3-64, will be repeated. When Saturn is in that position, the experiences between 8-3-64 and 13-3-64 when Saturn is in Sun's sub, will be similar between 9-10-64 and 2-11-64, when Saturn will be in Sun's sub. On 2-11-64, Saturn takes direct course, and is in Sun's sub till 25-11-64. This result will be similar to what is experienced between 8-3-64 and 13-3-64.

Between 25-11-64 and 15-12-64, Saturn will be in Moon's sub, and the results will be the same as were experienced between 13-3-64 and 23-3-64. On 15-12-64, Saturn enters into Sathabisha Star, and the end of the year is similar to the period between 23-3-64 and 12-4-64.

Thus, the transit results are to be read according to "Krishnamurti Padhdhati".

In general, without considering the various changes in the same sign, one will normally predict that Saturn in 11 to Aries, will be very good.

As per Western system if at the time of birth, Saturn would have occupied Taurus-Rishaba, Leo-Simha, or Scorpio-Vrischika, and form square or opposition, the native will have adverse results and will be disappointed. But if Saturn would have occupied Aries, Gemini, Libra, Sagittarius, Capricorn or Aquarius, they can expect brilliant results.

TAURUS - RISHABA

This refers to people born in Taurus Ascendant i.e., the Ascendant in the Nakshathra, Karthikai second, third and fourth quarters, Rohini, and Mrigashirsha first and second padams.

Saturn shows vast improvement in one's financial position frame of mind, etc., Unnecessary fears will come to an end. A new cycle of bright life will start. Partner in business may go on a long journey. You may have short tours. A few having Sun in Taurus, will dispose of their landed property or car. Moon in Taurus indicates that the brother may have some difficulties, and his health may fail, though he may have to overwork. He may be transferred, or he may be touring between 26-1-64 and 11-2-64.

Between 18-2-64 and 7-3-64, Saturn indicates that you may borrow easily to meet extra demands. Health is restored. There may be social function at home. Success in efforts, or improvement in business, or increase in salary is portrayed. One

may make long Journeys in connection with his business, and fulfill his desire. The partnership deed will be renewed. Wife may come back from her tour, and domestic life will also be pleasant. Musicians and actors may have new contracts. Those, who deal in skins and hides, will gain much, by exporting large quantities. Between 8-3-64 and 13-3-64, advance payment for the purchase of a plot, or building, or vehicle is indicated. Advantages from Government officials, benefits to mother, and journeys of children, are also likely. Any one of your children may have minor injury while playing.

13-3-64 to 23-3-64 is a brilliant time to receive encouraging letters, get back locked-up money, and earn larger profits, Assistance from brothers, gains by editing, publicity, etc, and improvement through salesman, brokers and agents, are promised. Health will be normal.

23-3-64 to 12-4-64 will be a busy period. Name, fame, and reputation will increase. Dullness in mind, or in business will disappear. You will entertain hopes, and will be optimistic about the future when enterprises will be launched. There will be much activity and boldness in all undertakings, coupled with popularity. Bank position will improve.

12-4-64 to 5-5-64 is a prosperous time for making money in life. Success in litigation, contentment and gain in speculation, are assured. Business people can speculate to their maximum, and gain immensely. There will be no loss, nor any quarrel with anybody. New friendship will be formed. There will be vast increase in their list of customers. Lawyers, bankers and professors will have advancement in their career.

Between 5-5-64 and 27-7-64, Saturn shows that some may go on long journey. They may make arrangements with foreigners and have foreign collaboration. A few may invest much money on business. Some will sit for departmental examination, and come out successful. Those, who work in foreign concerns or embassy, will have satisfactory increase in their income. Good

relationship with higher officials and their support will be had in this period. Later, between 27-7-64 and 21-8-64, success will be slow. The gain will be less than what you had between 12-4-64 and 5-5-64, When Saturn was in the same position as it is in this period.

Whenever a planet is retrograde, if it transits in evil sub lord's portion, the malefic results will be aggravated and if the sub-lord in that star is a benefic in retrograde, the advantages and advancement, during that time, will be less than normal. A planet in direct motion in a beneficial sub-lord's portion in a constellation, gives satisfactory gains. When it is vakra or retrograde in the same position, gains are assured, but it is much less remunerative for the same extent of pains. Hence, Saturn, a benefic to Taurus-Rishaba, will not be adverse at all in this portion in Aquarius, ruled by Saturn, in Sathabisha Star governed by Rahu and in the sub of Jupiter between 8°-40' in Aquarius to 10°-26' and 40".

Similarly, when it further retrogrades in Rahu sub, between 21-8-64 and 18-9-64, the results will be favourable. There will be speedy turn-over in business, and profit in every transaction, but yet the margin of profit, will be very little, and unsatisfactory. If you are a pumpset dealer, and if you normally gain seventy rupees per pumpset when the planet was in direct motion, now when it is retrograde, you will be able to make only ten or fifteen rupees. The profit will be booked but the amount will be little unsatisfactory. One will come out successful in examination, but will not have a rank. In an interview for service, he will be one among the many applicants selected, but he will not be considered to be the best in the lot. A few may shift their residence, if Rahu would have occupied Leo-Simha or if Rahu would have been in Karthikai, Uthiram or Uthiradam star in their horoscopes. Those having Rahu in the 7th house, or in the constellation of Mrigasirisha, Chithirai or Dhanishta ruled by Mars, the lord of 7, will get married, especially those who had Saturn in retrograde motion at the time of their birth.

Between 18-9-64 and 9-10-64, arrangement to go overseas will fall through. There will be much of correspondence, etc., Brothers may go on journey. Salesman and representatives will be paying visit to the customers who will not be able to help them in this period.

Between 9-10-64 and 2-11-64, delay will cause worry, and money may get locked up. Any reminder, written in this period, will have no response. Assistance from Government officials will be absent. Those who work in the Defence department will be transferred or will proceed on leave. It is a dull period for business people.

Once for all, evil results, rather the dullness, will come to end, and people born in Taurus-Rishaba, will have again prosperous period, commencing from 2-11-64, when Saturn becomes direct. Between 2-11-64 and 25-11-64, these people will have such results as they enjoyed between 8-3-64 and 13-3-64, Later, the results between 25-11-64 and 15-12-64, offered by Saturn will be similar to what they had between 13-3-64 and 23-3-64. The end of the year will be as good as it was after 23rd March, and before 12th April, 1967.

GEMINI-MITHUNA

This refers to people born with their Ascendant Lagna in Gemini having the Ascendant in Mrigasirisha 3rd and 4th quarters, Arudhra, and Punarvasu 1st, 2nd and 3rd padas.

Between 26-1-64 and 11-2-64, it will pass from 0° Aquarius to 1° 53' 20" which portion is governed by Mars, as lord of Dhanishta star, and the sub is governed by Mercury. Hence, Saturn, lord of 8 and 9, will transit in the 9th house, in the constellation of lord of 6 and 11 .and the sub of 1 and 4. Therefore, success in litigation, victory over enemies, realisation of money that had been entangled, escape from accidents and injury, investment on landed properties, borrowing loans from a Society, change of residence, acquisition of a vehicle or at least sanction

of officer to make use of the office conveyance, are indicated. Reunion with relatives is also shown. But, if he drives any car or vehicle, he has to exercise care, be slow, and try to avoid accidents. A few may fall down and enter hospitals for treatment.

Some people may have to appeal to higher authorities as, in this period, success is indicated only for subsequent attempts. Some may repair their houses or conveyance or pay the medical bill due to mother's ill-health. Those who deal in shoes, skins and hides will invest more and realise very good profit.

Bank position will improve. One will be successful in all his efforts during this period between 13-3-64 and 23-3-64 and he will become popular, a brilliant period promising new cycle of bright life.

Saturn between 23-3-64 and 12-4-64 passes on to Rahu's star, Sathabisha and in that star the first sub governed by Rahu, between 6°40" and 8°40".

Those, who could have had Rahu in a favourable position at the time of birth, will be happy. They will enjoy peace and prosperity. But if Rahu had been in a bad position in the natal chart, one has to exercise much care, to avoid difficulties.

Anyhow, from Tamil New Year's day for some weeks the time is very brilliant, between 12-4-64 and 5-5-64. When Saturn transits between 8°40' and 10°26'40" promotion, progress in one's undertakings, partnership in business, gain to partners, new customers, bulk orders, satisfactory margin of profit, bankers' voluntary assistance, purchase of property to wife, if the native is male or acquisition of property by husband, if the person is a woman, and good understanding between the couple, and between the higher authorities and the Gemini-borns are promised. This is a very good period.

Between 5-5-64 and 15-6-64 and between 15-6-64 and 27-7-64 there will be uncommon expenses, both pleasant and also unnecessary ones. There will not be as much enthusiasm as it was before. One will be very careful. Pickpockets will select only Gemini-borns in this period and deprive them of their holdings. Cashiers have to be careful. A few will escape such losses proceeding on leave. Lazy, lethargic days do not permit to be reduced. Business turn-over will be dull. Unlawful actions will face difficulties. Minor injuries and misunderstanding with old people are threatened. Between 27-7-64 and 21-8-64 the results will be favourable and will compensate for the previous bad period. One may over-work. Yet there will be good gain and satisfactory bank position; success in examination, admission in colleges for higher studies and scholarship are indicated. New customers will increase the income of the advocates. A few may get into service. Extension of the building and expansion of the business are indicated.

Agents of banks will feel happy on their achievements. The period between 21-8-64 and 18-9-64 will be similar to that between 23-3-64 and 12-4-64; the period from 18-9-64 to 9-10-64 shows that the benefits enjoyed during 13-3-64 and 23-3-64 will be repeated but the amount of gain will be less. The period from 9-10-64 to 25-11-64 will be similar to that between 8-3-64 and 13-3-64. Then one can have favourable orders from the Government, contractors will realise their profits. Agents show much progress. Representatives will push the products and increase the sale. Advertisement bills will be received, and Bank position will be satisfactory. Health will be normal, relatives and friends will be frequently visiting. A good period indeed ! Contentment is necessary. The time from 25-11-64 to 15-12-64 is a still better period. Grand success, vast improvement in status pleasant purchases and gains with very little effort are promised.

At the end of the year, results will be brilliant for those who could have had Rahu in a favourable position at the time of birth.

CANCER - KATAKA

This refers to people born in Cancer as Ascendant in punarvasu 4th Pada or Pushyam or Ashlesha star.

Saturn passed on to Aquarius on 26-1 -64. It was in the sub of Mercury up to 11-2-64. Between 11-2-64 and 18-2-64, it is Kethu sub.

For people born in Cancer, when Saturn transits In Dhanishta star, as lord of 7 and 8, passing in the constellation of Mars, a Rajayoga dhipathi, normally the results will be brilliant. During the sub of only evil planets, the results will be adverse.

Between 18-2-64, and 7-3-64, the sub is ruled by Venus, a Bhadhakasthana dhipathi, and also lord of 4 and 9, when Saturn moves from 2°40' to 4°-53'-20". One may acquire a new vehicle; occupy new quarters; or gain through mother; returns from investments will be satisfactory; new friendship will be formed;

financial partners may assist; gains through friends, and renewing old friendship are indicated.

It also indicates that around 2nd and 3rd March, when Moon transits in Mars star, health may not be alright.

Between 7-3-64 and 13-3-64, there will be much of activity; you will concern yourself more with financial problems. Luckily, you will receive the arrears, your bills will be paid, your claims will be approved, and you may expect promotion. This is a short period in which you can have many pending problems solved. Government will be helpful.

When Saturn moves between 5°33'20" and 6°40' it is under the sway of the sub lord Moon, who is the lord of the sign Cancer. You are concerned with your health, and the new efforts that you may make. You will be contemplating, planning and scheming. Health conditions need rest. Financial position will not be satisfactory. You may have to pay many bills. In business, you have to be issuing cheques, whereas the receipts will be less. Those who desire to go overseas, can have permission, etc. You may meet foreigners and enter into an agreement.

On 23-3-64, Saturn enters into Sathabhisha star and till 12- 4-64, it is in the sub of Rahu. Depending on Rahu's position at the time of birth, the results will be enjoyed. If Rahu had occupied favourable position, and has to offer beneficial results, even though Saturn may transmit in ashtama, the unfavourable eighth house, yet the results will be good. You may not be satisfied or pleased. Yet success is promised. When Saturn transits in a favourable house, success will please you. In evil houses, though you are able to complete your undertakings, you do not feel contented or pleased. Suppose you purchase one 'win' ticket, and one 'place' ticket in the races, when Saturn transits in favourable constellation, and in 8, your win ticket will pay 15 rupees for every ten rupees you bet. But, when Saturn transits in a favourable house and star, even though you have a 'place'

ticket for Rs.10, you will have a return of Rs.100/- and more. Thus, planets will offer results

If Rahu was in an unfavourable position at the time of your birth, when Saturn transits in Rahu's constellation, In the sub of Rahu or Saturn, you have to be very careful. You should avoid driving a car; you should not venture to cross a busy road, you have to observe hygiene. Chronic sufferers will have the relapse of the disease. Patients with heart disease and those, who suffer from general nervous debility, should not exert much. It is better to be on leave and be cautious.

Between 23-3-64 and 12-4-64 when Saturn is between 6°40' and 8°40', health will not be normal. There may be misunderstandings with subordinates and colleagues. Income will be reduced. There may be ill-repute or scandal. Secret inimical activities will come to light and this will irritate you. Short journeys will not be fruitful. Money will get entangled. Cheques will not be realised.

Between 12-4-64 and 5-5-64, you will be able to accomplish some of your desires. Bills will be paid. Receipts of old arrears will improve your bank position. You will come out successful in litigation. Arrangement to go overseas may be made. It is likely to have a short stay outside. Your partner may fall ill. and you may have to take him for treatment to a far-off place, your wife may lose her health, and will need proper medical aid. Thus, in this period, there will be grand success on one side, and worry on the other.

After 5-5-64 till 15th June, Saturn proceeds in direct motion, and between 15th June and 27th July, by retrograde motion. It is in the sub of Saturn : you will feel dull. You become Pessimistic. You find much opposition. Your servants may go on strike. Whatever appeals to you, now, will prove to be detrimental. Avoid disputes. You will find that you are not able to stick to any single programme. You may even give up your principles. Business

will be discouraging. Health will be causing worry or anxiety between 19th and 30th June. Your attempts to expand your business will not be fruitful. You will have to face a lot of obstacle? and impediments. Financial position will be very tight.

Luckily, you receive Providential help between 27-7-64 and 21-8-64, when again, you are normal. You have success in every walk of life. You will attend to your work with zeal. Turn over in business will be satisfactory. You will come out successful in litigation, or atleast by arbitration and compromise, you will get rid of the worry. Children will have grand success. They will show vast improvement in their status. They will have promotion and prosperity. You will also gain by speculation. Your partner will show rapid recovery. You will be, once again, entertaining hopes for further advancement in your life.

Between 21-8-64 and 18-9-64, results will be similar to those you had between 2-3-64 and 12-4-64. Between 18-9-64, and 9-10-64, you will enjoy as much as you did between 13-3-64 and 23-3-64. Between 9-10-64 and 25-11-64 better results, for a longer duration can be had, similar in nature, to what you had between 8-3-64, and 13-3-64. Between 25-11-64 and 15-12-54, your health will cause worry. After 15-12-64, Saturn offers the same results as he did between 23-3-63 and 12-4-63.

LEO - SIMHA

This refers to people born in Leo-Simha as Ascendant-Lagna in Makam or Pooram or Uthiram star first pada.

Saturn entered Aquarius on 26-1-64. Up to 11-2-64, Saturn was in Dhanishta star governed by Mars and in the sub of Mercury. Saturn is lord of 6 and 7 and it is in the constellation of lord of 4 and 9 and in the sub of lord of 2 and 11. Indeed, it is a fortunate position which will help the native to come out successful in competition, election or examination. One may make a long journey, be assisted by a relative and gain satisfactorily. He may dispose of his landed property, at a substantial profit. Between

11-2-64 and 18-2-64, Saturn passed in Kethu sub. It denotes dispute, disharmony, worry and difficulty. If Kethu would have occupied the 5th house, one will lose by speculation. ill-health to children and hospitalisation are also threatened. Between 18-2-64 and 7-3-64, the sub part is governed by Venus. This is a period when both the husband and the wife will be enjoying as Mars and Venus rule the 9th and the 10th houses counted from the 7th as well as the first house. Happy, harmonious life with wife, pleasant functions at home, reunion or both traveling together and visiting holy places, are indicated. They may acquire a vehicle, or shift to their own new Quarters. It is also likely that they receive the yield from the field, etc., In business the partner will be successful in his long journey, contact with strangers and fulfilment of the agreements in time. The pending bills will be realised. Film producers will be able to finish their picture. Speedy turn-over of business and absolute satisfaction are indicated. One will be honoured and his services will be recognised. Since Saturn transits in Mars and Venus, it is likely that a few may have illegal intimacy and may resort to undesirable method to gratify their urge.

Between 7-3-64 and 22-3-64 Saturn will be in the sub of the lord of the Ascendant Sun. Assistance from the Government officials, rent control officer or house allotting society may be expected. It is a favourable time to get into a service or to have permanency in the post already held by him. Only those who have Saturn forming good aspect with its original position will suffer from heart trouble or severe headache and fever.

Between 13-3-64 and 22-3-64, Saturn will be in the sub of Moon, in Mars star DHANISHTA. It is an unfortunate position. Unexpected and uncommon expenses have to be met with irritation or depression. A few may change their residence and incur double expenses. There may be fair complex and one may be confused due to the matters being kept in suspense and it is impossible for him to guess the result. If there were to be any litigation, the judgement will be kept reserved. It is likely that

there is secret inimical activity. Delay or denial or disappointment in one's enterprise is portended. Pressure for money and reduction in the bank overdraft facilities, will cause much anxiety.

Saturn leaves Dhanishta and enters the star of the ascending node Rahu, i.e., Sathabhisha and the first sub is also governed by Rahu. Saturn will be there between 23-3-64 and 12-4-64. Those people who have Rahu in any of the following houses 1,2,3,6,10, or 11 in their horoscope will maintain good health, come out successful in their enterprises and also make good profit in their business. Those in service can expect increase in their income and improvement in status. But those who could have had Rahu in the other houses 4,5,7,8,9 or 12 will incur loss. Bills will remain unpaid. Some objection may be raised. Pressure for money will continue. Assistance will not be had in time. The enemies will have the upper hand.

Between 12-4-64 and 5-5-64, Saturn will be transiting in the sub of Jupiter. It is also inauspicious as lord of 6 and 7 will be transiting in the constellation of lord of 5 and 8. The seventh house represents the opponent, so the lord of 5 and 8 will be lord of 2 and 11 to the opponent. Hence, when the lord of the opponent transits in the constellation of his lord of 2 and 11, the opponent is sure to gain, and the native will lose. Therefore, Saturn the lord of 7, during the period when it passes in the constellation of lord 5 and 8 will be your foe's friend and hence there will be loss in litigation, reversion in service, failure in the competitive examination, disappointment in any interview for the selection, candidates on merit, etc.. But in a few cases, the wife will be making costly purchases for her use and the native will have to issue cheques for heavy amounts. If the chart is that of a girl, it is a beneficial period to husband. Therefore careful judgement is absolutely necessary. Father will go on a long journey, in connection with his profession, Will have good reception in a foreign place and return successfully in the next sub period of saturn in that of Rahu.

in the sub of Saturn one cannot expect success in any of the attempts which one makes. Unfortunately, Saturn is in direct motion in this area till 15th June; later it is in retrograde motion in the same area till 27th July. As Sun, lord of the Leo sign, will be transiting in the favourable signs, one may not suffer due to any adverse result, but everything will be delayed and there will be the doubt whether it would be possible to finish in time a project he or she may have undertaken. It is a period of suspense and very slow progress. One will be dejected. For a few, the last week of June and the first fortnight of July will be so evil that they may have to relinquish their office or resign from any post or get reverted, especially when one has Rahu in the fourth or the 8th house counted from Leo.

Between 27-7-64 and 21-8-64, Saturn will be retrograde in Jupiter's sub and it is likely that the native's son disposes of his vehicle or house. The person continues to face many problems and realises that he is not respected as much as he was, due to various losses. Litigation and waste of money are also shown. Bills from lawyers and physicians will be received at short intervals and one will be dejected.

As was already mentioned for Rahu sub, when Saturn passes between 21-8-64 and 18-9-64 in that area, depending on Rahu's position at the time of birth, one will have unexpected fortune or ill-luck. It is necessary to note in each chart where it was.

From 18-9-64 to 9-10-64, the person will be planning, scheming and making many arrangements to get over the various difficulties. A few may make attempts to get into a new service or to have a new partner. There may be the chances to appeal and one can entertain hopes that shortly there will be success.

Between 9-10-64 and 25-11-64, pleasant success and satisfactory gains are indicated. One will win in the appeal. He may be reinstated. Enemies will disappear. A few may even pass away. The immediate troubles will end. To some extent, there will be financial relief and also peace.

From 25-11-64 to 15-12-64, there are indications of change of place, heavy expenses, necessity to have overdraft, etc., After 15-12-64, those results which one enjoyed between 23rd March and 12th April, will be repeated.

The above are the results indicated by the transiting Saturn. Other planets will contribute what they have to offer. According to Dasa Bhukti system, whatever is indicated will also be enjoyed. A beneficial transit of a favourable planet in favourable star and sub will not cancel what Saturn threatens, but both will be experienced.

VIRGO - KANNI

This refers to people born in this sign as Ascendant - Lagna in the Nakshatra either Uthiram 2nd, 3rd, or 4th quarter of Hastham or Chithrai 1st and 2nd padas.

On 26th January, Saturn passed on to Aquarius and it was in the sub of Mercury. Therefore, the lord of 5 and 6 was transiting in the constellation of lord of 1 and 10. It is auspicious to mother. For the native, gain by speculation or betting or in games would be the result, as for the 7th house, the opponent, Saturn is in 12. Those interested in cinema film production will be able to finish or release the same and begin to realise money which had all along been locked up. His children may sit for higher examination in this period and be confident of success. Wife may misplace any of her holdings and lose it. The partner in business will mistake and his mind will be gloomy, bitter and given much to worry.

Between 11 -2-64 and 18-2-64, Saturn in Kethu sub could have given trouble through writing, either letters or documents. There would have been great inclination to travel and sudden changes. Danger, while on journey and through digestive disturbances or blood pressure might be due to Kethu sub in Mars star.

Between 18-2-64 and 7-3-64, the sub is ruled by Venus who is a strong benefic to Virgo. Therefore, in this period one may come out successful in any departmental examination or in litigation; or one may borrow money from any cooperative society and try to reduce the worry. A few may receive their gratuity or provident fund or any legacy. His children will have very brilliant results and they may even invest on landed property or vehicle. They may attend many pleasant functions and also gain through them. It is not unlikely that one of his children gets married in the first week of March.

The next sub belongs to Sun. This is a bad combination. Mars, lord of 6 in the star of lord of 8, and Sun in the sub of lord of 12 is really evil. The father may ask you to sign any bond as a surety so that he can borrow money or there may be secret inimical activity by father and he may do harm to you or you may be involved in any case and the government will be against your interest due to your faults or allegation against you. Aged people may be confined to bed due to giddiness or blood pressure.

Relief comes during the period from 13-3-64 to 23-3-64 when Saturn will be in the sub of Moon who is lord of 11. If you would have been a bear and before budget you had sold some shares, now you will find that the prices of shares daily come down and you are able to book your profit. Even the amount you would have lost in the games of chances also can be recovered. New partners in the business may be taken. Marriage may be negotiated and concluded.

On 23-3-64 Saturn enters into Rahu's star. Beneficial Rahu promises success in litigation, competition or election. There will be no obstacle and disappointment. This position quickens the mind and tends to a thoughtful, profound and penetrating attitude. Those who deal in mine ores, vehicles of transportation etc., will be able to make good profit. All the unpaid bills will be cashed and the bank position will be good.

Between 12-4-64 and 5-5-64, the period is favourable to invest on landed properties as Saturn transits in the constellation of lord of 4 and 7. Some may buy vehicles and enjoy more comfort. A few may invest in their wife's name. Young people will get married. Those in service may be transferred to another place. Bank position, domestic facility, success in submitting a thesis for higher degree for business expansion or to get into any research department, this is a successful period

After 5-5-64, Saturn moves directly till 15th June. Then it retrogrades. In both these motions, it will be in the sub of Saturn itself up to 27th July. As Saturn is in this sub for a long period and is not favourable, one has to exercise care and avoid injuries, accidents, etc., Partners may leave him and he may have to face singly all the problems. Money position will become tighter and tighter. Children also will increase the expenses and so the expenses will far outweigh income. The native may have enmity with his colleagues and peace of mind is denied. Loss through fraud, improper speculation and cheating may be expected. This position necessitates care in diet. A near relative's health may cause anxiety. So, this period is unfavourable for the commencement of any new venture. The evil results during retrograde motion will be very severe. The severest time is the period when Saturn is stationary.

Fortune or misfortune is never constant. There will always be a break when some relief could be had. Similarly, Saturn moves on 27th July to the sub of Jupiter and then one can have easy borrowing capacity to repay the loans, etc., The fear that he may have to lose much in the transactions will end. Prices will be favourable. One will be able to acquire property or conveyance. The mother will gain much through the investments she has made. Wife may have a journey. If the chart belongs to a girl, the husband will be posted in a far-off place and there will be separation for some weeks. Health of the partner alone will not be satisfactory, and he or she may have to meet uncommon

and unexpected expenses. There may be trouble through law and one may have to squander money to maintain prestige.

The results between 21-8-64 and 18-9-64 will be more or less the repetition of those enjoyed between 23-3-64 and 12-4-64. What experience one had between 13-3-64 and 23-3-64 will again be repeated between 18-9-64 and 9-10-64. Another successful time when you can go ahead with your programme. This period is very short. The next one is a period of loss or waste between 10-10-64 and 25-11-64. Again better days pass on and after 15th December, delay and pressure for money are presaged.

LIBRA - THULAM

This refers to people born in Libra as Ascendant in Chithrai star 3rd and 4h padas, Swathi, Visakam star 1st, 2nd and 3rd padas.

Saturn passed to Aquarius (Kumba) on 26-1-64. It was in the star Dhanishta in the sub of Mercury.

To Libra-borns, Saturn rules the fourth and the fifth houses. it transits in Dhanishta, the star of Mars; it governs the second and the seventh houses. Therefore the results are to be read as the lord of 4 and 5 transiting in the star of the lord of 2 and 7 and not as Saturn an evil planet transiting in another evil planet's constellation. So when Saturn was in this sub, the effect of Mercury, lord of 9 and 10, would have been enjoyed. Saturn as lord of 4, in the constellation of lord 2, indicates that one will have the receipt of money already lent on mortgage to a person, or one will acquire property. Also it is likely that one changes his residence. As lord of 5 in the constellation of lord of 2, 7, 9 and 12 it indicates that he who takes risk in gambling will make a profit. Opponents are indicated by the seventh house, and so Saturn, lord of 11, will transit in the constellation of Mars, lord of 1 and 8. Lord of 5 gives the mind and the opportunity to bet.

That is all. Houses 2, 6 and 11 alone indicate gains. Reunion in the family and celebration of marriage to children are also indicated.

Between 11 -2-64 and 18-2-64, Saturn was in the sub of Kethu depending on its position, one is to offer the results. If Kethu would have been well posited, one will surely gain. But if it is in an evil house, mental worry, disharmony, irritation and ill health to wife are threatened. Between 18-2-64 and 7-3-64 the sub is ruled by Venus, lord of one and eight. It is not beneficial and threatens loss in the transactions. Over work and unsatisfactory returns would have been the result then. One might have disposed of one's property. Officially due to pinpricks, one might have been depressed. The owner of the house might cause worry. But for his mother, it was an excellent period to have her desire fulfilled. Between 7-3-64 and 13-3-64 Saturn will be in the Sun's sub. Either permanency or promotion may be looked for. Arrears of pay may be received; or the long pending bills will be passed for payment. Government officials will be helpful.

From 13-3-64 to 23-3-64, Saturn is under the sub of Moon. Brokers of landed properties will have larger turn over and will have substantial gains. A few may go on long journeys to improve the business. Returns from permanent possessions will be more than normal. But children may fall ill. Temporary separation from the members of the family is indicated.

On 23-3-64 Saturn passes 2 degrees 40 minutes and enters the star Sathabhisha ruled by Rahu. One is to note where Rahu was, at the time of birth in the birth chart. If he is a benefic, such of those favourable results indicated by Rahu will operate. The transiting planet and the house it transits indicate which house matters will be enjoyed by one. The lord of the star indicates the source and decides whether it is favourable or unfavourable. Hence depending on Rahu's position, good and evil are to be judged. Generally, the results will not be favourable. Health of children will be indifferent. Mother may get their partition and

get away. Only the wife will have advantages, accruing in this period, and the native will enjoy mixed results.

Between 12-4-64 and 5-5-64, Saturn will be in the sub of Jupiter and the person may mortgage his property and raise a loan. Or he may have overdraft facilities to construct any building. He may take up land on lease. Short journeys will prove to be successful. Editing and publishing in this period will be profitable and popular. One may take up agency or may be appointed as a representative of any business. This is the period when children can give peace of mind to the parents. They may get into service or be selected for any higher post. If it is a lady's chart, then it is likely that her husband goes on a long journey and comes in contact with foreigners who will be helpful for expanding his business.

From 5th May to 15th June, Saturn will be in direct motion in its own sub. Later till 17th July, it will be retrograde in the same sub. Therefore one will be concerned with matters relating to mother, lands, conveyance, children, speculation, pleasurable pursuits, and change in occupation. The health of mother will be indifferent. Cars will often give trouble and there will be double expenses. There may be Kisan trouble, too. Servants will not cooperate. They may demand more wages. Subordinates may write anonymous petitions or carry tales and cause anxiety and irritation. Forget speculation in these days, Saturn who is called "The Tempter" will tempt you and if you fall a victim, you are sure to lose. The partner may go away for a short period, and there will be temporary separation.

This state of affairs will not continue long. On 27-7-64 Saturn again enters into the sub of Jupiter when you will receive the help from lawyers, judges, politicians and professors. You will tide over difficulties and regain peace of mind. There will be reunion with partner in life. Depression will end. You will attend to your duties with great enthusiasm and will be optimistic. Compromise with the servants and labour is also promised.

Children will come out successful in their examinations. Some will take up new business. In this period, the father of the native may have promotion and prosperity. All-round success is promised up to 21-8-64.

Between 21-8-64 and 18-9-64, similar results as you could have had between 2-3-64 and 12-4-64 will be again enjoyed. Whatever effects Saturn had produced between 13-3-64 and 23-3-64 will again be repeated between 18-9-64 and 9-10-64. For a longer duration, much better results will be enjoyed by you between 9-10-64 and 25-11-64 and the nature of result will be similar to what you had between 8-3-64 and 13-3-64. Because, on both the occasions the sub in the constellation of Mars, was ruled by Sun, lord 11. Thereafter, till the end of the year, the same results enjoyed by you between 23-3-64 and 12-4-64 will operate.

(Always the nature of the result and the source are strongly indicated by the lord of the star and the sub. The sub-lord clearly indicates the exact period when one can expect.)

SCORPIO • VRISCHIKA

People born with scorpio as Ascendant (or Vrischika Lagna having ascendant) in Visakam 4th pada, Anuradha and Jyeshtha constellation.

On 26-1-64, Saturn came to Kumbha and was in the sub of Mercury in the star Dhanishta ruled by Mars, lord of 1 and 6. It is an evil one. Health of the native would be causing anxiety. Those who had piles or blood pressure could have had expert medical aid to avert the danger. The pressure from the creditors and the necessity to meet many demands also might upset one. Therefore between 26-1-64 and 11-2-64 it was an unfavourable fortnight.

Between 11-2-64 and 18-2-64 Saturn had proceeded to the sub of kethu. Hence the threat of the creditors would have

disturbed your peace of mind and caused worry. A few might have entered into litigation. Tenants would have given trouble. There might have been loss through short journeys. Silly quarrels with brothers and neighbours are indicated. Or it would have ended in separation for them. Brother might purchase car with your assistance. Wife also could have gone on a journey but she had neither difficulty nor loss.

Between 18-2-64 and 7-3-64 Saturn will be in the sub of Venus. This is the period when one will be able to repay debt and regain peace. Assistance from friends will come uncalled for. In a way you will get over difficulties. If you take up any venture now, you can be sure of success shortly. You can depend on those whom you approach. Brothers also will enjoy most beneficial results now. They may have substantial gains without pains. Children alone may not maintain normal health. Father may buy a car or land.

Between 7-3-64 and 13-3-64, the sub transited by Saturn is governed by Sun. Therefore he who had been trying to enter into Government service so far, will now secure one. Those in business will be successful in obtaining the licence, for the import, etc., from Government. A few may start new business. It is likely that the contractors, may have to supply materials or erect buildings. Young and active people may become the representatives of any medical and chemical concern. To become a liaison officer, this is indeed, a good period.

Between 13-3-64 and 23-3-64 Saturn will be under the sway of Moon. Hence, one may make attempts to go on a long journey and also borrow. Or one may try for higher education and go overseas. Connections with strangers and foreigners will prove to be fruitful. Editing, publishing, etc., will also be popular and receipt of money that had been locked-up for long will help to avoid unpleasantness. It is likely that mother falls ill and brother gets married. Generally during the period of lord of 3, transiting in the sub of lord of 9 and in the constellation of lord of lagna, one can expect younger's marriage; because, lord of 3 represents

younger brother. 9th house is the 7th from the 3rd and the lagna of the person is the 11th from the 3rd. Always the younger brother gain whenever lords of 1,3, 4 and 9 jointly operate.

Between 23-3-64 and 12-4-64, Saturn enters into the star Sathabhisha which is ruled by Rahu. If one had already enjoyed the period of Saturn Dasa, Rahu Bhukthi in his lifetime, then he can expect the same type of results to a much less extent than what he enjoyed then. Note whether Rahu is good or bad. If it is well posited in your chart, then you can expect agreeable results; otherwise the results will not be agreeable. If Rahu had occupied the 10th house, you will have expansion of the business, larger profits, benefits from Government, etc., This result will also be enjoyed if Rahu had occupied the stars Karthigai, Uthrapalguni or Uthrashada star ruled by Sun, the lord of 10. If Rahu had been occupying the 12th house, it indicates monetary loss, change of place, litigation and secret inimical activities. Between 12-4-64 and 5-5-64, Saturn transits in the favourable sub of Jupiter. It will help much to have speedy turn-over in business to get back the money that had been entangled all along, to have a child or any son getting into service in a far-off place, etc., But it is not good for gambling or making money in the share market. It is helpful only to the opponent. Even in election or in any competition, one may have to lose. But the person will be courageous and will not feel sorry for the failure. In these days, one may purchase costly jewels for his wife. Or if the chart belongs to a lady, the husband will get a decent position in his career, by coming out successful in any competitive examination or interview. Partners will be able to expand the business.

Between 5-5-64 and 15-6-64, Saturn transits in its own sub direct motion. Then till 27th July it is retrograde and in, the same sub. If Rahu had been bad, this sub period will prove to be very bad. Hence it is necessary to judge properly the results of Rahu in one's chart. Saturn is evil by nature. As lord of 3 and 4, it does not improve. Rahu is another malefic by nature and if he

occupies undesirable houses, one has to be careful in these days. Labour trouble may crop up. The vehicle and the house will be requiring urgent and unavoidable repairs. Money position will become more and more tight. In the office, higher officials may not appreciate the arduous nature of the work and give relief; whereas unnecessary pin-pricks will depress the native. In business, the turn-over will be poor. It will be dull, and money will get entangled.

Life is like a wheel and one will neither suffer long, nor enjoy uniformly. Again Jupiter comes for rescue. Good natured people or those who have Jupiter as a ruling planet, will lend their assistance and help you to get out of the troubles. Your son also will assist you. Normal conditions in business will again prevail. The dues long outstanding will be received, if the native is a contractor and has some difference of opinion with the engineers and if his case is taken up by the arbitrator, this is the season when he can expect favourable orders and payments made in his favour. If there is any litigation in a court of law, it is better you enter into a compromise as it will be beneficial to you. It is a lucky period for your daughter to get married.

Between 5-5-64 and 15-6-64, Saturn passes on its own sub in direct motion and between 15th June and 27th July, it is retrograde. It is again dull, lethargic one. But there will be frequent short journeys. Neighbours will be helpful. Writers and authors will be able to complete their books and release them. Brother gets promoted. Mother goes on a journey and there will be temporary separation. Children also will be touring. Partner in business is capable of improving the business and arrange for further expansion. He may go overseas and make efforts to take up agency to obtain foreign collaboration. He may try for international trade.

Between 27th July and 21st August all matters take a favourable turn. Reunion in the family, return of the partner, or his or her grand success will contribute your peace of mind. You will attend to your

duty with greater zeal. Bank position will automatically improve. Popularity will also increase. It is a jolly good time for a short period just like the bright sunny day in the continuous rainy season. A few may have Grahapravesam for their new house. The brokers of landed, Properties and cars will book larger profits. Those in the cinema line or music will also gain much in these days. They should make all efforts to come out successful, especially those who were not fortunate in the examination on the last occasion. Shortly, you will come out successful.

From 21st August to 18th September, Saturn will be in Rahu sub. Those, to whom Rahu was good, can expect decent promotion to partner, long journey and success in higher studies. Those who work in mine ores, will have larger profits and greater transport facilities. Those in the transport can have a change for the better. Dealers in automobiles, motor spare-parts, etc., will expand their business. The financial position of the younger ones will be satisfactory. Mother may go on a journey. Father's health may cause anxiety which is the only evil result. Between 21-8-64 and 18-9-64, Saturn again enters into the star Dhanishta governed by Mars and the sub is ruled by Moon. Hence the results which will be enjoyed now will be more or less similar to what you had between 2-3-64 and 12-4-64. It is a desirable one. Next, Saturn will be in the sub of Sun between 18-9-64 and 9-10-64 and the benefit will be just what it was during the Sun sub period, it is favourable for the fulfilment of your hopes and desires. Between 9-10-64 and 25-11-64, the results will improve.

Thereafter, between 25-11-64 and 15-12-64, your partner's health may not be alright. You may have to pay medical bills and loans previously outstanding. Short journeys will not bring immediate fruit. You may have some trouble with brokers or servants. Your colleagues will not cooperate with you now.

After 15-12-64 Saturn will offer such results which it gave between 23-3-64 and 12-4-64 and the next year will be a happy one, much better than the present one.

SAGITTARIUS - DHANUS

This refers to people born in the ninth sign of the Zodiac. Sagittarius as their Ascendant, in the constellation Moolam, Poorvashada or Uthrashada first pada, at the time of birth, or when Sun was passing in Dhanus when the birth date was, between 16th December and 13th January any year.

(The so-called Sade-Sati came to an end on 26-1-64 when Saturn left the sign Capricorn and entered into Aquarius-Kumbha. This is mentioned by those who predict the transit results taking the position of Moon at birth. Such a method of prediction is not offered by Westerners. Many who follow the Hindu system will be happy to note that the evil period has come to an end and that better period will follow especially after Jupiter enters, Aries the fifth sign from the position of Moon in Sagittarius. In their experience, they will observe that it is an approximation to some people, and not exact one to all. In many cases the opposite results will be experienced.

The explanation is that:

1. the radical position of the planets is not taken into consideration. One might have been born in Moolam and he may have a friend and a foe born in the same star. The person may have Saturn in Taurus, whereas the friend or enemy may have Saturn in Aries. For the native, when Saturn transits in Aquarius, it will square its original position, whereas for the other it will form harmonious aspect. Hence the results must be just opposite to each other.

2. The constellation and the sub in which a planet is transiting is not considered. When Moon is given importance for transit results, the lunar mansion is somehow omitted. In practice, it will be seen that the lord of the constellation alone offers the nature of the results and the sub is more important for fixing the exact time.

Saturn on 26-1-64, entered Aquarius and was in the sub of Mercury till 11-2-64. It is a period when some would have had change in the institution with satisfactory increase in salary. A few would have received arrears of pay. The contractors might have received the amount which was long pending. New contracts would have been signed by the cine actors. Increase in the income of the musicians during this period was also promised. To come out successful in all the efforts and to have the benefit from the government, this period is propitious. The birth of a child is also likely. The health of the native will improve.

Between 11-2-64 and 18-2-64 Saturn was in the star of Mars and the sub of Kethu. It indicates visit to holy places and meeting great sages. One may donate for the renovation of a temple or spend money on religious functions. Though there is no adverse result in this week, something or other would have caused unnecessary worry.

Between 18-2-64 and 7-3-64, the sub is ruled by Venus, lord of 6 and 11. Those who are having litigation may enter into a compromise which will result favourably. Younger brothers will have some improvement in their health and thereafter it will not worsen. They will start attending to their normal duties. Children will come by unexpected fortune. The partner in business may proceed on a long journey. Mother's health may cause anxiety. Speculators will make satisfactory gains in their transactions, especially when they are "Bears".

Between 7-3-64 and 13-3-64, Saturn will be in the sub of Sun who is lord of 9. As Dhanishta is ruled by lord of 12, it is likely that a few may enter into foreign service, while a few may go overseas and enter into a contract with foreigners. Advantages from the Government and high officials are also indicated. Students sitting for competitive examinations and those who are interviewed for any selection will be successful. Providential help is promised.

13-3-64 to 23-3-64 is the period when Saturn would be in the sub of Moon. This is an anxious time. Worry and difficulties will increase. In spite of all comforts and success in his own personal attempts, unavoidable troubles will lessen his enthusiasm. It is likely that he will differ from officials and incur their displeasure; health of younger ones will again cause anxiety. A few may invest money on landed properties or change their residence.

On 23-3-64 Saturn enters into the star Sathabhisha, ruled by Rahu. If Rahu would have occupied a sign other than Cancer (Kataka), and Scorpio (Vrischika), or if Rahu had not occupied Moon's star Rohini, Hastham, or Sravanam or Mars star Mrigasirisham, Chithrai or Dhanishta, the native can expect financial improvement, peace of mind, prosperity in business, success in his efforts and vast advancement in his career which was denied in the past two years when Saturn was transiting in Sravanam star governed by the lord of eight.

Between 23-3-64 and 12-4-64 only those to whom Rahu was ill-posed as mentioned above, will face many problems and they will be saying that even though seven and a half years Saturn is over, the trouble had not come to an end, whereas fresh ones also crop up. If Rahu is beneficially posited, health of brother will improve. The partner will return after her short tour. Litigation will end in a compromise. There will be no more waste of money, in the near future.

Between 12-4-64 and 5-5-64, the sub period is very good. Happy celebrations at home, change of residence and construction of a new house, partner's promotion in service and partner joining a new concern are all likely. There will be many social functions. Popularity will increase. Pleasant expenses also will go up equally in this period. Those who expect the facilities from bankers will have them to their satisfaction without any further delay. Those who would desire to study further will have their wish also fulfilled. It is a pleasant time.

After 5th May till 15th June, Saturn will be in direct motion. Thereafter it is retrograde and is in the same sub of Saturn till 27th July. In this period, all worries will come to an end. Health of all the members will be satisfactory. Unnecessary expenses and waste will be reduced. Financially one will be economical and will save, unlike in the previous sub-period when for prestige, much money would have been spent. Many short journeys may be made and trips will prove to be fruitful. Editing, publishing or taking up any agency in this sub will be advantageous. Generally Saturn transiting in the third house is considered to be beneficial. It will certainly be beneficial when it transits in its own sub. Therefore those born in Sagittarius have to make the best use of this period.

The following one is also favourable, as between 27-7-64 and 21-8-64 it will be under the sway of Jupiter. Even certain matters which would not have been finished earlier within 27th July will be completed now. Those who have been erecting any building during the past few months will complete it. Few may get married though

betrothal alone could have taken place during the past sub period. Thus one may note that the native will enjoy material welfare in this period and the future will appear to be bright.

One's Karma never allows one to be ever happy or feel dejected. So it gives a break now and then, when Saturn by retrograde motion enters into the sub of Rahu, which will not be agreeable. In the coming months, the results that one may enjoy will be similar to what he had in certain periods in the previous sub as follows. Whatever results one had between 2-3-64 and 12-4-64 will again repeat between 21-8-64 and 18-9-64. Results between 13-3-64 and 23-3-64 will again be felt between 18-9-64 and 9-10-64. Saturn produces the same effect from 9-10-64 and 25-11-64 as it did between 8-3-64 and 13-3-64. The end of the year shows some worry similar to what you had between 23-3-64 and 12-4-64. The New Year will be a pleasant and prosperous one.

CAPRICORN (MAKARA)

This refers to people born in Capricorn as Ascendant in (i.e., Makaram as lagna), Uthrashada star 2nd, 3rd and 4th padas, Sravanam star and Dhanishta 1st and 2nd padas when Sun would be in Capricorn and also those people who are born between 14th January and 13th February any year.

Saturn was in Mars' star and Mercury sub between 26-1-64 and 11-2-64. Mars is lord of 4 and 11; Mercury is the lord of 6 and 9; Saturn is the lord of 1 and 2. This would have been a favourable time, to own a car, to repair any conveyance, to make a journey, to come in contact with strangers and also to have sudden gains through them. New friendship could have been formed. Partner's health might have been affected.

Between 11-2-64 and 18-2-64 Saturn was in the sub of Kethu. So one might have visited holy places, had initiation of mantra by meeting sages. One would have booked larger profits if Kethu at birth occupied favourable houses. But, if it was in an evil house, loss, worry, confusion, dispute, separation, irritation and relapse of chronic ailment are threatened.

Saturn was in the sub of Venus between 18-2-64 and 7-3-64. it is a lucky time to have satisfactory success in enterprises. Celebration of marriage or appointment of children will be offered by Venus, lord of 5 and 10 in the constellation lord owning 11th house. Always pleasant functions or marriage to children will take place whenever the conjoined period of lord of 5 and 11, operate. Reunion with family is also shown.

Between 7-3-64 and 13-4-64, the sub transited by Saturn is ruled by Sun. It shows purchases to partner, opening fixed deposit account in a bank (lord of 2 in the sub of lord of 8) , to have advantages through Government officials. A few may get into service in Insurance Corporation, Land Mortgage Bank, Housing, Planning or in any Surgical or Military Department. Saturn is under the sub of Moon between 13-3-64 and 23-3-64.

A period of ailment to wife or husband. The person may go on a journey, break it on the way and make substantial gains. A few Capricorn - borns may have their marriage fixed up. Litigation will end favourably. A new partner may be taken in, to improve the business. Overdraft facilities may be arranged.

Now Saturn enters into Sathabisha and it is Rahu's sub between 23-3-64 and 12-4-64. Note in the birth chart of the person where Rahu was. If it is occupying beneficial sign, it will offer good results. If it were to be in evil sign, loss of an elder member or dangerous ailment, loss of money, ill-repute and scandal are threatened. But if it were in the beneficial house, one can expect such favourable results as Rahu indicates. If Rahu is in the 5th or 11th house, one will purchase property, gain by speculation and lottery, make new friends and become more and more popular. Rahu in 10 indicates promotion and prosperity. Rahu in 9 or 12 will give long journey, contact with foreigners and life in foreign land. It may allow one to have higher studies.

From 12-4-64 to 5-5-64, Saturn will be in the sub of Jupiter. It indicates journey, expense, investment or publications, availability of phone, repayment of loan, increase in one's popularity, assistance from elders and frequent visit to hospital to see friends, etc.,

From 5-5-64 to 15-6-64, Saturn will be in the sub of Saturn. Health will be normal. Bank position will improve. Business will expand. Those who suffer from cataract, may have it operated. Those who suffer from tooth-ache will have it removed and have relief. Those members who had been away will return and lead a pleasant life. Physicians will have good opportunity to establish a good name. Engineering contractors will have a large number of big contracts. The predictions of astrologers (lord of 2, Sani, in the second house) will come true, especially when they predict the longevity of a person.

From 15-6-64 to 27-7-64, Saturn will be retrograde in the same position and similar results will be repeated. One will have enough

of comforts and convenience. Unavoidable and necessary expenses will be uncontrollable. A few may have a change in their vocation. Musicians can have larger income and unexpected investment on property, on an impulse. There can be no labour trouble. Materials for construction will be had whenever needed. There will be no loss, nor deception.

Between 27-7-64 and 21 -8-64, the results will be similar to what one had between 12-4-64 and 5-5-64. Long journey, higher education, repayment of loan, respect from elders, greater popularity and lack of understanding with brother are indicated. Brother may shift his place of residence. He will have peace and prosperity which would have been denied till July.

From 21-8-64 to 18-9-64, the results will be similar to what one had between 23-3-64 and 12-4-64. Those who had Saturn retrograde at the time of birth and Rahu in a favourable sign will come by fortunate results. Providential help is promised. Visit to holy places and enjoyment of peace of mind are indicated.

The period between 18-9-64 and 9-10-64 is similar to the one between 13-3-64 and 23-3-64. Long journey, separation from kith and kin, popularity and prosperity in the places of visit and substantial gains are shown.

From 9-10-64 to 25-11-64. The results will be similar to what one would have enjoyed between 8-3-64 and 13-3-64. The sub is ruled by Sun. Raising loan to meet unavoidable expenses, delay in realising the locked-up money and labour trouble are indicated.

25-11-64 to 15-12-64. The results are similar to those enjoyed between 13-3-64 and 23-3-64 and again between 18-9-64 and 9-10-64. Ailments to partners, hospitalisation and medical expenses unusually will be great. Waste of money is also threatened.

After 15-12-64, the end of the year will be pleasant and smooth.

For people born in Capricorn, (Moon sign) the so-called, Sade Sathi, 7½ years' Saturn is in the third and the last phase. Fortunately, the lords of the constellation in Aquarius are Mars, Rahu and Jupiter. To whomsoever these 3 planets occupied favourable position at birth, they will surely enjoy beneficial results. If they occupied such houses which are disadvantageous, this transit portends evil. All results depend on the position of these three lords ruling the Nakshathras Dhanishta, Sathabhisha and Poorvapadhrapada. (I am born in Capricorn, I am appointed as visiting Professor of astrology, Baratiya Vidya Bhavan, I started magazine, I received honour, title, gold medal, brought out books, celebrated the marriage of daughter etc., what has Sade-sati done. Please note.)

AQUARIUS (KUMBHA)

This refers to people born in the 11th sign of the Zodiac with Ascendant - Lagna, in Aquarius.

Saturn entered this sign on 26-1-64. It has to transit in Aquarius, the three stars Dhanishta, Sathabhisha and Poorvapathrapada. In 1964, Saturn does not reach Poorvapathrapada. It passes through Dhanishta and transits in Sathabhisha about 5°, retrogrades and again enters Sathabhisha on 15-12-64.

Between 26-1-64 and 11-2-64, Saturn was in the constellation of Mars, lord of 3 and 10 and In the sub of lord of 5 and 8. Hence the native will have a transfer. He may be posted as a touring officer. Those in the film line will have larger income from the distributors. Both will gain. Musicians can have good fortune and popularity. Those dealing in stationery and publication will have the chance to take a partner or to have satisfactory financial assistance.

Between 11-2-64 and 18-2-64, the sub is ruled by Kethu. Industrialists may face the non-co-operation of the subordinates. They may cause trouble and create confusion. Enmity with brothers, cousins and neighbours, loss of money by pick-pocketing, anonymous petition against the native and thereby both fear and irritation are threatened.

Venus sub is transited by Saturn between 18-2-64 and 7-3-64. Though the period is short, one will have grand success. This compensates for the previous undesirable experiences. A few may invest on lands. Some may get married as Venus is the chief governor for marriage and Mars is to fix up urgently and celebrate. Some may go overseas for higher studies or for foreign collaboration. Separation from kith and kin is also shown. From 7-3-64 to 13-3-64, Saturn was in the sub of Sun. It shows short journey; pleasant life; purchases of partner; minor ailments to husband or wife, settlement of accounts and favour from Government. Contractors can have new tenders accepted. Agency of foreign concerns may be taken up, especially drugs, chemicals, etc.,

13-3-64 to 23-3-64, Extravagant expenses, Separation among partners under pleasant circumstances, Ill-health to the native and medical expenses, etc., are indicated. The children of a few Aquarius borns will gain money or come out successful in any competition. They will come out victorious in litigation. Thus Saturn passes the end of Dhanishta star. From 13-3-64 to 12-4-64, Saturn transits in Satabhisha. The first sub of Rahu will be transited in this period. Depending on the position of Rahu, one will experience the results. If Rahu were to be in the beneficial signs, one can expect good luck. If Rahu is ill-placed, loss, difficulty, secret inimical activity and worry will be the result. If Rahu would have been in Venus, Mars or Jupiter's sign, the person will enjoy his life, even though the astrologers may say Janma Sani, Thritipa Brahaspathi and so on. Actually people can verify and satisfy themselves how the gocharapalan given by Hindu sages

does not agree with the practical experience of those people. But, if you adopt KRISHNAMURTI PADHDHATI, i.e., to divide a star and to read the result modified by the lord of the sub of the star, the results expected, alone, will actually come to pass.

Between 12-4-64 and 5-5-64, the native may take a new post. A new cycle of life will start. He can have larger income. A few may have the birth of a child. Both the financial position and the family circumstances will be satisfactory, offering peace of mind. New friendships will be formed. Partner also may get into service. A few may start a new business. Overdraft facilities will be had easily. Popularity increases.

From 5-5-64 to 15-5-64, Saturn is in direct motion and then upto 27-7-64 it is in retrograde in the same area. This indicates that the person may invest more money on business, or change the residence or make purchases more for comfort and convenience. If Rahu would have occupied an evil sign, ill-health, enmity, separation, agony, loss of friends and also money are threatened. The servants will not cooperate. Rheumatic pains may cause worry. Heart-patients have to be careful. They should not neglect even when the trouble appears to be bearable.

From 27-7-64 to 21-8-64, again Saturn is in Jupiter's sub.

These persons can go ahead with any programme. Providential help is promised. Rahu in the 11th house promises sudden unexpected gains. Children come by fortune. Even if a child could not have had admission in the college at the first selection, in this period he is sure to get. Those who would have been interviewed for appointment in between May and July will receive appointment order. Licences from the Government can be had, Permit and pass will be received. A successful period, indeed !

21 -8-64 to 18-9-64. One may go on long journey or change residence. One may spend money on land, building, conveyance furniture etc., Change of car is also indicated. Pleasant functions at home, speedy turn-over in business, larger returns from

investments and satisfactory yield from lands are also indicated. The results between 18-9-64 and 9-10-64 will be similar to those which would have been enjoyed when Saturn was transiting in the same sub of Moon in between 13-3-64 and 23-3-64.

Similarly results between 9-10-64 and 25-11 -64 will be more or less the same enjoyed between 8-3-64 and 13-3-64. The results given in the periods 13-3-64 to 23-3-64 and 18-9-64 to 9-10-64 repeat between 25-11 -64 and 15-12-64. After 15-12-64, Saturn enters into the sub of Rahu. Depending on the position of Rahu, one can expect either favourable or unfavourable results.

Note to Students : Suppose two people were born on the New Moon day in the later half of February and the first half of March, at the time of sunrise; and the year of birth was different. So that they may have their ascendant in Aquarius, Sun in Aquarius and Moon in Aquarius. But, the position of Rahu and Sani at the time of their birth were different.

Suppose to one, Rahu was in Sagittarius in Poorvashada star. And to the other, Rahu was in Virgo in Hastham star. To the former, Rahu at first promises peace, pleasure, Permanent tie of friendship, prosperity, etc., To the latter, Rahu threatens ill-health, accident, danger, pressure for money, trouble through creditors, payment of taxes (most in advance), etc., Therefore when Saturn transits in Sathabhisha - Rahu's star - to the former it brings fortune and to the latter misfortune. If both play cards, the former wins invariably, the latter loses. If both stand for election, the latter faces miserable defeat.

Similarly, suppose one had Saturn in Taurus in Rohini star and the other had Saturn in Libra in Chithrai Star. When Saturn transits in Aquarius, it will square its original position at the time of birth for the former, whereas it forms the favourable trine aspect with the Saturn in Libra. As Saturn rules the Ascendant, the former will fall ill. Hospitalisation is portended. He may worry himself much, as there are none to carry out his work. So he may incur

loss. For the latter, health will be excellent and he will have grand success in all his enterprises and will gain much.

Thus, it will be seen that the results enjoyed by people born in the same sign Aquarius differ widely and they are diametrically opposite. Therefore the general predictions offered are only the trends indicated by them according to their nature, without taking into consideration the strength and occupation of the planets in the horoscopes of the individuals. That is why, a few experience such results as are indicated by the transiting planets and a few just opposite ones.

PISCES - MEENA

This refers to people born in Pisces as Ascendant in Poorvathrapada fourth pada, Uthrapathra pada or Revathi stars.

Saturn was in Mars' star Mercury sub between 26-1 -64 and 11 -2-64. Mars is lord of 2 and 9. Saturn is lord of 11 and 12. It is transiting in the 12th house. Therefore one may invest on landed properties or purchase some conveyance. He is likely to take partner and start a new business. He may dispose of a property with good profit. One can have chances to accumulate black money. The partner may go on a short journey. Children may be transferred on promotion. Separation from the members of the family is indicated.

Between 11 -2-64 and 18-2-64, Saturn was in the sub of Kethu. If Kethu would have occupied an unfavourable house, the results will be most undesirable. Loss of money, prestige, and honour are threatened. Friends will hesitate to lend their assistance. All matters will be in a liquid state. Nothing will be completed. It is a period of either suspense or undue delay causing anxiety. It is likely that one's health is affected and hospitalisation may be needed. One may make a trip to his native place or to a holy place. One cannot attend to his routine work.

Between 18-2-64, and 7-3-64, Saturn was in Venus sub. It is a pleasant time to one's wife, as he will buy costly jewels and dress for her. Or one may purchase a car and give it to the partner in business for his use. Bank position will be deteriorating. Creditors may bring pressure and the native has to repay the loans. It is not unlikely that the conveyance gives trouble to him when he goes a long distance. It is an unhealthy time to the younger brother.

Between 7-3-64 and 13-3-64, Saturn was in the sub of Sun. People, suffering from heart attack, have to take complete rest and avoid the relapse of the same. Unnecessary misunderstandings with officials and also strangers is threatened. Enemies will increase in number and cause anxiety. Litigations should be avoided. Too much exertion would be harmful. Everything should be taken lightly.

Saturn is under the sub of Moon between 13-3-64 and 23-3-64. It is a dangerous time for children. Their attempts will fail. They will have much opposition. The native will be much depressed. He will lose confidence and be carrying on his duties without any enthusiasm. The younger brother will have transfer or will go on a long journey. Father will change his residence.

Between 23-3-64 and 12-4-64, Saturn will be in the star Sathabisha ruled by Rahu and in the sub of Rahu. If Rahu would have occupied a favourable house at the time of birth, the person will sell away his personal permanent possession or clear off the debts and purchase peace of mind. If he is to sit for any examination, immediately after he leaves the hall, the various points which he omitted to write (which he knows very well) will come to his memory and depress him. Loss of money through the matters indicated by Rahu is portended. Rahu occupying an evil sign threatens one with litigation. One may even be taken into custody and it is indeed a very bad time.

Chronic disease will flare up and cause anxiety and the native may be forced to take rest.

From 12-4-64 to 5-5-64, Saturn will be in the sub of Jupiter who is lord of 1 and 10. Just like a life-boat, Jupiter will offer assistance at least at the last moment. It is a welcome period to tide over difficulties and be relieved. It will be similar to the bright Sun shining for a few days in between two occasions when one gets dejected with the continuous rain. One who would have had difficulties with his officer till 12-4-64 will be free from worries till 5-5-64 as the officer may go on leave. It is not a transfer because, if he is transferred, the worry will be once for all over. But it has to repeat itself after 5-5-64. Therefore, the officer or the person may go on leave and join duty to give the same trouble again for some weeks. If one has litigation, he may entertain hopes in these days. If one runs Jupiter's period, the judgement will be passed in favour of the native. But if he runs Saturn's period, the judgement will be reserved and it will be announced against him after 5-5-64. That is one of the reasons why a few persons born in the same sign are successful and a few driven away by fate repeat the slogan "What am I to do? It is 7.5 years Saturn - Sade Sati - which is very powerful".

Between 5-5-64 and 15-6-64, Saturn will be in the sub of Saturn. The person has to be tackling an unbalanced budget. Even his diet will be unbalanced and he may have rheumatic pains or suffer from flatulence or blood pressure. His friend will misbehave and give trouble to him. Uncommon expenses will follow, one after another speedily, and the person will have much pressure for money. A few may change residence. Either the son-in-law or daughter-in-law will cause worry, and it will be a problem to maintain peace at home. Children have to exercise much care, and it is likely that they meet with an accident or get injured. A few may have expert medical aid, even if the ailment may appear to be simple. Due to laziness, the native may lose some good opportunities and feel sorry for his lethargic tendency.

From 15-6-64 to 27-7-64, Saturn is in retrograde motion in the same sub. Those who used to get money to show favour to any person by doing his duty, will be trapped and taken to task. One should avoid one's evil habits. Bribery will land him in trouble. He may lose his job when Saturn again transits in the same position, after enquiry. This is a period of suspense, causing much anxiety. The 7th house to Pisces (Meena) is Virgo (Kanni). It is ruled by Mercury and lord of 10 to Virgo is also Mercury. To the 7th house, Saturn is transiting in the favourable house 6 - Upachayasthana and hence, such people will even be visiting astrologer's house to know their fate. Why all these? Knowing that 7,5 year Saturn to those born in Pisces is very evil, one has to abide by law and try to be friendly with all. A few will invest on landed properties. Construct house slowly due to the dearth of men and materials especially when Rahu was in the 4th house or in Mercury's constellation.

From 27-7-64 to 21-8-64 it is a pleasant period, Success in one's enterprises, long journey, higher education, life in a hostel, thorough change in surrounding and environments are indicated. The sub lord Jupiter indicates that one may change his job, and serve in another institution. A few may dispose of their ancestral property and convert it on to liquid cash. Money that had been locked up may be realised. Any risk in money matters in this period will amply reward him to tide over the earlier difficulties and to keep a reserve to meet the demand in the immediate future, contractors who had been suffering all along due to the non-payment of bills, will have an arbitration and gain money by effecting a compromise. Children will maintain health and prosecute further studies. If their names were to be in the reserve list for college admission, they will be able to secure a seat in this period. Some clerks, who suffer in their office due to heat wave would pray that their officers would call them and discuss pleasantly on some issues and allow them to remain in his air-conditioned room, and thus stay for a longer duration. The moment the business is over, the clerk comes out and feels the heat of the sun much more.

Similarly between 21-8-64 and 18-9-64, the native of Pisces will have troubles. The nature of the difficulties will be more or less the same experienced between 23-3-64 and 12-4-64.

On 18-9-64, Saturn enters into Dhanishta star ruled by Mars and in the sub of Moon. The effect of Saturn in between 18-9-64 and 9-10-64 will be similar to what he had between 13-3-64 and 23-3-64.

Results enjoyed between 8-3-64 and 13-3-64 will repeat themselves between 9-10-64 and 25-11 -64, as the area transited by Saturn is the same.

Between 25-11 -64 and 15-12-64, it is an unhealthy period for children. Partners may draw more money. Wife may make costly purchases. Father may be transferred, or he may change his residence.

After 15-12-64, Saturn enters Sathabhisha. Depending on Rahu's position, one can have fortune. 1964 will prove to be much better as days pass on.

(This is the method, which we have to follow for each planet and then sum up all).

When does Saturn leave Aquarius? Which
Ayanamsa are we to follow?

Questions:

Sir,

Regarding the sex of the child to be born, one may fail when one predicts. We can excuse because the child is in the womb of the mother and one cannot see it. One can try to predict and may fail. But the movement of Saturn from one sign to the other is a matter which anybody can see, and can mention when it actually enters into a particular constellation or sign. There are many modern equipments and instruments to aid our vision, yet how is it that each person gives his own date for the transit of Saturn to Pisces. Prediction may vary. But how can the transit of a planet from one sign to the other differ so widely? When Raphael Ephemeris is a correct one, why should not we follow the correct Ayanamsa and use Raphael's Ephemeris?

Answer:

Dear Sir,

Generally the date on which Saturn enters into any sign is worked out by referring to the Raphael's Ephemeris and deducting Krishnamurti Ayanamsa therefrom. Each person follows his own Ayanamsa and claims that his alone is correct. Each wants to establish that it is correct by taking instances and then applying only the Western system of prediction. That is, they take the relative position between the cusp and the planet or between one planet and the other and offer the prediction. They should note that whatever be the Ayanamsa, the relative position will be the same. The readers are aware of this fact and such an argument is meaningless.

If the difference in age between husband and wife is 6 years, at all ages the difference will be six. Similarly the relative position between two planets will be the same whatever be the Ayanamsa.

Therefore, to establish that a particular Ayanamsa is correct by taking only the relative position is not the proper method. Therefore, one has to follow Stellar Astrology and especially the "sub" propounded by Krishnamurti. Then let one note down, when a person is running 'A' dasa, 'B' bhukthi and 'C' anthra; on which day in which star and in which rasi and lagna, he has got a child. The significators must agree. Again note the dasa and bukthi at the time of marriage and find out the ruling planets of the partner. They also must agree. If you find that there is some disagreement, immediately note down the lord of the constellation in which the planet was. If the lord of the constellation would be stronger than the planet itself, then the lord of the constellation, will rule the star or lagna in which the partner ought to have been born.

If one were to note down the results according to Stellar Astrology, using various Ayanamsa (which gives different periods of dasa at the time of birth), one will find that Newcomb is correct. I follow only Newcomb. The Ayanamsa which I follow and which is followed by Mr. Lahiri, or late C G Rajan and Madathu Panchangam are all more or less the same. The difference is negligible. There is no meaning in finding fault with others but we have to do good by following the correct one. We should not do any disservice by being adamant. Let me say that Saturn enters into Pisces Meena only on 7th April, 1966.

There is a Holly place called Thirunallar in South India in Tamilnadu. People visit the place, saying that the Emperor Nalan completed his 7.5 years Saturn period and his sins were washed off and he was freed from such evil results of Saturn by visiting Tirunallar. Most of the people do not want to find out on which date actually Saturn moves from one sign to the other but they simply follow a particular calculation which needs correction.

Whatever be the day when Saturn transits from one sign to the other, for one to pray to God, it does not matter whether he does it exactly on the same day or a few months earlier or later.

Anyhow the prayer will give mental solace and therefore, those who would like to visit Tirunallar can very well visit the place according to the timings given by Madathu Panchang or C G Rajan's one. Vakya Panchang and any other statement by the Astrologers using incorrect Ayanamsas may be ignored for our advantage.

Traditional Transit system - meaningless

Most of the traditional astrologers are not aware that the GocharaTransit System advocated by various sages, saints and scholars in different text books are useless, meaningless and not universally applicable.

Present authors reproducing those dicta in their own words and publishing in different languages, actually do harm to those who keep their horoscopes side by side with such books without mentioning that these rules fail miserably in majority of the individuals.

According to Prof. Krishnamurti, only those who suffer due to Grahachara (bad time) will follow this Gochara.

Of all the lagnas according to Tradition, it is only the Moon lagna that is most important for ascertaining the Gocharapala. One ought to calculate and from the Moon's place predict the effects due to transits of planets through the signs counted from that of the Moon, sign by sign.

During transit, the Sun gives good results when he is in 3 or 6 or 10 or 11 counted from Moon; the Moon in 1,3 6, 7, 10, 11 Jupiter in 2, 5, 7,9 and 11; Mars and Saturn 3,6,11 and so on.

Then they mention about Vedha. (Refer to previous chapter).

Let me give the Gochara position of planets at the time of one's marriage. So also study the horoscope of people at the time of their appointment, at the time when one receives President award, at the time when one wins in races, one gains in lottery

etc. as per traditional system and KP you yourself will find the truth. Let us ignore those who continue to give as per tradition even though they know that it is useless and meaningless or they continue to give lame excuses for every failure. They have to live, they know only this system. Anyhow, they are committing sin.

The following is the horoscope of Mr. K B Jagadish; Rapid maritimes Shipping and Clearing Agent, 308, Thambu Chetty Street, Madras-1.

Rahu 11-52 III 10-57	IV 12-57	V 10-57	VI 6-57
II 6-57	10-10-1931 1-11 PM. 13-04 N 80-15 E.		VII 3-34 Jupiter 24-32
Lagna 3-34			VIII 6-57
Saturn 24-08 XII 6-57	XI 10-57	X 12-57 Venus1-49	Sun 23-10 Moon 5-51 IX 10-57 Kethu 11-52 Merc. 17-16 Mars 22-54

Sun Dasa balance 1 year 10 months 12 days. He was married on 1-9-1950.

The position of the planets then, at the time of marriage was as follows. As per Dasa, Bhukthi System he got married during Rahu Dasa, Rahu Bhukthi, Rahu Anthra.

Rahu 6-07	Moon 6-00		
Jupiter 8-39	1-9-1950		Venus 24-49
			Sun 14-56 Saturn 27-45
		Mars 20-17	Kethu 6-07 Mercury 8-5

In the birth chart Moon was in Virgo. In the chart erected for the moment of marriage -

- (a) Moon was in - Ashtama - Chandrashtama.
- (b) Kethu and Mercury in Janma(in 1).
- (c) Mars in 2.
- (d) No Gurubalam - Guru in 6.
- (e) Rahu in 7.
- (f) Sade-Sati - 7.5 years Saturn - Saturn in 12.
- (g) Sun in 12.

What will an honest, traditional astrologer with these rules say? A very bad time! Is it not? That is what is said in the books, including Phala Deepika by Mantreswara.

- (a) When Sun transits in 12; sorrow, loss of wealth, quarrel, fever.

- (b) Moon in 8: fear, worry, anxiety, avoid good.
- (c) Mars in 2: fear, hot words, loss of wealth.
- (d) Mercury in 1: loss of wealth.
- (e) Jupiter in 6: trouble from enemies, cousins and sufferings from disease.
- (f) Venus in 11 - Safety.
- (g) Saturn in 12: worthless and fruitless business, robbed of one's money by enemies: wife and children suffer.
- (h) Rahu in 7: loss.
- (i) Kethu in 1: sickness and death.

Persons learning palmistry, refer the book and at once look to their palm. They get terrified; similarly if one refers these rules and apply to the Virgo rasi born, what is his finding? Fear, disease, sorrow, ill-health, loss, enemy, etc. Oh God! How long are we to put up with such readings? How quickly the astrologer disposes of one saying that Gurubalam has not come! The Gochara is bad. But the above is a fact. Is the traditional method useful? Meaningless.

Apply Krishnamurti System

This person got married on 1-9-1950. Judge house 2, 7 and 11: Saturn owns the second. Only Rahu is in Saturn star; 7th is occupied by Jupiter. Mars is in Jupiter star and sub of Saturn. 11th house is owned by Mars and Venus is in its star. Hence Rahu, Mars and Venus are the strongest significators. Rahu is in the constellation of lord of 2 and 12. Venus is in the constellation of lord of 11 in the sub of Mercury. Rahu is the strongest. Rahu Dasa gave marriage the moment it started.

By transit Jupiter was in Rahu star Rahu sub. Rahu was in Jupiter sign, Saturn star Mercury sub.

Moon was in Kethu star Rahu Sub (Kethu represents Moon and Mercury); Mars in Jupiter star and Jupiter sub. Sun who is to indicate the month of marriage was in Venus star Venus sub. Saturn was in Moon sub. Kethu in Mercury sub. Mercury in Venus sub.

Thus all planets were transiting in the constellation of the significators and sub of the significators.

Let a planet transit in any sign, or in any house. As per KP you never bother about it. What you should find out is, the transit of the significators in the constellation and sub of the significators of a particular matter. This rule is applicable to one and all. No other rule to confuse; no alternative - No contradiction; full of clarity. The simplicity of the system and the scientific approach are useful to make one and all give the correct date of event which come to pass and the argument is convincing and scientific.

Forget tradition - follow KP

Luck by lottery - another example

The gentleman born in Cancer sign as Janma rasi - having Moon in Cancer at the moment of birth had.

(a) Jupiter in Janma, i.e. first rasi which is according to Hindus bad.

(b) Saturn in 4 to Moon - bad.

(c) Moon in 5 - bad.

(d) Kethu in 12- bad.

Again the same gentleman had fortune in March 1968. Then also transit results were adverse according to Hindus, whereas all the questions are answered by my system.
